Parish of Ouachita, La., }
Jan'y, 1, 1845. }

Gen'l S. W. Downs,

Dear Sir—In the same package with this you will receive a petition of the citizens of Ouachita praying the Legislature for a new parish. A diagram of it and of the adjacent parishes is also enclosed.

It will be seen the territory of the proposed new parish is taken from Ouachita alone, and the citizens praying for the measure, are entirely of the Parish of Ouachita. The fact is it is believed, will give the petition great weight with those which will probably be presented, taking the same territory and more into the proposed parish than it is and will entitle it, your friends confidently hope, to your attention and approbation.

There is much solicitude amongst your constituents and friends in this parish for its success and in order that it may not be defeated by delay, owing to the shortness of the session, they entreat you to interest as many of your friends with it as possible in both Houses, and if practicable obtain a suspension of the rules and get it passed on the first reading.

One of the Representatives from this District to the Lower House, Mr May, has promised it his influence, as I am informed by Mr Fuller; and to show you the position of Mr Ray on the subject I enclose a copy of a letter addressed to him, together with his answer.

If Mr Ray will relinquish some of his predilections and consent to a compromise annexing the portion of Union Parish of which he speaks in his letter, to the territory embraced in this petition, I feel authorized to say it will meet the hearty approbation of a large majority of the petitioners of the contemplated new parish. But they will not consent to throwing off the township and a-half from the Southern part of which he speaks. To fix the Southern boundary in the line between townships 13 and 14 would be much less objectionable with the people.

I have been amongst the people in the western part of Ouachita recently and was solicited by many of them to make this communication, inasmuch as it was not convenient to make a more fit expression of their sentiments.

I am, Sir, Your Friend and
Humble Servant,
(Signed,) H. C. FOUNTAIN.

[Copy of a letter addressed to John Ray Esq.]
Ouachita, West of the Basis Line,
December 17th, 1844.

John Ray, Esq., Munroe.

Dear Sir—The citizens of this portion of the parish of Ouachita, have prepared a petition to the next Legislature, of which you are a member elect, praying for a new parish to be composed of the townships and parts of townships west of the Bases' Meridian in Ouachita, and embracing the south west triangular half of township sixteen of range one, east of said meridian, to the corner of Caldwell parish, and to be called the parish of Warren.

The citizens generally of the parish of Ouachita being most concerned for the success of this petition have joined in it with great unanimity, but those most deeply interested are the immediate citizens of the territory prayed to be made a new parish, whose grievous inconveniences for a number of years have finally compelled them to this course, and whose security and welfare cannot be so well promoted by any other arrangement.

They were content to ask the concurrence of their fellow citizens of Ouachita alone, because they were not disturbing any other parish, and could not reasonably expect opposition to be made by the citizens of any other. From considerations like these, together with expressions you were heard to make shortly before the July elections relative to a new parish; they have indulged the hope that no obstacle would be thrown in the way; and that you would present their petition, and exert your influence to get it passed. This hope seemed the more reasonable, because the territory without being too large, is yet large enough and embraces a variety of soil, that would warrant one of the most wealthy and respectable upland parishes in the State in a few years. The people are now informed by rumor only, that a petition is gotten up in Union parish, generally known as Colvin's petition, numerously signed by citizens of Union and Claiborne parishes, praying for a new parish, to be composed of part of Union and Claiborne, and so much of Ouachita as lies west of basis meridian and north of township sixteen, and that you have pledged to exert your influence in its support in the Legislature.

To such a measure the great majority of the people here are strenuously opposed, and will not hold guiltless the public servant who would go forward as its advocate, feeling well assured that it did not originate in a spirit of fairness and equity. Otherwise the knowledge of it would not be so carefully have been kept from them. But in a spirit of selfishness, to benefit a few at the expense of many; the people could not be well informed of this matter and by request of a large number of them, the undersigned are induced to address to you this letter in order that your answer to it, and also to the following questions may furnish them with the necessary information.

Does or does not the petition known as Colvin's petition, ask for a portion of Ouachita, and if so, please inform us what portion. Will you present the petition for the new parish of Warren, and use your endeavors for its success. Do you consider yourself pledged to support Colvin's petition. These questions are asked with no unfair motives, but because your unequivocal answers are of importance to many concerned, and if they seem not sufficiently respectful, it is chargeable to the nature of our subject, and our desire to be plain. We hope sir, that you will answer us immediately.

With high respect,
Your humble servants,
(Signed) JOHN FULLER,
THOMAS REYNOLDS,
MEREDITH NERELY,
JAMES HUEY,
BENJAMIN N. HUEY,
JOHN LILES,
JOHN S. FAN,
ROBERT ROGERS.

[Copy of Mr Ray's answer.]
MONROE, Dec., 23, 1844.

Gentlemen—

Your letter of date the 17th inst, was handed to me to-day by Mr James Rogers, and I hasten to answer it as you request. Your first question is in the following words: does or does not the petition known as Colvin's petition, ask for a portion of Ouachita, and if so, please inform us what portion. In answer to this, I am at a loss to know what to say; inasmuch as I have never yet seen the petition you speak of, although I have no doubt there is such a petition in circulation. I have understood however, that the eastern boundary proposed in that petition is to come three miles east of the basis meridian line. The northern boundary is to be in the middle of township 19, and the western boundary is to be Claiborne parish, as to the southern boundary, I am not informed where it is to be. I have heard of several lines spoken of. This parish would necessarily embrace a considerable portion of Ouachita parish; perhaps you gentlemen are better informed on this subject than I am.

Your second question is in the following words:—Will you present the petition of the new parish of Warren, and use your endeavors for its success. In answer to this, I will state, that I consider it to be the duty of every representative to present any petition which a respectable number of his constituents may request him to do. And of course it will afford me pleasure to present any petition you may direct to me, and to explain in my feeble manner the object of the petitioners. But as at present situated, I cannot support your petition for the parish of Warren, as the boundaries are marked out in your petition. But with some modifications, which I will hereafter propose, I think all the difficulties as to the boundaries of your new parish may be harmonised. The reasons why I cannot support your boundaries for a new parish are, First—I am under a pledge to the people of Union parish, who compose the Colvin settlement, to use my exertions to get a new parish which would include them. This pledge was made previous to the election, and I have no doubt it was on the faith of this pledge, that the votes of that settlement were so unanimous in my favor. Second—I consider myself as much the representative of the people of Union parish as of Ouachita, and am under as great obligations to act for their interest as for the interest of the citizens of Ouachita. Third—I feel assured that the portion of Union parish, composing the Colvin settlement is as much in want of relief as almost any part of Ouachita parish; and Fourth—It seems to me that the geographical position of the portion of Union parish as well as the neighborhood, and facilities for intercommunication with the western portion of Ouachita parish demands that all that portion of the two parishes should be thrown into one parish. Your third question is in the following words:—Do you consider yourself pledged to support Colvin's petition. In answer to this I have only to say that I do not consider myself pledged to support Colvin's petition. I have always carefully avoided pledging myself in favor of any particular boundaries, hoping that the citizens of that portion of the country would agree among themselves as to the boundaries. As I have no individual interest whatever in the matter, and only act as their disinterested representative. But in doing so I am bound to act for the interest of all alike.

I have thus answered your questions explicitly, so as to leave no doubts in your minds (I hope) as to what course I feel it my duty to pursue. However it may be some gratification for you to know what particular limits I should be in favor of for the new parish, which I will here merely suggest, in the absence of any agreement among the citizens on that subject. My first object will be so to arrange it as to afford the greatest convenience to the greatest number, and so much as possible to harmonize all conflicting interests. (I am aware that it is quite impossible to please all.) In arranging the boundaries of the new parish, a proper regard must be observed towards the interests of the established parishes of Union and Ouachita, and of course it would not be first fair or reasonable to allow the new parish to materially injure the old ones. So I will not be in favor of the new parish coming east of the basis meridian line, and not to go further north in Union parish than to the middle of township 19. The western boundary ought to be either the present Claiborne parish, or not to go more than half a range or three miles into the present Claiborne parish. I would here remark that I think it quite uncertain whether the Claiborne representatives would consent to giving up any part of that territory, and I think we can do very well without it, although I would have no objection to taking three miles of it. As to the southern boundary of the new parish, I have not decided in my own mind where it ought to be; however, I am disposed to think it would be better to include all the territory west of the meridian line which belonged to the old parish of Ouachita, previous to the act of 1842, which annexed a township and a half of Catahoula parish to Ouachita. This would make the southern boundary of the new parish in the middle of township 14. This territory would be in extent nearly the same as the one you propose, and it seems to me is the most natural boundary of the new parish. Enclosed I have made a rough diagram of the new parish, marked in red lines, and included in the letters C D E F G and H. I wish it expressly understood, if the people can agree or come to any understanding that I am not uncompromising in favor of this boundary; or standing on the subject I will cheerfully do my utmost to carry out their wishes. This boundary is only in the event of the matter being left to my discretion. And even then I may see cause to change it in some respects. I have marked the centre of this boundary, and it will fall in township 17 range 2, west.

That part of the present parish of Ouachita which was annexed in 1842, being a range and a half of township on the south of the above proposed new parish, ought to be included in a new parish which is now petitioned for, including a portion of Catahoula, Rapides and Natchitoches parishes. I saw a copy of that petition at Harrisonburg two weeks ago and suggested this idea, and to all with whom I spoke it was well received. In this way all the country lying in the remote sections of the above parishes, will be included in parishes of a convenient size, which is an object much to be desired, and for one I think such an arrangement is indispensably requisite for the interest and prosperity of that valuable region of country. But to cut out a new parish from the middle of this large territory would prevent any others from being made and subject a large and respectable portion of citizens to the very same disadvantages you are now complaining of. I hope, gentlemen, the above explanation will be satisfactory. It is but my sentiments.

I remain, with great respect,
your obedient servant,
[Signed] JOHN RAY.

To the Honorable, the Senate and House of Representatives of the State of Louisiana.

We the undersigned, citizens of the parishes of Union and Ouachita, in the state of Louisiana, with respect, represent unto your honorable body that we are desirous of having a new parish laid off included in the following bounds, viz:—beginning at the point where the line running through the middle of township fifteen, north, crosses the range line between range three and four, west, then east to the middle of range one, east, thence north to the middle of township 19, north, thence west to the range line, between three and four west, thence south to the place of beginning, the parish to be called Jackson; your petitioners are urged to this request from the fact that the citizens within the above boundaries are situated very remotely and inconveniently from either of the county seats of Ouachita or Union, and those in Union Parish are almost entirely cut off from their county seat during the winter and spring of the year in consequence of the overflow of the Bayou Dearbone, frequently having to ferry from one to two miles, and those residing in Ouachita parish, reside from twenty to fifty miles from the county seat, and have in addition to cross the Ouachita river to get to it, all of which, among many other grievances, your petitioners labor under, and from which they pray to be relieved by your honorable bodies. Your petitioners respectfully submit to this in their opinion, that by establishing a new parish within the above boundaries, the interest, happiness and convenience of those residing therein would be greatly promoted without injuring in the least the parishes of Ouachita or Union, and that it would facilitate the settlement of this part of the state, which is so devoutly wished for by all concerned. Wherefore your petitioners respectfully ask your honorable bodies to create a new parish herein prayed for.

August 1st, 1844.

To the Honorable the Senate and House of Representatives of the State of Louisiana, in General Assembly convened:

Your petitioners, citizens of the parish of Ouachita, and State of Louisiana, would respectfully represent that they are and have been laboring under much inconvenience in attending courts and other public business on account of the great distance we have to travel to one courthouse being from twenty to fifty miles.

That notwithstanding said inconvenience, they are called on generally to furnish at least three fourths of the jury at our courts.

That we have an extent of territory sufficiently large to constitute a separate parish, abounding in every property requisite, with proper improvement, to constitute a wealthy and respectable parish.

We, the undersigned petitioners as aforesaid, would pray your honorable body to grant us a new parish to be bounded as follows, viz: beginning at the north west corner of the parish of Caldwell, running thence due north to the south east corner of township 16 of range 1, east, thence diagonally through said township 16 to the south east corner of township 17 of range 1, west, to the meridian, thence north along said meridian to the Union parish line, thence west along said line to the Claiborne parish line, thence south along the present western boundary line of the parish of Ouachita, to the township line between twelve and thirteen, thence east along said line to the range line 1 east, and thence along said line to the place of beginning, and the said parish to be called the parish of Warren.

They would further pray your honorable body that in case you in your wisdom may think proper to comply with our petition, a special act may be passed, requiring the treasurer of the parish of Ouachita to pay over to the new parish its proportion of the taxes now due and unpaid the parish of Ouachita. And your petitioners, as in duty bound, will ever pray, etc.

DAY AND BOARDING SCHOOL FOR YOUNG LADIES,

Founded in 1832 by Madame Lataix, and conducted since 1841 by Madame Desmaraux.

(Rampart street, corner of Bienville.)

THE course of instruction pursued in this establishment is both solid and varied, extending from the elements of reading and grammar to the study of literature and the elements of the sciences indispensable to a polished education.

The pupils are distributed into seven classes, suited to their differences and capacities.

The French and English languages are cultivated with equal attention, and a good opportunity is afforded for their free and familiar use in conversation by the intercourse of Creoles with Americans.

Vocal and instrumental music is taught by ladies, exclusively attached to the establishment, and their constant presence is a guarantee of unremitting attention, both to lessons and practice.

The performance of religious duties, by the boarders, is duly attended to; a priest, authorised by the Bishop, attends the establishment twice a week, to instruct Catholic pupils and prepare them for their first communion.

From the 1st November, 1844, this Institution will no longer receive young boys, and will be exclusively consecrated to young ladies.

Parents are informed that the house in Bienville street, contiguous to the Church edifice, has been added to the Institution, for the better accomodation of boarders.

Examinations in music take place from November to April, on the 1st Saturday of each month. At the end of May, general examination and distribution of prizes.

MANDEVILLE COLLEGE.

IN the establishment of this Institution an attempt has been made to form a Northern College adapted to a Southern population. We will briefly state what means we have at our disposal, and in what manner we intend to employ them.

Situated within a short distance of the South Western Metropolis, on a spot entirely exempt from all epidemic diseases, and offering the convenience for bathing in the salubrious waters of Lake Pontchartrain, we believe the location of the College to be unsurpassed within the limits of our State.

In conformity with our plan, the instruction of the students is confided to northern professors. Gentlemen selected in the Northern Colleges—the professors of the French and Spanish only excepted. The following gentlemen compose the body of instructors:—

LEWIS ELKIN, President and Professor of Mathematics.

ALBERT W. ELY, M. D. (late from the University of Virginia,) Professor of English and Mathematics.

WILLIAM F. ROE, (late from Dickinson College, Carlisle,) Professor of Ancient Languages.

PIERRE JULIAN, Professor of French.

J. RICO LOPEZ, Professor of Spanish.

CHARLES H. BONDE, Professor of Drawing.

F. SCHERER, Teacher of Fencing and Military Tactics.

J. SNYDER, Usher.

In their daily lessons, these gentlemen discard all the royal-road systems of the day. The pompous theories, by which close application is rejected as dull plodding, will be unknown in their recitation rooms. Regular and persevering study and method in the division of the student's time, are the only means by which they hope to obtain success.

The discipline of the College is firm, strict and independent—suffering no interference whatever on the part of parents or others. The laudable care and scrutiny which all intelligent parents manifest in the choice of a nursery for their offspring, should at the same time prevent them from once selected, from interfering in the regulation of the establishment chosen—an interference which, in its consequence, seldom fails to be injurious both to pupil and teacher.

Such are the provisions made for the physical and intellectual education of the young gentlemen confided to our care. With regard to the third, and most important branch—the moral including the religious—we are happy to announce to the patrons of the school, that the Rev. Mr Blyon from Madisonville, will hereafter preach every Sunday in the College Hall before the Protestant pupils, while the Professor of French, Mr Julian, will attend to the Religious instruction of Catholics.

The following gentlemen having their sons in the Institution, will give all desired information:—

Hon Wm. Freret.

Hon Edward Simon, of the Supreme Court.

Hon Manuel White.

Hon. Judge Jones, Covington.

LONDON DYEING & SCOURING ESTABLISHMENT

JOHN J. JACKSON, lately from London, respectfully informs the citizens of New Orleans and its vicinity that he has taken the store No 96 Canal street, next to Marmion's Temperance Intelligence and General Agency Office, a few doors below Royal street, for the purpose of Dyeing, Scouring, Repairing and Scouring

GENTLEMEN'S WEARING APPAREL

upon an entirely new principle. All clothes made to appear as when new, without any injury to the cloth; and it not done to satisfaction, no charge will be made.

From the long and practical experience which I have had during my apprenticeship in London, and in working for the officers of the Horse Guards, and other officers of other regiments, I am enabled to dye SCARLET and other colors in a superior manner; also to extract grease spots and stains of all descriptions from military and other garments.

Gentlemen composing volunteer companies in this city, who have military clothes out of order, from the effects of grease spots, stains, &c. are respectfully invited to call and give him a trial.

Gold, silver and silk lace, epaulettes, &c. tarnished from use, can be restored to their original lustre and brightness.

LADIES' WEARING APPAREL, (including silk, satin and velvet dresses) dyed in the most approved fashion and in the latest style and finish.

Carriage cushions, hangings, table covers, sofa and chair covers, window hangings, carpet and hearth rugs, cleansed, dressed, &c. and made to appear as new.

Many gentlemen and ladies hesitate to have their garments, carpets, &c. renovated or dyed, in consequence of the numerous impostors that do not understand their business. The subscriber requests but one trial to prove the character of his workmanship.

From a strict attention to business I hope to merit a share of public patronage.

All work entrusted to my care will be ready for delivery in forty eight hours after being left with the subscriber. JOHN J JACKSON.
