EXECUTIVE OFFICE,
New Orleans, April 2nd, 1844.

NOTICE IS HEREBY GIVEN, that in conformity to an act entitled: "An act to provide for the better administration of the Louisiana Penitentiary," approved March 29th, 1844, proposals will be received for three months from this date, at this office, for the lease of the Penitentiary for the term of five years. The terms and conditions prescribed by said act, on which the lease may be made, are as follows:—

1st—Approved security in the sum of twenty five thousand dollars for the faithful performance of the contract.

2nd—Lessee to conduct the Penitentiary at his own expense, and to make no change in the present treatment of the prisoners, not authorised by law.

3d—The labor of the convicts to be chiefly confined to cotton and woolen manufactures, negro shoes, and cotton bagging and bale rope; no business or mechanical work to be pursued for profit, which may come in competition with the mechanics of Baton Rouge.

4th—Lessee to bind himself to put up, without delay, the necessary machinery for the making of bagging and rope; to complete the present preparations for the manufactory of cotton and woolen goods, for which purpose the Governor is authorized to loan him fifteen thousand dollars, to be repaid at the end of the lease; the lessee paying on the amount, semi-annually, interest at the rate of six per centum per annum.

5th—All manufactured articles and materials on hand to be received by the lessee at an appraised value; for the amount of which he is to give his bond payable at the end of the contract, bearing six per cent. interest, the State to be bound to receive in like manner all similar articles as may then be on hand; all machinery, tools, to be appraised and receipted for,—the lessee binding himself to return the same in like condition, or others of equal value, at the expiration of his term.

6th—The profits of the Penitentiary, for the first two years of the lease, to be for the exclusive benefit of the lessee; what may be made during the remaining period of the term, to be divided between him and the State, in such proportions as may be stipulated for in the contract.

7th—That for any violation of his contract, the Governor may, with the consent of two thirds of the Directors, put an end to the lease, or suspend the lessee.

Persons disposed to propose for the lease, are invited to do so as early as possible, as the interest of the State, as well as that of the State, will be promoted by the contract being closed at an early date, which may become absolutely necessary under the provisions of the law.

A. MOUTON,
Governor of the State of Louisiana.

N. B.—The Editors of the Globe, at Washington City, and of the Louisville Advertiser, will please publish this notice during three months, if not otherwise directed, and forward their accounts to the Governor for payment. a3

BOYER'S INSTITUTION,
Conti street, between Dauphine and Burgundy.

THIS institution, where the pupils are subjected to but one system of education discipline, under the superintendance and vigilant care of the founder, continues to justify the confidence heretofore reposed in it. The improvement of the pupils is remarkable, and the examinations, each year, exhibit a number of diligent and intelligent scholars who ultimately become useful, intelligent and enlightened citizens. The studies are invariably pursued in a thorough and extended manner, and the children receive, as their parents may desire, a simple elementary, or classical course of instruction. Mathematics—the most essential branch of all practical education—receives, as heretofore, particular attention.

A few more boarders can be accommodated at BOYER'S INSTITUTION. It possesses a very large and well ventilated dormitory admirably adapted to the approaching hot season.

FORMERLY THE BELLANGER INSTITUTION, DIRECTED BY L. SIRET.

No. 120 Barracks street, on a spacious and airy piece of ground.

MR. LOUIS SIRET, for the last three months Director of this institution, deems it now proper to make known the plan of studies he has adopted in his Seminary.

He is disposed to preserve, as far as practicable, a juste milieu between the hot house system of instruction which, by its ephemeral results, too frequently eventuated in a loss rather than an economy of time, and the mode adopted in Europe which are sometimes too rigidly absolute and carried out without due regard to the diversity of vocations and capacities.

In the course of studies already begun or about to be begun—a course which each family may pursue just as far as it may suit them, pupils will find, as well in English as in French, lessons graduated upon all subject pertaining to a primary or secondary course of Elementary instruction:

Grammar;	Mathematics;
Geography;	Greek and Latin;
History;	Literature, &c.

In the space of six or seven years, the entire circle of studies may be requisite to ensure the degree of Bachelor of Arts, which constitutes the natural and necessary term of a thorough education. Mr. Louis Siret hopes that he may thus be enabled, in some degree, to diminish the excessive number of young men destined for the study of medicine and law, by preparing them in advance, according to the programme published by the University of France, for the examination which must precede their admission to the superior schools.

TERMS:

ORLEANS HIGH SCHOOL—LYCEE D'ORLEANS.
ESPLANADE STREET.

THE undersigned, proprietors and directors of the High School, beg leave to inform the patrons of the institution that the rumor lately circulated respecting its removal to Mandeville, is utterly destitute of foundation. In the language of their first prospectus, they feel the permanency of their institution to be of the highest importance to parents, and this feeling is now strengthened by the liberal patronage bestowed on the school during the present year. Professor Elkin, their late partner, being about to leave the institution, the proprietors have secured the services of Professor Machamus long known as an able and successful teacher in this city. This gentleman will furnish valuable assistance to the Directors during the greater part of the day.

The proprietors, who, according to their original plan, devote a large portion of their time to instruction in the School, will continue to be assisted by Messrs. B. de Tuen, Professor of Spanish and Book-keeping. Varney, Professor of Music; Jaume, Professor of Drawing; Devoti, Professor of Dancing; and by a sufficient number of tutors.

The printed statutes and regulations of the High School may be had in Esplanade street and at the Bookstores of J B Steel, V Hebert, A Meret, and Mme. St Rose Delauney.

Communications must be addressed to one of the undersigned proprietors.

TO THE SUGAR PLANTERS OF LOUISIANA.
N RILLIEUX' PATENT FOR MAKING SUGAR—The undersigned having been appointed agents of Messrs Merrick and Towne, proprietors of the Southwark Foundry, Philadelphia, and assignees of the Patentee, hereby give notice that they are prepared to receive orders for apparatus to be delivered and set up in time for the ensuing crop—The various sizes are as follows, viz:

No. 1, capable of boiling	6	hhds in 24 hours.			
2,	do	do	12	do	do
3,	do	do	18	do	do
4,	do	do	24	do	do

The sugar produced by this process is increased at least 25 per cent in weight and 25 per cent. in value over that obtained by the usual process. The molasses decreases 50 per cent, but is of a very superior quality. The sugar is made white by the use of coarse bone black, without employing moulds or liquoring. The saving of fuel is another important consideration. The bagasse or refuse cane, properly preserved is sufficient to make the crop of sugar—and if bagasse is not used, one cord of wood per hogshead is alone sufficient—the only fire used being in the furnace of the steam engine. This new method of sugar making is no longer an experiment, as may be seen by reference to the letter of T J Packwood, Esq., published in the Bee of Feb'y 16th, and in the Bulletin, Tropic, Picayune and New Orleans Price Current of 17th Feb'y, on whose plantation it has been erected, and proved to his entire satisfaction.

AMUSEMENTS.

PROFESSOR DE BONNEVILLE,
[Late of Harvard University, Cambridge.]

HAVING devoted his whole attention to the subject of ANIMAL MAGNETISM, respectfully informs the ladies and gentlemen of New Orleans that he will deliver a Course of Lectures on this so-called Mysterious Science, and that he will strip it of all the terrors and absurdities thrown around it by the misrepresentations and preconceived opinions of men.

The course will be of SIX LECTURES, which will be divided as follows:

FIRST LECTURE.
Give a full History of the Science of Magnetism—Teach how to Magnetise with success—Magnetise several persons, and perform Experiments of the most startling character, to prove the reality of the Magnetic Condition.

SECOND LECTURE.
A Defence of Magnetism—A Lecture on the temperaments or Mental Dispositions of Man, with illustrations, showing who can become a Proper Magnetiser—A demonstration of the Physical Phenomena produced on Man whilst in the magnetic state or the natural state. These Phenomena must be seen to be believed.

THIRD LECTURE.
A demonstration of the truth of Phrenology by Magnetism—Plurality of Organs or Nerves on the Brain, demonstrated by Experiments—Magnetic Somnambulism, proving most wonderfully a medium existing between Spirit and Matter.

FOURTH LECTURE.
The cure of Nervous and other Diseases by Magnetism—Explanation of the modus operandi. Fever and Ague, Ecstacy, Epileptic and Apoplectic Fits produced and cured instantaneously. ☞ Persons with weak nerves are requested not to attend this lecture.

FIFTH LECTURE.
On Neurology and Pathetism—giving a history of these branches of Magnetism, and illustrating them by very curious Experiments—Examination of the phrenological Disposition of any person present, without touching the head.

SIXTH LECTURE.
On Clairvoyance—Clear-sightedness, or the Scotch Second Sight, giving an exposition of the facts which happened when persons are placed in the Magnetic state.
☞ This Lecture will be ended by the most fascinating experiments performed through the will of the Magnetiser on some of the most respectable citizens residing in this city.

☞ The three first Lectures will be delivered on MONDAY, WEDNESDAY AND FRIDAY, the 13th, 15th and 17th May, 1844, at the ST. LOUIS BALL ROOM.

☞ To commence at 8 o'clock, precisely—Doors open at 7 o'clock.
☞ Tickets of admission 50 cents.
The Course delivered in English and in French.
