LIFE INSURANCE.

OCEAN INSURANCE COMPANY.—The absence of any institution in this city for insuring lives, and the extravagant rates of premium demanded by the northern and European companies for granting life policies to persons residing in Louisiana, have determined the Board of Directors of this Company to put into operation that clause in their charter which authorises insurance upon lives, on a scale of premiums which will enable every one who is in receipt of a moderate annual income to secure for those who are dependent on them a comfortable provision in case of their death.

The scale determined on is as nearly as possible the average of those adopted by the London offices for insuring lives in England, no addition whatever being made for difference of climate, and by this scale an annual premium of twenty dollars paid by a person 25 years old will secure the payment of one thousand dollars to his assigns should he die within the year—an annual premium of one hundred dollars will secure five thousand dollars—and so on in proportion for any larger amount.

The [illegible] may be paid quarterly, half yearly or yearly.

THE VEGETABLE SPECIFIC.

FORTY years' experience in various climates—24 years established in this city—neither quackery nor imposition—Same as that of LEROY'S FRENCH SPECIFIC—the great specific of Dr Leroy of Paris, the most effectual and rapid cure ever known for a certain disease.

Those who wish to avoid quack nostrums and cure themselves with little trouble and without liability to exposure, will find this medicine well suited to their case, as it requires no change of diet and does not affect the breath, which prevents the possibility of discovery while using it.

Besides this important advantage it never leaves the parts subject to the troublesome weakness that ensues so often after the use of other medicine, and it takes in the first stage of disease it will arrest the discharge and remove all unpleasant feelings in a few days. In a protracted or chronic stage of the disease, in obstinate ulcers, female complaints at a weakness of these organs, it is without doubt the most effectual remedy ever discovered, and has cured many obstinate diseases every other medicine had failed. A case of this kind of more than 20 years standing was recently cured in less than two weeks by this specific after upwards of $100 had been spent for medical advice and medicines, without effect. In fact it has been used with such success in all stages of the disease that we challenge any case to be produced that it will not cure, under a forfeit of $500.

We give no long quackish recommendations to deceive the public. If the medicine does not speak for itself, no one shall speak for it. Our object is to notify where it can be had, and the proprietor challenges a single case of Gonorrhea to be brought in which the mixture will not effect a rapid cure, under a forfeiture of $500. This is a disease which unfortunately pervades all ranks of society—high, low, rich and poor, matrimonial and single. They are now presented with a remedy by which they can cure themselves, without the least exposure in the shortest time possible. The genuine is sold wholesale and retail at the proprietor's of the Southern Chemical Laboratory, No. 96 [illegible] house street, New Orleans, and at no other store, &c.

CERTAIN DELICATE DISEASES.—A Private Practice for Males and Females—The Doctor prepares medicines that are found more efficient than any others, for the cure of delicate diseases. They are certain, speedy and pleasant in their action, performing a cure in the least possible time, (generally in a few days,) without endangering the health of the constitution of the patient, and without any risk of detection. They are entirely vegetable, and contain no dangerous or deleterious drug.

The doctor apprises strangers that he has received a regular medical education, and has an extensive practice in private diseases, and has been so successful in their treatment, that he can safely warrant a cure for all cases.

I find it has been a matter of surprise to some, that any one of rank and eminence in his profession, should devote his talents to a disease, which persons of every description pretend to cure so easily. If, however, but one thousand part of the misery these people bring upon society, were known, every different opinion would be formed. And still, it is not only the present misery and dejection, brought upon the mind as well as body, that is deplored, the misery of them are of such a nature as to effect posterity, if not, indeed, to destroy the generative functions altogether. It is a fact that the seeds of this disease, when not properly treated, may remain as dormant in the constitution, as to show themselves in another way than in their effects upon posterity.

All suffering under protracted cases, aggravated, or unsuccessfully treated by inexperienced or pretended practitioners—those laboring under the destructive effects of mercury or quack nostrums, and all who suspect themselves infected, can be speedily and safely cured, and all ages with a guarantee of cure.

The Doctor may be consulted with honor and confidence, by persons contemplating marriage, who have been the subjects of delicate disease. Apply at the office, No. 30 Customhouse street, New Orleans, La.
