THE BEE.

PRINTED AND PUBLISHED DAILY, BY JEROME RAVON.

STRAUB PRINTER.

THE UNION—IT MUST BE PRESERVED.

MONDAY MORNING, OCT. 27, 1834.

At the request of several officers of the Legion, we announce Bernard Marigny, Esq., as a candidate for the office of Major General of the first division, vice the late General P. Lavaud, deceased.

Dist. James S. McFarlane will be strongly supported at the ensuing election to represent the first ward in the city council by

MANY VOTERS.

The reader will find in the proceedings of the city council a project of an ordinance abolishing the office of city surveyor, and creating in its stead an engineer department. The great extension in the size of our city, and the multiplicity of the duties of the present surveyor, demands the adoption of this, or a similar measure. It has been ordered to be printed, and will finally be discussed next Saturday.

The North ran mail due Saturday, failed beyond Charleston, (S. C.)

The elections in that city had resulted in favor of the Nullifiers, alias Whig party.

MELANCHOLY ACCIDENT!

On Friday, evening at 6 o'clock, the steamer Boonslick, from Point Chicot, came in contact with the steamer Mississippi Belle, about 15 miles above this city, and stove her in, she sunk immediately head foremost. The Boonslick immediately cast off her yawl, which picked up several persons from the water. The Boonslick immediately tugged round, and in that space of time there was only about 40 feet of her upper deck above water—she have a rope aboard, which was made fast to a staunchon, by which means the remaining persons on board were saved. It is supposed that there was about 100 passengers—only one child's passenger was lost. Of the deck hands and passengers about TEN were lost, of which number there was 2 women and 3 children. The boat and cargo is a total loss.

(Reported for the Bee.)

MUNICIPAL PROCEEDINGS.

Sitting of 25th October.

Present the Recorder, Seymour, McCready, Mercier, Pedesclaux, Lafarte, Bermudez and Montegut.

The process verbal of the last sitting having been read:

The secretary read the following letter from the Mayor together with that of Mr. Pritchard:

MAYORALTY OF NEW ORLEANS,
25th October, 1834.

To the Recorder and Members of the City Council.

Gentlemen,—I have the honor to transmit to you, inclosed herewith, the resignation of Mr R. O. Pritchard, one of the representatives of one of the wards in the corporation of New Orleans, and at the same time inform you that I have postponed the election of an alderman in the place of Mr Gustave Schmidt, to the same day that the one to replace Mr Pritchard takes place, that is to say, until the 4th of November next. I have taken this course in order not to fatigue the gentlemen who assist at these elections two times in succession.

On the 30th November next, the forming of the levee dirt upon rails, keel boats, steamboats, &c. &c., landing opposite to the Faubourge Annunciation and Lacourse, will be assessed according to an ordinance of the Council. In the meanwhile, I think it would be expedient for the Council to fix upon the minimum of the price. I beg you to observe that last year the same were formed out of $2 50.

I have the honor to be, &c. &c.

DENIS PRIEUR, Mayor.

Mr. Bermudez moved that the council do accept of the above resignation—adopted.

Upon the second part of the Mayor's letter, Mr. Bermudez moved that the council do sit with closed doors.—Adopted.

The doors having been opened, the secretary read a letter from Mr. Freret, resigning his situation as alderman.

M. Montegut presented the following resolution.

Resolved, That the council accept with regret the resignation of Mr. J. P. Freret, and that the Mayor be requested to take the necessary publications in order to supply his place—adopted.

The secretary began to read sundry petitions, when

Mr. Bermudez rose and said, Mr. President, in the article 23 of our rules, it is provided that "Letters written to the Council by the Mayor, and business left unfinished at the last adjournment, shall have a preference over all other matters that are the order of the day, and no motion or any other business shall then be received, without special leave of the Council, until the business which was in progress in the preceding session, be terminated, unless the city council, by a majority of two-thirds of the members present, decide otherwise.

I therefore move (said Mr. B.) that the petition of Mr. D'Homecourt, of which the reading had been begun at the last session, be submitted to the council.

Mr. McCready: I demand that the petition be read before this is done.

The Recorder: As I was not present at the last sitting, I should like to know whether the reading of the petition had been commenced.

Mr. Bermudez: It had.

Mr. Paris d'aux: It is not.

The Recorder requested the secretary to read the entry on this subject in the process verbal of the last sitting.

This part of the process verbal being read, the secretary said that the title of Mr. D'Homecourt's petition had been read.

The Recorder decided in favor of Mr. Bermudez.

Several members hung on a contrary opinion as to the reading of Mr. D'Homecourt's petition:

Mr. Bermudez moved that the Council do declare whether the reading of that petition had been begun or not.

The letters said says having been called, it appeared that Messrs. Montegut, Bermudez and Dixon had voted in the affirmative, and that Messrs Mercier, Labatut and Pedesclaux had voted in the negative. The recorder gave the casting vote for the negative.

The secretary read a petition from the Carrollton Rail Road Company, asking leave to attend the same.

Mr. Dixon, moved, that this petition be referred to a special Committee.

The Recorder appointed Messrs Dixon, Montegut and Mercier to compose said committee.

The secretary read a petition from the Medical Society, praying for leave to sit in the Council Chamber.

Mr. Mercier moved that the said Society be permitted to sit in praya for, except on days when the Council meet.

Mr. Dixon opposed the motion.

Mr. Mercier replied to his objections.

Mr. Dixon again responded. The question being taken, the motion was adopted.

The Secretary read a letter from Mr. J. Carlow praying him to pay $250 due by him to the Council, referred to the committee upon claims.

Mr Mandeville demanded leave of absence—accorded.

A letter from Messrs Lebreton, Dorgenoy, and Volant Lebreton was read, praying to be compensated for a lot traversed by the canal Girod, referred to a special committee, composed of Messrs Mercier, Montegut & Dixon.

A letter from Mr Crocker was read—referred to the finance committee.

Several private petitions were then read, and laid upon the table.

A letter from Fire Company No 6 was read, and referred to a special committee composed of Messrs Dixon, Macready and Bermudez.

Mr Pedesclaux presented the following report:

The committee named by the City Council with a view to induce Mr J. Pilie to withdraw his resignation as City Surveyor, has leave to report:

That according to the wish of the Council they repaired to the residence of the said Pilie, who having been informed of the object of the visit of the Committee, desired them to make known to that body how sensible he felt for this mark of honor on their parts, that he would continue to fill the numerous and delicate duties attached to the station of surveyor, with pleasure; but that notwithstanding his wishes and his exertions to serve the corporation with fidelity, and discharge conscientiously all the obligations imposed upon him in his official capacity, he found it impossible to do so, seeing that the multiplicity and importance of his functions was far above the power of one man, however active or however devoted he might be to the task confided to him. In consequence your committee, after having obtained some information from the said Pilie, thought that the public interest required that some charges should be made in the duties of the city surveyor. With this impression, they take the liberty to avail themselves on this occasion to present to your consideration an ordinance concerning the appointment and duties of an Engineer for the city. They inform your honorable body that they will at another moment occupy themselves with presenting another ordinance, creating a surveyor for the city.

The whole of which is respectfully submitted by

H. PEDESCLAUX, Chairman.
E. MONTEGUT.

ORDINANCE concerning the nomination, powers and duties of the Engineer of the city of New-Orleans:

Whereas the daily extension of the city has so greatly multiplied the public work, that it is indispensable that the officer charged to direct and overlook it, should be dispensed from any work for individuals:

The City Council ordain as follows:

Art. 1. The mayor shall appoint and by and with the advice and consent of the City Council shall commission an Engineer for the city of New Orleans, who shall before entering upon the discharge of his functions, solemnly swear before the mayor, to discharge his duties with fidelity, impartiality and exactitude.

Art. 2. It shall be the duty of said Engineer, to make his report to the Mayor upon all that shall concern the opening, the keeping and repairing of streets, roads, bridges, levees and canals in the city and incorporated faubourgs, to overlook and direct the execution of all the other works required by the corporation both as to the contracting and in every other manner, to see that the workmen of the city fulfil their obligations, as well as the workmen when they shall be employed on account of the corporation; to make and furnish all kinds of plans, estimates, boundaries, surveys and levelling, linestimes and rectifications that may be called for by the mayor and the city council, to inform the Mayor of all encroachments that may be made on the public way to overlook concurrently with the commissaries of the police to the execution of ordinances relative to houses and walls facing the street, which threaten to fall to ruin, and to all such buildings that may by their fall do injury to the public way, and which may produce some accident; to overlook the execution of the ordinances relative to the inscription of streets, or numbering of houses, to cover gutters and stairways upon the street, wooden buildings, enclosures of zinc and spanish walls, the construction of roads, ovens, forges, furnaces wells and necessaries; the making, constructing, keeping and repairing of banquettes or foot-ways and the planting of trees in the promenades; to distribute daily the men and carts employed in the customary work of the city; to keep an account daily of the work of said men and carts; to make and furnish at the expiration of every month a register explanatory of the employment of such men and carts, the number employed and the price per day, which employed by the month the price per month, and the amount which may be due to each one of them; to give all bons or orders for materials, tools and other objects necessary to the making of the work; to verify and certify the account for materials, work or other objects furnished to the corporation; to draw and furnish to the city treasurer the amounts which each proprietor on the public way has to pay for the paving of sidewalks and the making of footways, and when one or the other of these works shall be made by the said proprietors, he shall draw a certified account expressing the sum which they shall reclaim. It shall also be his duty to keep registers as follows:

1. One upon which he shall enter copies of all accounts certified by him, the date of the certificate and the employment of the object.

2d. One which shall contain a duplicate of all accounts for paving, which front proprietors shall reimburse to the city.

3d. One upon which shall be inscribed a duplicate of paving reimbursed by the city to individuals, and the date of the certificate. And in order to define with precision the position of the lots of which the paving of the street on the side walk has been reimbursed by the city, he shall keep a quarterly register, upon which he shall inscribe upon the reverse page, the front of the square where the lot is situated, the name and side of the street, the front of the lot, as well as its distances from one of the neighboring streets, set forth in American feet. The name and surname of the proprietor, and if possible the name and surname of the adjoining neighbor; and lastly on the right hand opposite to each other shall be placed in the inspection columns the name and surname of the proprietor to whom the certificate has been delivered, the name and side of the street and upon street the lot is situated, its distance from one of the two neighboring streets, the date of the ac count, and that of the certificate. Each register shall be accompanied by an index, in order to facilitate researches. Also the said engineer shall execute all that has been prescribed, or may be prescribed by the ordinance, act, and deliberations of the city council.

Art. 3. To facilitate the duties imposed by the present ordinance, the engineer shall be aided by one clerk and two deputies chosen by him, persons of confidence, who shall be under his immediate direction, and act upon his responsibility.

Art. 4. The said engineer shall not under any pretence whatever during his employment, do any thing for individuals, for companies or others, any operation of surveying, plans, designs, or other work. His attention shall solely be directed towards the accomplishment of his duties.

Art. 5. The emoluments of the said engineer shall be and is hereby fixed at $ per annum, which shall be paid to him by one twelfth at the end of each month in an order from the Mayor upon the City Treasurer. The emolument of each of his deputies shall be fixed at the sum $ payable in the same manner.

Art. 6. Resolved, that the said engineer shall furnish security for the faithful discharge of his duties in the sum good and solvable, of $

Art. 7. All ordinances or parts of ordinances contrary to the disposition of the preceding ordinance shall be so, and are hereby repealed.

Mr Dixon moved that the same be printed and Be made the order of the day for the next sitting.

Several other reports were then made the order of the day, without being read.

Mr Pédesclaux moved that a licence for a boarding house be accorded to Madam D.... R.... accorded.

Mr Montégut demanded the order of the day on the report of the committee charged with examining the accounts of Mr Alpuente, ex-treasurer; and that his widow be exempted from paying the sum of $337 70 due to the city—adopted.

Mr Labatut rose and said, Mr President, as I think it is time to put an end to the reading of all those petitions with which we are burthened, I present the following resolution:—

Resolved, that the Council justify Mr D'Homecourt of the accusation brought against him, as according to the report of the committee, although there exists an error in the copy of Mr Pilié's plan made by Mr D'Homecourt, for it might have been involuntarily, and therefore should not injure the reputation of Mr D'Homecourt.

The ayes and nays having been called, it appeared that Messrs Labatut, Bermudez, Montégut and Dixon had voted for the adoption; and Messrs Pédesclaux and Mercier against it—adopted.

The Council thereupon adjourned to Saturday.

Matthias, the Impostor, says the New York Courier, now in prison waiting his trial, is daily attended by a young artist, who is busily engaged taking his portrait, which is to be engraved for publication. We were yesterday informed of a circumstance in relation to this business, which serves to exemplify the extreme vanity of this knavish lunatic. When the painter first began his task he only intended sketching a portrait of the face, but this Matthias would not permit, and insisted that the artist should draw his figure at full length, robed in his pontificals; which was accordingly done. The picture represents him in his fine embroidered coat studded with stars, and a large silver sun on the left breast; the sword of Gideon by his side, the long rule for measuring Paradise in his right hand, and a large cocked hat, covered with a variety of strange devices on his head. Our informant further stated, that Matthias placed himself in a variety of positions, before he could determine on one which would shew his person to most advantage.—Alas, for poor human nature!

THE PARTING AND MEETING OF FRIENDS.

There's a time when the eye is bedew'd with a tear,
And the bosom with sorrow doth swell;
When each *hope* that arises is check'd by a *fear*,
And the tongue cannot whisper "farewell."
Though we put on the semblance of mirth, still a sigh
From the heart to the lip oft ascends;
And we can none around though many are by,
"Tis the moment of "parting with friends."

There's a time when the eye is bedew'd by a tear,
Though the heart be o'erswelling with joy;—
When the press of the hand gives a welcome more dear
Than all words which the tongue can employ.
When the thought of long years flashes over the mind,
And their pleasures sweet memory blends;
Recalling to life all the hopes we resign'd,
"Tis the moment of "*meeting with friends*"

COMMERCIAL.

From Levy's Price Current.

NEW-ORLEANS, Oct. 25.

REMARKS.

The weather, since our last report, has been dry and pleasant, affording every facility to transactions out doors, where every thing wears the most favorable appearance, indeed, the change that a single week has brought about is so great, that we cannot refrain from noticing it; and it may now be said that the commercial campaign has fairly opened. The city is healthy, and the Mississippi, as last noticed, 13 1-2 feet below high water mark.

COTTON—Arrived since the 17th instant of Louisiana and Mississippi, 5577 bales; Tennessee and North Alabama, 519; Mobile, 622; Lake, 172—together, 9886. Cleared in the same time: for Liverpool, 4119; New-York, 746—together, 4865—making an addition to stock 5023, and leaving on hand, including on hand not cleared on the 23d instant, a stock of 25966 bales. The market, since our last publication, up to Thursday, was exceedingly quiet in consequence, we suppose, of the high prices for which such bodkets were standing on; a decline, however, of 1-2 a 3-4 cent was then submitted to. At present rates, the demand is fair, and sales to a considerable extent have been effected; and it is to be hoped now, that business will, in consequence, become more active. Choice Cotton is so very rare, that it is expected it will undergo no change in price; but for other grades the tendency, at this moment, is rather downwards, since the market first opened, have experienced a decline of about 2 cents. Among the sales, we notice yesterday the following, viz: 520 at 16 cents, 2200 at 13 1-2, 2560 at 14 1-2, 1160 at 13-13-16 per lb. round, all of Louisiana and Mississippi Cottons.

STATEMENT OF COTTON.

Stock on hand 1st October, 1834,	bales	5756
Arrived this week,	5519	
Arrived previously,	20466——	20466
		26222
Exported this week,	4955	
Exported previously,	7266——12181	
Stock on hand,	bales	26966

SUGAR—We find it rather difficult, at this moment, to give a correct representation of the market; it is said that very little of the old crop is left in the City, and too little of the new has been brought in, to enable us to quote it correctly. Cleared this week: for New-York, 36 hhds, 100 bbls.; Charleston, 186 hhds. 300 bbls.; Baltimore, 172 hhds. 140 bbls.; Mobile, 46 hhds. 28 bbls.

MOLASSES—This article, for the present, may be said to be out of the market; at least, we could learn nothing worth reporting in relation to it. Cleared this week, for Mobile, 25 bbls.

TOBACCO—The only transaction we have to notice is the sale of sixty hhds., a choice lot, from second hands, at 5 1-4 & 5 1 4, and cents for Crossed, Second and First quality; there continues to be a good inquiry. Arrived this week, 5 hhds. Cleared, for Senegal, 44 hhds.

We discover that an error crept into our statement of the stock of tobacco on hand, on the 1st instant; we shall, the coming week, ascertain what the amount of stock is, and have it corrected; our Tables, at present, make it much too large.

STATEMENT OF TOBACCO.

Stock on hand 1st October, 1834,	Hhds.	349
Arrived this week,	5	
Arrived previously,	27——32	
		381
Exported this week,	44	
Previously,	87——131	
Stock on hand,	Hhds.	250.

FLOUR—There is a fair supply in market, and rather a limited demand at present quotations, $4,62 1-2 a $4 87 1-2 per bbl. Arrived this week, 7669 bbls.

PORK is getting in better demand and still remains scarce. Arrived this week, 256 bbls.

BEEF—A few bbls. arrive from time to time, and are purchased as soon as they are in market. Arrived this week, 2 bbls.

BACON is still scarce, but the demand is not so good as it was; former prices are still asked. Arrived this week, 19 boxes hams and 29 casks assorted.

LARD—Holders are asking 8 cents, but it does not go off very freely. Arrived this week, 2 bbls. 385 kegs.

BUTTER—Northern is in fair demand at 19 a 20 cents per lb.; Western, except when very good, continues dull at 10 a 12 1-2. Arrived this week, 230 kegs.

BAGGING and BALE ROPE—The demand for Bagging, though pretty fair, is not so brisk as it has been; 25 cents is now the highest rate. Rope is quite dull at quotations. Arrived this week, 604 pieces Bagging, 354 coils Rope.

LEAD—The price of Lead has still further advanced; all that has come into market, amounting to 8975 pigs, has been taken on arrival, and the market is now clear; the last sale, was a lot of 1300 pigs, at $4,25 per 100 lbs.

SALT—Liverpool Brown and Ground are held at former quotations, but the demand very limited.

COFFEE—Former prices are still current, but the market remains without much animation.

RICE is scarce and in good demand; the last arrival was taken at $1 per cask.

FISH—Mackerel are in good demand at the quoted prices: there are but few in market. Herring are selling for $1, 50; and Cod for $1 25 per box.

SOAP—Northern—The market has a good supply; sales are made at our quotations.

CANDLES, Sperm.—The stock in market has so much accumulated, that they have become rather dull at 32 a 33 cents per lb.

CORN is coming in more freely; the demand is fair at $1 per bbl. in the Ear; Shelled in sacks of 2 bushels each, at $1 62 1-2. Arrived this week, 1409 bbls. 35 sacks.

OATS are in fair demand, at $1 50 per sack, containing 2 bushels. Arrived this week, 812 bbls.

HAY—A considerable quantity of Hay has come into market both from the North and West. We quote cargo sales at $1 per 100 lbs.

LIME, Thomaston—The wholesale price is $2 per cask, and demand fair.

FREIGHTS—Notwithstanding there have been several new engagements this week, still no positive improvement has taken place; the operations of the Cotton market not having, as yet, been sufficiently extensive, to create what we would call a fair demand, the rates remain the same.—See Table.

FREIGHTS.—Gold.

To Liverpool, Cotton per lb.	9.16d.
France—Havre, Cotton per lb.,	1 1-4 cent.
Cowes, &c., Tobacco per hhd.	
Northern Ports in the U. S., Cotton, per lb.	1-2 cent.
do. do. Tobacco, per hhd.	63.
do. sugar per hhd., from the coast,	$4 a $4 50.
do. do. from the city,	$4 00.

STOCKS—But few transactions this week; the indications in the New-York market, at the last dates, not being favorable for an advance, has had a tendency here (money being plenty) to keep our stocks out of market.

MARINE JOURNAL.

PORT OF NEW-ORLEANS.

CLEARED

Brig Pilgrim, Stevens, Baltimore, Harrod & Quarles.
Schr. Perfecta, Molino, Campeachy, J Prats & son.
Ship Alabama, Handy, New York, Bogart & Hawthorn.
