MANDEVILLE COLLEGE.

IN the establishment of this Institution, an attempt has been made to form a Northern College adapted to a Southern population. We will briefly state what means we have at our disposal, and in what manner we intend to employ them.

Situated within a short distance of the South Western Metropolis, on a spot entirely exempt from all epidemic diseases, and offering the convenience for bathing in the salubrious waters of Lake Pontchartrain, we believe the location of the College to be unsurpassed within the limits of our State.

In conformity with our plan, the instruction of the students is confided to northern professors. Gentlemen selected in the northern Colleges—the professors of the French and Spanish only excepted.

DAY AND BOARDING SCHOOL FOR YOUNG LADIES,

Founded in 1832 by Madame Lusie, and conducted since 1840 by Madame Desnavaux.

(Rampart street, corner of Bienville.)

THE course of instruction pursued in this establishment is both solid and varied, extending from the ... ments of reading and grammar to the study of literature and the elements of the sciences indispensable to a polished education.

The pupils are distributed into seven classes, suited to their different ages and capacities.

The French and English languages are cultivated with equal attention, and a good opportunity is afforded for their free and familiar use in conversation by the intercourse of Creoles with Americans.

Vocal and instrumental music is taught by ladies, exclusively attached to the establishment, and their constant presence is a guarantee of unremitting attention, both to lessons and practice.

The performance of religious duties, by the boarders, is duly attended to: a priest, authorised by the Bishop, attends the establishment twice a week, to instruct Catholic pupils and prepare them for their first communion.

From the 1st November, 1844, this institution will no longer receive young boys, and will be exclusively consecrated to young ladies.

Parents are informed that the house in Bienville street, contiguous to the Church edifice, has been added to the institution, for the better accommodation of boarders.

Examinations in music take place from November to April, on the 1st Saturday of each month. At the end of May, general examination and distribution of prizes.

G. BOYER'S CLASSICAL AND COMMERCIAL INSTITUTION,

No. 148 Conti Street,
(between Dauphine and Burgundy streets.)

THIS Institution, the oldest scholastic establishment in New Orleans, is well known and highly distinguished for the success which has accompanied it ever since its foundation, a considerable number of pupils who have quitted it to enter on the great scene of life, having already acquired some distinction in the various avocations to which they have devoted themselves.

Boyer's Institution is conducted in one of the largest Mansions in the city, occupying a fine central position, being well ventilated and in other respects perfectly salubrious.

The range of studies which engage the attention of the pupils extends over all the branches of Learning which are necessary to a useful, polite and finished education; from primary instruction to the more abstruse subjects which are specially the province of a collegiate course—Discipline so necessary to quicken in the youthful mind a due perception of the duties incumbent on it in its future relation with society, is a conspicuous feature of the establishment, being at the same time severe and considerate, whilst the solicitude of the Principal regarding the moral training of the youths committed to his charge, is, though strict, yet paternal.

The English language, daily becoming more and more evident, as of the greatest possible importance to all living in this community, is, in Boyer's Institution, attended to with more than ordinary care, the Professors engaged in the branch being gentlemen of undoubted attainments and long accustomed to Tuition.

BRANCHES OF TUITION:
The English, French, Spanish and Latin Languages; History, Geography, Mathematics, Elements of Natural Philosophy, Astronomy, &c. &c.

TERMS:

Boarders	$30 per month.
Half Boarders	15 do.
Day Scholars	8 and 10 per month.

No deduction is made for absence. A month once commenced must be paid in full. Books, paper, &c. form separate charges. d10

GARREAU'S INSTITUTION,

Rampart street, between St. Anne and Maine.

THE numerous Professors attached to this Establishment, the assiduous and constant care directed to every branch of education, have secured to it a rapid increase. The severe discipline there prevalent, which is so generally neglected in other Institutions, recommends it to the consideration of all the fathers of families.

French and English Classes conducted by Professors of known merit are open, every day, morning and evening, from 6 o'clock to 9.

☞ See the prospectus of the establishment at Mr. Lacroix's Library, corner of St. Anne and Royal streets. j17

Dr Blackwell's

CELEBRATED ANT ACRID TINCTURE AND SCOTCH RENOVATOR.

For the Cure of Venereal Disorders, Stubborn Gleet, Seminal Effusions, Weakness of the Ureter or Bladder, Diabetes, or Difficulty in Making Water.

BLACKWELL'S ANT ACRID TINCTURE

THESE DROPS are entirely composed of vegetable substances; their ... have been fully proved by hundreds, and may be relied on as perfectly safe and safe. Dr Blackwell having prepared and used them for many years, in his extensive practice in England, with great satisfaction and wonderful success among his numerous patients. Dr. Blackwell, the inventor of this truly valuable medicine, makes no other claim to public confidence than what experience has so fully justified; and he does not, in the least, hesitate to warrant them as a safe and certain Cure for the Venereal Disorders, Stubborn Gleets, Seminal Effusions of the Ureter or Bladder, Diabetes, or Difficulty in Making Water.

This is the most speedy, certain and effectual remedy for the Gonorrhœa that has ever been used: It is pleasant to the palate, grateful to the stomach and easily taken; it is a concentration of the medical properties of such remedies as have been found most efficient in curing gleets, seminal weakness and all discharges from the urinary passages. It is wholly a vegetable compound, and acts like a charm. It produces an immediate alleviation upon the part affected. Full directions accompany the medicine.

Recommended by the faculty for the radical cure of gonorrhea, gleet, seminal emission, and all mucopurulent discharges from the urethra. This Tincture, the result of twenty years' experience in the Hospital de Charité de Paris, and pronounced by its celebrated inventor, Professor Blackwell as an infallible remedy for all diseases of the urethra. It effects a cure in a much shorter time than any other remedy, without tainting the breath, disagreeing with the stomach, or confinement from business.

Persons afflicted with copper colored blotches on the head, pains in the limbs or body, nodes on the bones of the arms and legs, ulcerated or sore nose, mouth or throat, or any other symptom of that loathsome disease—constitutional affection; persons affected with obstinate urethral discharges, or weakness of the urinary organs, or who are suffering from indulgence in a certain destructive habit known as the solitary vice, and who, from disgust and disappointment have abandoned all hopes of a cure, are strongly urged to try the above medicine, the most effectual and rapid cure ever known for a certain disease.

Those who wish to avoid quack doctors and cure themselves with little trouble or liability to exposure, will find this medicine well suited to their case, as it requires no change of diet and does not effect the health, which prevents the possibility of discovery while using it.

Besides the important advantage it never leaves the parts subject to the troublesome weakness that occurs so often after the use of other medicine, and if taken in the first stage of the disease, it will arrest the discharge and remove unpleasant feelings in a few days. In long protracted or chronic stages of the disease, it is obstinate gleets, seminal complaints, or a weakness of those organs, it is without doubt the most effectual remedy ever discovered, and has cured many obstinate diseases after every other medicine has failed. A case of this kind of more than a year's standing was recently cured in two weeks by this specific, after upwards of $100 had been spent for medical advice without effect. In fact, it has been used with success in all stages of the disease, that we challenge any case to be produced that it will not cure, under a forfeit of $100.

We give no long quackish recommendations to deceive the public. If the medicine does not speak for itself, no one shall speak of it. Our object is to notify where it can be had; and the proprietor challenges a single case of recent gonorrhea to be brought in which the mixture will not perform a rapid cure, under forfeiture of $100.

This a disease that unfortunately pervades all ranks of society—high, low, rich, and poor, married and single—They are now presented with a remedy by which they can cure themselves without the least exposure, in the shortest time possible.
