The nature and operation of the various parts of the financial system of the country are so delicate and complicated, that it is exceedingly desirable that they should not be unnecessarily disturbed, even by the proposal of changes. The desirable effect of producing an economy of the public money in the payment of the national debt, might be much more advantageously obtained, by authorizing an exchange of stock, in the manner proposed by the Secretary of the Treasury, at the last Congress, adop ted by the House of Representatives and unfortunately lost, in the Senate. The sum lost to the Treasury, by the failure of that bill to become a law, exceeds the amount paid for the salaries of all the Executive and judicial officers of the Government, and all of the Foreign Ministers .- Nat. HELVETIC INSTITUTION. N order to give greater latitude to his system of education, Mr. De Fernez has invited, as a partiner in his Seminary, Mr. J. W. Wheelwright, of Massachusetts, a young man recommended to public confidence as well by his talents as his personal qualities. Having been graduated at college in New-England, Mr. Wheelwright will be enabled to take charge of the whole course o English instruction. The institution of Mr. De Fernex will thus offer to young men the double a lyantage of preparing some to be admitted into rhe solleges of the United States, and of furnish ing to reme 2 complete course of comes adapted to the commercial and ordinary pursuits

Mild regulations, but rigidly adhered to, will give to this seminary the character of an Helvetic school. In the proposed plan of teaching, the connexion between the memory and judgment will always be kept in view, and no pains spared to facilitate the attainment of different branches of study by the most simple and familiar illustrations. In a word, the object of this seminary will be the communication of valuable knowledge, and the formation of those mental and moral habits in young persons, which shall early lay the founda-tion for their suspectability and usefulness in

subsequent life.

OCTTOR RENOU, has the honoof informing his colleagues and the inhabitants of New-Orleans and of Louise ana, that he has removed his establishmen. of Sulphurous Baths from www. into Street, No. 122 to Barraks Street No. 156, of the corner of Burgundy in the house lately oc cupied by Dr. Formento. It is generally known, how much benefit

is obtained by sulphurous both in cuta te ous diseases, rhumatic complaints, palecie and other serious complaints, it is need less to quote here the numerous instances a. immodiate cure and relief afforded by the application of that remeby.

Mr. Renou has availed himself of his re moval, in constructing a new apparatus and making his establishment free from any kind of reproach that could have been made to the former one. The room for the reception of white

people is totally separate from the one fixed for negroes. His new lodgings afford him the means

of receiving certain number of sick persons wishing to board at his house.

He has provided a spacious hospital. and his house being situated in a retired part of the town less crowded with house, than others, makes the situation perfectly wholesome.

Prices for 12 Baths, For treament of negroes per day, Doctor Renou will however take with the persons who will apply to him all possi-

sible arrangements. Doring the last year of his practice in Paris, Doctor Renou has been inche e with the celebrated Dr. Ducamp inventor of the most efficient method-of curing in-

churgs (retention of urines) and he had + >pecially addicted himself to the treatment of that disease; he has now in his posses sion a complete collection of all the instituments necessary thereto.
