GENERAL COUNCIL.

EXTRA SITTING OF FRIDAY, MAY 10, 1844.

The Council met this day in extra sitting on a convocation from the Mayor.

Mr H. B. Conna was called to the chair.

Present—1st Municipality: E. Waltz, H. B. Conna, A. Mercier, C. Morel;—2d Municipality: W. H. Avery, W. T. Repp, Jas. Saul;—3d Municipality, A. S. Lewis, S S Relf, A. Rousseau.

Absent—2d Municipality: W. Christy; 3d Municipality C. Dauney.

On motion the Council proceeded by ballot to the election of a President.

Messrs Avery and Mercier being appointed tellers, on counting the votes it appeared that out of 10 votes deposited in the box Mr H B Conna obtained 9 votes, A S Lewis 1 vote.

H B Conna, Esq. was therefore duly elected President.

The Journal of the two foregoing sittings were read and approved.

The following message from the Mayor, under date this day, was read:

Mayoralty of New Orleans, 10th May, 1844.

To the Honorable President and Members of the General Council of the city of New Orleans:

Gentlemen—I have convoked you upon the written request of Messrs Morel, Lewis and Relf, and refer to said gentlemen for the object thereof.

With respect, I have the honor to be

Your obedient servant,

WM FRERET, Mayor.

Mr Morel announces to the Council that the object of this meeting is to verify the election of the Mayor, therefore he moves that a committee of three be appointed to examine the returns of said election.

The President appointed Messrs Morel, Relf and Avery.

The following letter from Mr Edward Montegut was read:

New Orleans, 6th May, 1844.

To the President and Members of the General Council of the city of New Orleans:

Gentlemen—Though there is no legislative act granting to the General Council of the city of New Orleans the authority to decide on the validity of the election of the Mayor, I deem it proper to submit myself to the usage established since the division of the city into three Municipalities, therefore, I lay before you the titles showing that I do possess all the qualifications required by law to fulfil the office to which I had the honor to be elected.

With due consideration I have the honor to be

Your obedient servant,

ED. MONTEGUT.

On motion the Council went into recess.

During the recess Messrs C. Dauney and W Christy entered the Council chamber.

The Council having resumed his sitting, Mr Morel, President of the Committee appointed to examine the qualifications of the Mayor, in the name of the majority submitted the following report:

The majority of the committee appointed to examine the qualifications of the elected Mayor of the city of New Orleans, Edgar Montegut, beg leave to report: That they have minutely examined all the returns of the votes received in the three municipalities, together with the other documents and titles submitted to them, and being of opinion that the said Edgar Montegut is duly qualified, offer the following resolution:

Resolved, That the honorable Edgar Montegut being duly elected Mayor of the city of New Orleans, and possessing the qualifications required by law, is entitled to hold the office of Mayor of the city of New Orleans, from and after the 2d Monday of May instant, agreeably to law.

CHRISTOVAL MOREL,

S S RELF.

Mr Avery submitted the following counter report:

I differ in this opinion of the majority of the committee, on the ground that there is no law authorising the General Council to judge of the election or qualifications of the Mayor elect.

W H AVERY.

Mr Lewis moves that said report and resolution of the majority be adopted.

Mr Jas Saul opposes said motion on the ground that the General Council has no such power; quotes all the powers granted by law to the Council, and says that he looked in vain for such a law. In the absence of such a law, and notwithstanding usage, he duty compels him to vote against the report and resolution.

Mr Christy offers the following resolution as a substitute:

Resolved, That in adopting the foregoing resolution the Council does not intend to usurp a power not accorded to it by law, but merely to express its opinion and to exercise no authority so far as it may be authorized by law and custom to do so.

On motion, said resolution was put to vote and rejected.

The yeas and nays were called for on the adoption of the above report and resolution presented by the majority of the committee, and produced the following result: In the affirmative, Messrs Waltz, Conna, Mercier, Morel, Christy, Lewis, Dauney, Relf and Rousseau—9; for the negative, Messrs Avery, Hepp and Saul—3.

Said report and resolution were therefore adopted.

The following resolution, presented by Mr Waltz, was on motion adopted:

Resolved, That a committee be appointed to fix the salaries of the Mayor and the Secretaries to the Mayor, and other officers of the General Council.

Messrs E Waltz, Saul and Lewis were appointed on said committee by the chair.

On motion of Mr Relf, a copy of the report and resolution adopted this day by the General Council were requested to be transmitted by the Secretary to the Mayor elect.

The following [illegible], [illegible] by the Mayor, was [illegible].

Resolved, That a committee [illegible] appointed to [illegible] into the amount of [illegible] [illegible] [illegible] taken [illegible] on the [illegible] Treasurer [illegible] the [illegible] of the [illegible] [illegible] [illegible].

Messrs Saul, Mercier and Dauney were appointed on said committee by the chair.

On motion the Council adjourned sine die.

JN. REYNES, Secretary.

VALUABLE IMPROVEMENT IN SUGAR MAKING.

THE subscribers have this day purchased of Charles Gauvrel, Esq., by act of sale passed before the Hon. Ch. Tessier, P. J. of East Baton Rouge, the entire right of invention to a machine for skimming sugar kettles, &c., which is considered by all sugar makers and practical planters who have seen it, the greatest desideratum in sugar making—perfectly removing all foreign matter from the "Grande" to one-twentieth time it could possibly be done in the usual mode, and consequently, clarifying the juice so that there will be no difficulty in making sugar of the best quality.

They are prepared to execute with dispatch, all orders given them at the shortest notice, and in the most substantial and durable manner.

All communications to their address, (Manchac Post Office, La.) will be promptly attended to.

ORLEANS HIGH SCHOOL—LYCEE D'ORLEANS.

THE undersigned, Professors EVERETT, WYNDHAM and MERVOYER, late of Jefferson College, sole proprietors and directors of the Orleans High School (Lycée d'Orléans) beg leave to inform their patrons and the public in general, that the partnership formed between Mr LEWIS ELKIN and the undersigned, by an instrument dated on the 17th April last, and assigned their entire right, title and interest in and to the High School to the undersigned—said transfer taking effect from the 1st May, 1844.

The proprietors of the High School deem it their duty to disclaim in the most emphatic manner any connection whatever with an institution advertised to be opened at Mandeville, and taking to itself the references of the High School. The advertisement relating to this concern was inserted in the newspapers without the knowledge of the undersigned, and continues to appear against their will.

BOYER'S INSTITUTION.

Conti street, between Dauphine and Burgundy.

This institution, where the pupils are subjected to the system of education discipline, under the supervision and vigilant care of its founder, continues to justify the confidence heretofore reposed in it. The improvement of the pupils is remarkable, and the examination, each year, exhibit a number of diligent and intelligent scholars who ultimately become useful, intelligent and enlightened citizens. The studies are invariably pursued in a thorough and extended manner, and the children receive, as their parents may desire, a simple elementary, or classical course of instruction. Mathematics—that most essential branch of all practical education—receives, as heretofore, particular attention.

A few more boarders can be accommodated at BOYER'S INSTITUTION. It possesses a very large and well ventilated dormitory admirably adapted to the approaching hot season.

For terms apply to Mr. Boyer, Conti street, between Dauphine and Burgundy. m6—1w

FORMERLY THE BELLANGER INSTITUTION, DIRECTED BY L. SIRET.

No. 139 Barracks street, on a spacious and airy piece of ground.

MR. LOUIS SIRET, for the last three months Director of this Institution, deems it now proper to make known the plan of studies he has adopted in his Seminary.

He is disposed to preserve, as far as practicable, a *juste milieu* between the hot house system of instruction which, by its ephemeral results, too frequently eventuated in a loss rather than an economy of time, and the mode adopted in Europe which are sometimes too rigidly absolute and carried out without due regard to the diversity of vocations and capacities.

In the course of studies already begun or about to be begun—a course which each family may pursue just as far as it may suit them, pupils will find, as well in English as in French, lessons graduated upon all subject pertaining to a primary or secondary course of Elementary instruction:

Grammar; Mathematics:
Geography; Greek and Latin;
History; Literature, &c.

In the space of six or seven years, the entire circle of studies may be requisite to ensure the degree of Bachelor of Arts, which constitutes the natural and necessary term of a thorough education. Mr. Louis Siret hopes that he may thus be enabled, in some degree, to diminish the exile of a number of young men destined for the study of medicine and law, by preparing them in advance, according to the programme published by the University of France, for the examination which must precede their admission to the superior schools.

TERMS:

Elementary Studies, 1 year..............$90
Primary do 6 do..............8
Secondary do 6 do..............10
Half boarders will pay..................15
Full boarders (washing included)........40

ORLEANS HIGH SCHOOL—LYCEE D'ORLEANS,

Esplanade Street.

THE undersigned, proprietors and directors of the High School, beg leave to inform the patrons of the institution that the rumor lately circulated respecting its removal to Mandeville, is utterly destitute of foundation. In the language of their first prospectus, they feel the permanency of their institution to be of the highest importance to parents, and this feeling is now strengthened by the liberal patronage bestowed on the school during the present year.

Professor ELKIN, their late partner, being about to leave the institution, the proprietors have secured the services of Professor MASSAIRE long known as an able and successful teacher in this city. This gentleman will furnish his valuable assistance to the Directors during the greater part of the day.

The proprietors, who, according to their original plan, devote a large portion of their time to instruction in the school, will continue to be assisted by Mons. A. de Tuestes, Professor of Spanish and Book-keeping; Verney, Professor of Music; Jume, Professor of Drawing; Devoti, Professor of Dancing; and by a sufficient number of ushers.

The printed statutes and regulations of the High School may be had in Esplanade street and at the Book-stores of J B Steel, V Hebert, A Moret, and Mme. St Rose Delaunay.

Communications must be addressed to one of the undersigned proprietors.

TO THE SUGAR PLANTERS OF LOUISIANA.

N RILLIEUX' PATENT FOR MAKING SUGAR—The undersigned have been appointed agents of Messrs Merrick and Towne, proprietors of the Southwark Foundry, Philadelphia, and assignees of the Patentee, hereby give notice that they are prepared to contract for the apparatus to be delivered and set up in time for the ensuing crop—The various sizes are as follows, viz:

No. 1, capable of boiling 6 hhds in 24 hours.
2, do do do 12 do do
3, do do do 18 do do
4, do do do 24 do do

The sugar produced by this process is increased at least 25 per cent in weight and 33 per cent in value over that obtained by the usual process. The molasses decreases 50 per cent., but is of a very superior quality. The sugar is made white by the use of coarse bone black, without employing moulds or liquoring. The saving of fuel is another important consideration. The bagasse of ribbon cane, properly preserved is sufficient to make the crop of sugar—and if bagasse is not used, one cord of good wood per hogshead is alone sufficient—the only fire used being in the furnaces of the steam engine. This new method of sugar making is no longer an experiment, as may be seen by reference to the letter of T J Packwood, Esq., published in the Bee of Feb'y 10th, and in the bulletin, Tropic, Picayune and New Orleans Price Current of 17th Feb'y, on whose plantation it has been erected, and proved to his entire satisfaction.

Orders received until the end of April.
