MEDICAL.

CHERRY PECTORAL,

For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending physicians can employ for the more dangerous affections of the lungs. Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

RHEUMATISM CAN BE CURED!

We now have for sale the Celebrated Remedy,
MORTIMORE'S RHEUMATIC COMPOUND, AND BLOOD PURIFIER,

WHICH HAS GAINED SUCH GREAT POPULARITY wherever introduced, as the only specific known for the effectual cure of this painful disease. This remedy has already cured thousands of cases, comprising every seeming form of this complaint, from the inflammatory (acute) form, attended with swellings and enlargement of the joints, to old chronic cases of from ten to twenty and thirty years' standing. Those who had for years resorted to the various celebrated springs, had tried all the liniments and external applications, and been under the treatment of some of the ablest physicians both in this country and Europe, and were pronounced incurable, after all these efforts had failed, this compound has cured them. Many who have been cripples, either hobbling upon crutches or confined to their beds for years, certify to a complete and permanent cure by the use of this remedy.

We have not space in a newspaper advertisement, to insert the accumulated evidence in its behalf. This evidence comes from sources which must inspire confidence in every mind. The conductors of high-toned public journals have published to the world its wonderful and beneficial effects upon themselves and those around them, and in some instances speak of hundreds of cures. Physicians have resorted to it, and certify that, even in extreme cases, where contortions had been held, and they had decided there were no hopes of recovery, even then, they procured this medicine and administered it, and it effected a complete cure. Ministers of various denominations have written and published what it has done for themselves and their friends; while merchants, officers, mechanics and private citizens, have furnished volumes of evidence of the highest character, such as accompanies no other preparation in America.

We most respectfully ask those who are afflicted to send to the agent in their vicinity and get a circular, and read the letters and certificates of Rev. Jas. Mitchell, Rev. N. G. Berryman, Rev. J. H. Linn, Rev. J. M. Kelly, Rev. R. A. Colburn, and other clergymen; while we add the names of Hon. J. Smith, late President of the Bank of the State of Missouri; Geo. O. Atherton, officer in the Bank of St. Louis; Maj. D. B. Shaw, Jas. R. Dowling, A. Holland, J. W. Stone, J. W. Christy, Joseph Southack, with other prominent merchants of St. Louis, and a vast number of other citizens.

Those that great remedy was first introduced, and where many thousands have been cured by its use, have established a Central Office at No 1 Barclay street, (Astor House) in the city of New York, where all orders for this medicine will be promptly attended to.

This is a vegetable spirit—an internal remedy, prepared under the supervision of a physician of this city. THIS IT WILL CURE!

Price, $1 per single bottle, or three bottles for $10.

FOR SALE—[illegible]
[illegible]

OFFICIAL.

[illegible]

Each bidder will propose to remove the said raft, and to keep the navigation free from obstruction thereafter [illegible] specifying in his bid the time within which he proposes to complete the removal, (the said time not to be later than the first day of January, 1855,) as also the number of years (counting from said removal) during which he binds himself to keep the navigation of the river free from obstructions for the said sum; and the contract shall be awarded to the bidder (provided the Department be satisfied with his responsibility and with the security offered by him) who shall propose to remove said raft and to keep the river free from obstruction thereafter for the longest period of time.

The contractor will be required to give his bond for $10,000, with two good sureties, each for the sum of $10,000, conditioned for the faithful execution of the contract. Each bidder will transmit at the same time with his proposals, the names of the persons whom he offers as sureties, and a declaration, signed by them that they will sign his bond as sureties as above-mentioned; and also the certificate of a district judge of the United States for the State in which he resides, that said securities are responsible citizens, and that he considers them worth $10,000 over and above all their debts and liabilities. No bid will be examined unless these conditions shall be complied with.

Terms of Payment.

Of the sum of $100,000 appropriated for the above object, $50,000 shall be paid as the work of removing the raft advances, as follows, to-wit: Whenever the contractor shall report that a portion of the raft has been removed, the same shall be inspected by an officer appointed by the War Department, and if it shall appear that such is the fact, the Department will pay such a proportion of the said sum of $50,000 as the portion removed shall bear to the entire raft, provided no partial payment shall be made for less than one tenth part of the whole work. The remaining $50,000 will be paid in equal annual instalments corresponding in number with the number of years during which the contractor shall bind himself to keep the navigation open, of which fact the Department is to be the sole judge.

Each bid must be for the whole work, that is, for the removal of the raft, and for keeping the river open for a specified period. No separate proposals for portions of it will be considered.

The proposals will be addressed to the undersigned, marked on the envelope, "Proposals for removing Red River Raft."

Proposals for Improving the Harbor of Mobile by Dredging the Present Channels leading to the Same.

ENGINEER DEPARTMENT, Washington, January 18, 1853.

IT is proposed to deepen the Harbor of Mobile, Alabama, at Dog River Bar and the Choctaw Pass, by dredging the present channels.

The work required to be done is stated as follows: A clear channel to be excavated three hundred feet wide, and to exhibit twelve and a half feet in depth of water at mean low tide, viz:

				Cubic y'ds.
Through the Choctaw Pass—940 yards average depth to be excavated	2 ft.	80—		67,733
Ex'tr of the pass—600 do	do	1 "	10—	22,000
3,200 do	do	3 "	34—	364,946
1,150 do	do	3 "	"	116,000
6,750 do	do	1 "	25—	241,250
In length 12,700 yards.			Total,	868,929

The materials to be excavated is believed to be a soft blue mud, with rare exceptions, where it is mixed with sand and shells.

It is supposed that dredging operations can be carried on for 220 days in the year without interruption from the weather, after making fair allowance for other casualties and for Sundays.

It is required to perform the whole work in one year after the machinery, etc., is prepared. To do this by dredging there will be required steam dredging machines and vessels capable of discharging about 4000 cubic yards of mud per day, complete in all their parts and appurtenances, and supplied with cable, and requisite steamboats, storage for fuel, cables, anchors, boats, etc., and the requisite number of scows, with hoppers to hold from 50 to 150 cubic yards each.

Proposals will be received at the Engineer Department, Washington, until the 15th day of March, 1853, for the execution of this work, under one or the other of the following propositions:

1st. To clear out the entire length and depth of the channels through the Choctaw Pass and the Exterior Passes, or separate portions thereof, furnishing all the necessary machinery, vessels, tenders and labors, at so much per cubic yard of material lifted and deposited at a distance from the edge of the channel, not less than 150 yards.

2d. To furnish vessels, machinery, etc., ready for the work, to the Engineer Department at Mobile; which vessels, machinery, etc., shall be tested to the satisfaction of the officers in charge of the work, and at the expense of the contractor, before being received; full specifications will be required, with details for the machinery, vessels, etc., with cost, giving the material dimensions, tonnage, power of engine, and pressure of steam, diameter of cylinder, length of stroke, principle of excavating machinery, whether patented, where now in use and by whom; cost of keeping the apparatus in working order, and the number of men required to work it. Drawings are desirable whenever they can be furnished.

3d. To work the vessels and machinery supplied by the United States at a stated price per cubic yard; keeping everything in repair.

4th. To embrace the last two propositions in one; in which case the machinery, vessels, etc., would remain the property of the United States after the work was completed.

The right of rejecting all the offers which may be made is reserved.

The Engineer Department to exercise the necessary supervision, through its agents, to secure the due progress of the work and its faithful performance, and to reserve to itself the right of annulling the contract at any time should the holder or holders of it fail to fulfil its conditions.

868,929 cubic yards are assumed to be the quantity of mud necessary to be removed in order to obtain a clear depth of twelve and a half feet throughout a well defined width of three hundred feet, on a line of twelve thousand seven hundred yards, in the before mentioned channels; and this number to be paid for, whether it prove, on the completion of the work, to be its full width and depth, a greater or lesser quantity.

The Engineer Department may find it necessary to limit the width of the proposed channel to one hundred and fifty feet, in which case one-half of the stated number of cubic yards will be assumed as the number to be paid for.

No advance of money will be made by the Engineer's Department under any circumstance whatever.

Payments proportionate to the amount of work done will be made monthly, on the certificate of the local agents that due diligence has been used in prosecuting the work, that no interruption to its daily progress has occurred other than incident to Sundays, bad weather, epidemical disease, or unavoidable derangement of machinery, not due to radical defects in construction or quality of material. The quantity paid for must have been taken from a section completely excavated to the depth required.

Twenty per cent will be reserved from all payments due. The accruing sums to be finally paid to the contractors on the completion of the work, or to be forfeited to the United States in case of failure or the same.

All proposals must be accompanied by testimonials of high character as to the competency of the proposer to execute the work offered for; the responsibility of the sureties must also be manifested. The envelopes should be endorsed "Proposals for the improvement of the harbor of Mobile, Alabama."

For further particulars, address Major W H Chase, Corps of Engineers, Mobile, Alabama.

Notice.

THE undersigned offer for sale, their establishment situated on Canal Carondelet, now used as a planing, sawing and turning mill, on account of ill health of one of the owners. Said establishment consist as follows: One 25 horse power steam engine, built by Leeds & Co., with two sets of double flue boilers, two planing machines, one built by Schenck and the other in this city on an improved principle; two circular saw benches complete; two turning lathes, one for wood or metal and the other's splendid sliding rest; two grinding stones, iron, cast steel, tool, cutters, forge complete and brass foundry, patterns, stables, &c., &c. All the tools required to carry on an extensive business. The land comprises nearly the whole square, with large sheds, which render it of vast importance as it is well known that the Canal Carondelet has been purchased by parties who will carry out all the improvements requisite to render that Canal equal if not superior to the new Canal.

N. B. The undersigned would be willing to sell the land and buildings seperately if required.

INSTITUTIONS.

[illegible]

The mathematical department receives special attention.

Students can be instructed at the expense of their parents, in Drawing, Music and Fencing, skilful masters of those departments being connected with the school.

The elementary class is under the immediate supervision of Mr. Everett, who teaches them himself in English, and Arithmetic, and who has confided them to an experienced and skilful Professor in French.

Parents are invited to visit the Institution where they may obtain Prospectuses. o26 tf

GOURAULT'S ACADEMY,
No. 154 Toulouse Street.

THE principal of this Establishment and his wife, not enjoying good health, and having obtained the object of a moderate ambition, intend to retire.—They avail themselves of the present opportunity to express their gratitude to the parents of their pupils, and to the public for the encouragement that they have deservedly received.

Mr. and Mrs. GOURAULT highly recommend to families, Mr. and Mrs. BOURSIER, who will take the direction of the Establishment. They have secured the services of the accomplished Professors attached to the institution.

From the 1st of September, Mr. and Mrs. BOURSIER will act as assistants to Mr. and Mrs. GOURAULT, in order to make themselves known and appreciated; and on the 1st of October, the establishment will be under their immediate control.

Families are invited to visit the Establishment which will be completely repaired. s1 tf

The Verandah Billiard Saloon.

THE Subscriber takes leave to inform gentlemen, amateur Billiard Players, that he has fitted up the above well known establishment for their accommodation, without regard to labor or expense, and hopes to receive such a share of their patronage as he will merit by sparing nothing to make it worthy their patronage.

There are two spacious, well lighted Saloons, each containing four tables, manufactured by that justly celebrated maker, Mr. B. Antognini, of this city. They are made of solid mahogany, some of them with slate beds, and the cushions of one are furnished with double India rubber, an entirely new principle obtained from England, by Mr. Antognini. These cushions are very elastic, and are said, by billiard players, to be the best ever used.

Refreshments of every kind will be supplied in the saloons, and for this reason the Poule Table has been entirely excluded. The desire of the subscriber being to make his establishment the most elegant and agreeable resort of the French and American gentlemen, which has long been needed in New Orleans and the subscriber feels assured that the patronage of gentlemen amateur billiard players will support and encourage it in this undertaking.
