Southern Mutual Life Insurance Company of Louisiana.

Life Insurance Exclusively.

EXTRA GUARANTEE FUND $50,000.
ACCUMULATIVE CAPITAL $600,000.

PARENT OFFICE, NO. 48 CAMP ST., *New Orleans.*

THIS COMPANY is now ready to make Insurance on White Persons and Slaves, at their established rates of premium. This being the only company incorporated in the State confined exclusively to Life Insurance, with an extra Guarantee Fund, the Directors feel confident that it affords unusual and much greater inducements to those desirous of effecting an insurance on their lives than any other.

It is also upon the Mutual principle; each person assured becoming a member thereof and enjoying a portion of its profits, being entirely exempt from any liability beyond the amount of premium accrued.

Insurance companies organized upon the mutual principle are generally successful, more especially those exclusively confined to Life, as they are based upon calculations warranted correct by long experience and close scrutiny; but the stability and success of this Company is placed beyond a contingency, by the advantageous arrangement she has made for an undoubted guarantee fund of 50,000 dollars, not to be used or lessened, as subscriptions to mutual insurance companies always are, by insurance.

This extra guarantee fund of 50,000 dollars remains permanent until the Company has accumulated a similar amount to take its place.

California permits granted, and extensive travelling privileges allowed.

[illegible]

[illegible] instruction in all the branches of [illegible] the Modern Languages, History, Geography, Philosophy, Book keeping, Arithmetic, Algebra, Geometry, Trigonometry, Natural Philosophy, Chemistry.

No pains are spared in imparting a thorough knowledge of these branches, so that all students who resort to this Institution may be fitted to enter with advantage upon the duties of the more responsible avocations of life, or upon the study of the learned professions.

As the Modern Languages, (particularly the English and the French) and the higher Mathematics receive very special attention, the School offers singular advantages to boys designed for mercantile pursuits.

For particulars see the prospectus, which may be found at Mr. Steel's Book store, 14 Camp street; at Mr. Lelievre's, Royal street; or at the School, 57 and 58 Esplanade street. ja8 1y

ST. LOUIS' INSTITUTION.

DIRECTED BY MADAME DERON,

BOARDING AND DAY SCHOOL FOR YOUNG LADIES.

(Years 1850—'51.)

No. 145 St. Louis st., between Dauphin & Burgundy.

THIS Institution, founded nearly twelve years ago, combines every material, moral, and intellectual advantage. Madame Deron, formerly a pupil and governess in the "Institut de la Legion d'Honneur," (Maison St. Denis,) has founded her Seminary, as much as possible, on the model of that great establishment, as well as on the plan of the first Northern Academies.

The situation of St. Louis' Institution is one of the most agreeable and salubrious in town. The whole locality, including dormitories, class and study rooms, and play grounds, being very spacious and airy, and overlooking several gardens, is in so healthy a position, that, not a single pupil has experienced the least serious illness.

The plan of instruction both in French and English embraces all the literary and scientific branches of a finished education.

The study of English is the object of particular attention. Madame Deron is scrupulously careful that the creole Young Ladies should devote more time to the study of the English language and literature than to any other branch. Mr. Orion, a professor well known in New Orleans, continues his course of lessons every day. Two English governesses residing in the establishment, preside over the elementary classes, and contribute to the progress of the pupils by the continual use of that language in all the relations of ordinary life.

With respect to the study of French, besides the lessons of able professors and governesses, M. and Madame Deron themselves instruct in the different branches, and are thus enabled by their personal efforts to insure the solidity and rapidity of the progress of their pupils.

The department of Music, including the piano, harp and singing, is under the direction of Madame Lavillebeuvre, an excellent music mistress, who formerly gave lessons in St. Louis' Institution, and who is now especially attached to the establishment. This young and talented lady, so justly classed at the head of the artistic celebrities of Louisiana, secures to the study of Music in Madame Devon's Academy a marked superiority. No mistress can better join example to precept, and this is often the secret of the scholar's advancement. A musical examination taking place every month is intended to prove the rapid and brilliant progress of Madame Lavillebeuvre's pupils.

Religious and moral instruction, which is the basis of every really good education, has received greater developments than in any other Boarding School in the city. Madame Deron herself superintends the religious exercises of the Catholic pupils, and M. l'Abbe Tholomier prepares them for their first communion, and for confirmation by giving religious instruction several times every week in the Chapel of St. Louis' Institution. o4

THE COMMERCIAL ACADEMY,

Has been removed to No. 17 Dauphine street.

THIS institution is designed for general instruction in the usual branches of an English Education, Mathematics, Ancient and Modern Languages, Book-keeping, and Oratory. "Eloquence is the sure means of recommending its possessor to the attention and regard of his fellow-citizens and raising him to all public honors and advantages."

N. B. A night class has been formed for the acquisition of Modern Languages.

Terms moderate.

YOUNG LADIES' ACADEMY,

DAY AND BOARDING SCHOOL.

Directed by Mrs. A. Clark,

Corner of St. Peter and Rampart sts., No. 172.

MRS. A. CLARK respectfully informs her friends and families, that from the first of September she has succeeded to Mrs. D'Hallu in the management of her establishment. This Academy, which is already so well known for the good order and superiority of its classes, will have all the improvements that can be conducive, both to the moral and physical welfare of the pupils. The dormitories are large and well ventilated. Mrs. CLARK, who attends herself to the direction of the French and English classes, will be assisted by able English and French Professors, who have been long attached to the establishment. The greatest attention will be paid both to the conduct and progress of the pupils. There will be no holiday during the week.

Parents are respectfully invited to visit the establishment. au28

New Orleans Female Institute.

OR DAY AND BOARDING SCHOOL FOR YOUNG LADIES.

At No. 252 Camp street.

CONDUCTED BY DR. AND MRS. MACAULAY.

THIS Institution is under the personal supervision of Mrs. Macaulay, the advanced classes in the literary and scientific departments are taught by Dr. Macaulay, assisted by another gentleman. To give instructions in the French, Spanish and Italian languages, in Drawing, Dancing, Vocal and Instrumental Music, the most accomplished professors are employed.

The school is arranged so as to make it both an English and a French school, and the aim of the principals is to conduct their pupils through a substantial and systematic course of studies, affording at the same time a progressive knowledge and a progressive discipline of the heart as well as the mind. For instruction of pupils of every age and grade of intellectual culture, ample arrangements have been made. No efforts will be wanting to promote the improvement of the pupils, and young ladies received into the family as boarders, will share in the enjoyments, privileges and attentions of daughters.

The play-ground—an item essential to a school—is large, retired and secluded from public view. References, when required, will be made to parents who have had their daughters at the Institution for years.

A course of lectures on History and Biography will be delivered to the advanced classes by Dr. Macaulay, during winter, and to aid the pupils in understanding the more difficult subjects, the school is furnished with the requisite apparatus. Terms given and application may be made personally or by letter.

P. S. To enable DR. MACAULAY to give undivided attention to the duties of the Institute, he will retire from teaching at Madame DE-RAYAUX'S.

JEFFERSON ACADEMY,

53 Bourbon street, New Orleans,

CONDUCTED BY J. G. LORD.

THE plan of this Institution, combines a general and extensive system of education. Pupils are admitted at six or seven years of age, and can continue till their education is complete, or till they are prepared for their pursuits in life.

They are distributed into classes according to their talents and advancement.

The premises are perhaps the best to be found in the city, with ample space for exercise and recreation, every necessary convenience is combined for an institution of learning on a large scale.

Sale of 243 lots of Ground at Fontainebleau.

BY J A BEARD & J DOMINGO, Auctioneers.

WILL be sold on MONDAY, 31st of March, 1851, at Banks' Arcade, at 12 o'clock—

243 Lots of Ground, having (excepting a very few lots) one arpent front by six in depth; those fronting the Lake having a good deal more in depth.

Conditions: One-fifth cash, and the balance in 1, 2 and 3 years in equal proportions without endorsers, in notes drawn to my order, with mortgage on the property until final payment, and 8 per cent interest in case of non-payment at maturity.

Observation: In the Parish of St Tammany taxes on Real Estate are so trifling that it is useless to mention any thing about them. In front of Taylor's Avenue, there is a beautiful wharf which will be for the common use of the Fontainebleau plantation and the purchasers of Lots; but for the interest of the purchasers, as well as that of the owner of the plantation, to avoid all kind of discussion between the wood choppers and the coal burners and to hinder that fine wharf from being encumbered with fire wood or charcoal, the owners of lots will have to use "flats for the transportion of their wood and coal, as it is practised at Mandeville.

Description of the Place: The lots bordering the lake have a few arpents of low land, but in front of those said lot, and of the Fontainebleau's Plantation, there is an immense Sand Bank, with which those few arpents can easily be filled up. The land goes ascending rapidly towards the rear in the following dimensions: At Johnson's street, which is the first cross street, the height is about 6 feet, at Gryma's street of 8 feet; at Prieur street, about 10 feet; at Joinville street, which is the fourth street, about 12 feet, and the balance has an average of about 15 feet above the level of the Lake. The land as far as Joinville street, has been cultivated, and can easily be planted as gardens or orchards, almost all the fruits from Europe growing there perfectly well, particularly grape of all kind. The conveyances with that portion of land situated on the other side of the lake, are becoming daily easier and less expensive, the boats passing in front of the wharf at Fontainebleau on their way to Mandeville and Louisbourg. All the advantages are therefore combined at Fontainbleau, easy intercourse, high land, spacious seats and pure air. The rambles in the forest are fine and pleasant, between Bayou LaCombe and Mandeville, which is adjacent to Fontainebleau towards the rear. Bricks can be easily bought at five dollars a thousand, and lumber is very cheap.

Lithographs, giving a correct sketch of the lots offered for sale, can be obtained at J. Beard's Bank's Arcade, H. J. Domingon, Exchange Alley, or at my office, No. 167 Royal street

The said 243 lots of ground will be sold according to a large plan deposited at Bank's Arcade, and at Mr. J. A. Beard's, Auctioneer.

Acts of sale to be passed by Adolphe Boudousquie, notary public, Royal street, between Bienville and Conti.

DR. EDOUARD MARTIN'S HYGIENIC ELIXIR,

AGAINST SEA-SICKNESS.

FOR a long time past the scientific world, medical men especially, appear to have been struck with the remarkable fact, that among the innumerable collection of curative agents discovered not one had been found to counteract or even mitigate the dreadful effects of sea-sickness. Several means have been tried to attain this end. These remedies, whether simple or compound, after many trials, have hitherto proved signal failures. An idea may be formed thereof by the perusal of the annals of Pharmacy, Chemistry and Medicine of all countries, published within the last ten years.

The inventor of the "Hygienic Elixir," has at length made this invaluable discovery. After numerous trials, changes and alterations in the proportions of the substances composing this Elixir, he is enabled to offer it to travelers in the shape of a palatable draught, not decomposed or altered either by climate or age.

The Elixir checks sea sickness immediately, and restores the stomach to its healthy state. However delicate be the constitution of the person using it, it is equally infallible, and procures a genial feeling of ease and comfort. The nausea ceases as if by magic, calm and sleep are restored, the appetite awakened, and the digestion effected promptly under the influence of this tonic.

The inventor having had an opportunity during a recent sea voyage, to make personally a final trial of his Elixir, has made up his mind to offer it to the public. He could corroborate the above statements by testimonials from several sea captains, but will appeal only to the opinion of one of the most intelligent and distinguished commanders of the French Commercial Navy. Capt. Labory, having had opportunities of testing, under his own immediate supervision, the efficacy of this remedy, (then in the shape of pills) during several voyages, gives thus the result:

Dear Doctor—During my last voyage to France, I have had opportunities of testing on divers persons your remedy against sea-sickness; I am happy to be enabled to report to you that I have obtained the best results, and if it were possible to alter this remedy into a palatable draught, such as a lemonade of some kind, (which could be more easily taken than in its present shape, especially when the sea-sickness has already commenced,) nothing more would be required, and you would be entitled to the everlasting gratitude of all those who are obliged to travel by sea, without being accustomed thereto.

I am yours, truly,
Signed, A. LABORY, Com'r Ship l'Oscar.

The improvement suggested by Capt. Labory has been effected. The Tonic and Hygienic Elixir against sea-sickness, is sold in four ounce bottles, with glass stoppers. Care must be taken to keep the bottles corked to prevent evaporation.
