CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

OF all the numerous medicines extant, (and some of them valuable) for the cure of pulmonary complaints, nothing has ever been found which could compare in its effects with this Preparation. Others cure sometimes, but at all times and in all diseases of the lungs and throat where medicine can give relief, this will do it. It is pleasant to take, and perfectly safe in accordance with the directions. We do not advertise for the information of those who have tried it, but those who have not. Families that have known its value will not be without it, and by its timely use, they are secure from the dangerous consequences of Coughs and Colds which neglected, ripen into fatal consumption.

The Diploma of the Massachusetts Institute was awarded to this preparation by the Board of Judges in September, 1847; also, the Medals of the three great Institutes of Art, in this country; also the Diploma of the Ohio Institute at Cincinnati, has been given to the CHERRY PECTORAL, by their Government in consideration of its extraordinary excellence and usefulness in curing affections of the Lungs and Throat.

Read the following opinion founded on the long experience of the eminent Physician of the Port and City of ST. JOHNS, May 8, 1851.

Dr. J. C. Ayer—

Five years trial of your CHERRY PECTORAL in my practice, has proved what I foresaw from its composition, must be true, that it eradicates and cures the colds and coughs to which we, in this section, are peculiarly liable.

I think its equal has not yet been discovered, nor do I know how a better remedy can be made for the distempers of the Throat and Lungs.

J. J. BURTON, M. D., F. R. S.

See what it has done on a wasted constitution, not only in the following cases, but a thousand more:

SUDBURY, Jan. 24th, 1851.

Dr Ayer: In the month of July last I was attacked by a violent diarrhoea in the mines of California. I returned to San Francisco in hope of receiving benefit from a change of climate and diet. My diarrhoea ceased, but was followed by a severe cough—and much soreness. I finally started for home, but received no benefit from the voyage. My cough continued to grow worse, and when I arrived in New York, I was at once marked by my acquaintances as a victim of consumption. I must confess that I saw no sufficient reason to doubt what my friends all believed. At this time I commenced taking your truly invaluable medicine with little expectation of deriving any benefit from its use. You would not receive these lines did I not regard it my duty to state to the afflicted, through you, that my health, in the space of eight months, is fully restored. I attribute it to the use of your CHERRY PECTORAL.

Yours truly, WILLIAM W. SMITH.

WASHINGTON, Pa., April 12, 1848.

Dear Sir: Feeling that I have been spared from a premature grave, through your instrumentality by the providence of God, I will take the liberty to express to you my gratitude.

A Cough and the alarming symptoms of Consumption had reduced me too low to leave me anything like hope, when my physician brought me a bottle of your "Pectoral." It seemed to afford immediate relief, and now in a few weeks time has restored me to sound health.

If it will do for others what it has for me, you are certainly one of the benefactors of mankind.

Sincerely wishing you every blessing, I am
Very respectfully yours,
JOHN J. CLARKE,
Rector of St. Peter's Church.

With such assurance and from such men, no stronger proof can be adduced unless it be from its effects upon trial.

RHEUMATISM CAN BE CURED!

We now have for sale the Celebrated Remedy,
MORTIMORE'S
RHEUMATIC COMPOUND,
AND
BLOOD PURIFIER,

WHICH HAS GAINED SUCH GREAT POPULARITY wherever introduced as the only specific known for the effectual cure of this painful disease. There are many who have already cured thousands of cases, comprising every seeming form of this complaint, from the inflammatory (acute) form, attended with swellings and contraction of the joints, to old chronic cases of from ten to thirty years' standing. Those who had for years resorted to the various celebrated springs, had tried all the liniments and external applications, and been under the treatment of some of the ablest physicians both in this country and Europe, and were pronounced incurable, still, after all these efforts had failed, this compound has cured them. Many who had been confined to their beds for years, and those who had for years used crutches or confined to their beds for years, certify to a complete and permanent cure by the use of this remedy.

We have not space, in a newspaper advertisement, to insert the accumulated evidence in its behalf. This evidence comes from sources of a nature to satisfy the most sceptical. The conductors of high toned public journals have published to the world its wonderful and beneficial effects upon themselves and their friends, and in some instances speak of hundreds of cures. Physicians have resorted to it as the last hope of recovery, after they had decided there were no hopes of their recovery, which they had decided there were no hopes of recovery. More than one hundred clergymen have administered to it, and it will be found under these [illegible] demonstrations have written and published what at has done for themselves and their friends. While such high certificates of cures from reliable sources have furnished volumes of evidence of the highest character, such as compels a steadfast conviction when we direct them to the vicinity of their residence; besides it is more convenient to refer to the agent in their vicinity and get a circular, and read the letters and certificates of Rev. Jas. Mitchell, Rev. N. G. Berryman, Rev. J. H. Linn, Rev. J. M. Bradley, Rev. R. A. Collum, and other clergymen; while we add the names of Hon. J. Smith, late President of the Bank of the State of Missouri; Gen. G. Alberias, officer in the Bank in St. Louis; Messrs. Jas. H. Eddy, S. Downing, J. Holland, C. W. Stone, J. W. Christy, Joseph Southwick, with other gentlemen in the city of St. Louis, as also vast numbers of other citizens.

This is home evidence, and the sworn testimony of those whose cures are positively known, and where many thousands have been cured during the last two years. The proprietors have now opened their Great Central Depot at No. 7 Barclay street, New York, in the city of New York, where all orders for this medicine will be promptly attended to.

This is a vegetable sure for an internal remedy, prepared and recommended for this one disease alone—THIS IT WILL CURE!

Price, $1 for a single bottle or three bottles for $10.

PERFUMER AND CHEMIST, PARIS.—Privileged by the Queen of Spain.

THE fancy Soap and fine Perfumery of VIOLET are well known by the numerous customers of this house, in the fashionable world; and are yet the most highly estimated, inasmuch as they can bear the longest sea voyages without losing any of their qualities, the greatest of which is their superiority of perfume over all others and the tasteful elegance of their model.

Among the best are the Thridace Soap; the Spanish Jessamine, the Cold Cream Soaps; the concentrated extracts from the sweetest and most odoriferous flowers, and extra fine and flavored Pomatums.

The Central Jury, in Paris, and the International Jury, in London, have awarded to Violet two Medals of Merit, one in 1849, the other, for the World's Fair, in 1851. Those honors are the best testimony that can be offered in favor of the articles manufactured by this House, and also their best commendation for intelligent and tasteful buyers and consumers.

Proposals for the Construction of a breakwater in Lake Pontchartrain, opposite the terminus of the Pontchartrain Railroad.

ENGINEER DEPARTMENT,
Washington, February 19, 1853.

IT is proposed to construct (at present) 1,000 linear feet of the open pile breakwater in Lake Pontchartrain, opposite to the terminus of the Pontchartrain Railroad, and at the distance therefrom of 3,750 feet, and in 13 feet water. Said breakwater to be constructed according to the plans and drawings in the hands of Major G. T. Beauregard, corps of engineers, New Orleans; Major Wm. H. Chase, corps of engineers, Mobile; and Mr. H. F. Brahan, Pensacola, at each of which places they can be seen and examined.

It is to consist of four rows of cypress or pine piles 12 inches square, driven from 10 to 15 feet into the bottom of the lake, which is composed of mud and sand; the piles in each row being 8 feet from centre to centre, and the distance between the three outer rows (that is east) is to be 12 feet from centre to centre; the outer row being inclined so as to act like a brace or buttress to the others, by abutting against the top of the one next to it, where they are to be bolted into each other and firmly bolted together.

The three outer piles in cross section are to be connected together by an inclined cross piece, 12 in. x 12 in. strongly bolted on to them by bolts, which will be securely fastened on by heavy spikes and treenails of locust; this planking is to be open; the planks being about 1 foot apart and let into mortices about 2 inches deep.

This planking or platform rises on the inside of the breakwater to about 4 feet above the low water level of the lake, and extends towards the outside to about 6 feet below the water level, thus presenting an inclined surface on which the wave will break.

The two middle rows will be connected together longitudinally by string pieces, 12 in. x 12 in. securely bolted to them, and supporting the inclined cross piece just spoken of, which will be braced to the two inner rows (3d and 4th) by a horizontal cross piece, 12 in. x 12 in., firmly bolted to them immediately below the low water level. The construction under water will be executed as follows: After driving down the outside pile a certain distance, the inclined cross piece is attached to it by a screw bolt, and it is then driven down to its proper depth, its head being cut off level with the cross piece; the other piles are then driven down and the cross and longitudinal pieces fixed in their proper places by bolts, which are made to fit on. The several bolts below the inclined plane are to have rods by means of which the heads of the screws will be reached by levers. The four-inch planks under water will be spiked and treenailed to the inclined cross pieces by means of a tube and follower, the holes and mortices being previously bored to the proper position.

Quantity of materials for the construction of the breakwater:

500 cypress or pine piles, 12 in. x 12 in., from 22 to 33 feet long.

7,000 running feet of cross and longitudinal pieces, 12 in. x 12 in.

22,000 running feet of planking, 4 in. x 12 in.

1,125 screw bolts, (galvanized iron) from 1 in. to 1¼ in. diameter and about 28 in. long.

2,500 spikes.

2,500 treenails of locust.

It is supposed that the work can be carried on at the rate of 200 days in the year without interruption from the weather, after making a fair allowance for other casualties and Sundays. It will be required to be completed in six months from the date of the contract.

Proposals will be received at the Engineer Department, Washington, until the thirtieth day of March, 1853, for the execution of this work, under one or the other of the following propositions:

1st. To furnish and deliver at the site of the breakwater or about the Pontchartrain railroad depot (as the engineer superintending may direct) all the piles, the cross and longitudinal pieces, and the planking needed for its construction.

2d. To construct said breakwater at so much per running foot of its length, the contractors furnishing everything else but the piles, the cross and longitudinal pieces, and the planking.

3d. To furnish all the materials, &c. required, and to construct the whole breakwater at so much per running foot of its length; in other words to embrace the other two propositions in one.

The right of rejecting all the offers which may be made is reserved.

The Engineer Department is to exercise the necessary supervision, through its agents, to secure the due progress of the work and the faithful performance and to reserve to itself the right of annulling the contract at any time, should the holders of it fail to fulfil its conditions.

No advances of money will be made by the Engineer's Department under any circumstances whatever.

Payments proportionate to the amount of work done will be made monthly on the certificate of the local agent that due diligence has been used in prosecuting the work that no interruption to its daily progress has occurred save that incident to Sundays, bad weather, epidemical diseases, or unavoidable derangement of machinery, not due to radical defects in construction or quality of material. The quantity paid for must have been taken from a section completely finished as required.

Twenty per cent. will be reserved from all payments due. The accruing sums to be finally paid to the contractors on the completion of the work, or to be forfeited to the United States in case of failure of the same.

All proposals must be accompanied by testimonials of high character as to the competency of the proposer to execute the work offered for; the reliability of the sureties must also be manifested. The envelopes should be endorsed "Proposals for the construction of a breakwater in Lake Pontchartrain."

For further particulars, address Major G. T. Beauregard, Corps of Engineers, New Orleans.

JOS. G. TOTTEN,
Bt. Brig. Gen. and Col. Engineers.

To be inserted in the Intelligencer, Republic, and Union, Washington; Louisiana State Republican, N. Orleans Bulletin, and New Orleans Bee, New Orleans, La.; Mobile Advertiser, Mobile Alabama; Pensacola Gazette, Pensacola, daily for two weeks; one copy of each paper containing the advertisement to be sent to the Engineer Department. m22wd

MEDICAL.

TREATMENT

Of Syphilitic Affections and Diseases of the Skin, by the ROB of Boyveau-Laffecteur.

THE physicians of the hospitals all recommend the anti-syphilitic Rob of Boyveau Laffecteur as being the sole remedy authorised and employed on board the vessels of the state for more than 60 years. This medicine, completely vegetable, is agreeable in its flavor and can be taken with ease and secrecy even whilst travelling. It cures radically in a short time, at a small expense and without fear of a relapse, whites and every sort of recent and inveterate diseases, affections of the bladder, diseases of the skin and all secret maladies either recent or inveterate.

Observations on Different Cures.

The undersigned, of the Faculty of Paris, declares that in his medical practice he has repeatedly administered the Rob of Boyveau Laffecteur with great advantage.

GRENET, M. D.

The above signature is authenticated by the mayor of the 6th arrondissement.

A. ROBILLARD, adjoint.

The undersigned, Physician of the Faculty of Paris, certifies having employed often, and always with success, the Rob of Boyveau-Laffecteur in the most obstinate syphilitic affections, where the ordinary modes of treatment had been long tried. I also attest that administered in simple or complicated cases and to which I have specially directed my attention, I had very reason to be pleased with the results.

COMEAU, M. D.

The above signature is authenticated as genuine.

F. ADAM.

Having had occasion many times to employ the Rob of Boyveau Laffecteur in the course of my practice, I unhesitatingly acknowledge that I have always obtained from its use the most satisfactory effects in the treatment of chronic maladies.

ALLIE, M. D.

The above signature is proved before the mayor of the twelfth arrondissement.

BONTEMPS, adjoint.

In diseases of the skin the Rob of Boyveau Laffecteur has been always employed with success. With this medicine I completely cured a lady who was afflicted with an ulcer in her thigh; 6 bottles were sufficient for the cure. I also administered to another lady affected with the whites. The Rob of Boyveau Laffecteur, in a short time the pains in her stomach ceased, and she recovered her health. Eight bottles produced this change.

J. LAVOLLAY, M. D.

The above signature is authenticated by the mayor of the 3d arrondissement.

SOUCARD, adjoint.

The undersigned, doctor of medicine, director of the clinical hospital for children, physician to the royal academy for young persons, member of the society of physicians, &c.—

Certifies that in many grave and obstinate cases, when despairing of a cure, he has employed the Rob of Boyveau Laffecteur, and has obtained from it complete success. He therefore, in the interest of suffering humanity, adds his testimony to that given to it by the most celebrated hospital practitioners.

PELLETAN, BOYER

This remedy merits a complete recognition to public favor, and it is with pleasure I contribute towards giving to it by deserved publicity, the popularity it ought never to have lost.

J. VANNIER, of Havre,
Chief editor of the Clinical Journal of Children's Hospitals.

The above signature is verified by the mayor of the 3d arrondissement.

MIGNOTTE, adjoint.

By giving an extract from the "Dictionary of Medical sciences," we most suitably address the medical and learned world.

"The reputation this medicine has obtained in every part of the civilized world, demands that we should devote to it a special article. The efficacy of the Rob in syphilitic affections of the gravest and most alarming nature, so repeatedly proved, is daily exhibited, and during 20 years, that it has been known no longer a matter of doubt that this remedy must now be regarded as one of the most valuable in medical science. Few of the Faculty have made more use of it than the writer of the present notice. A just distrust of all SECRET REMEDIES, made him long hesitate in advising its use, but observing its surprising success in several cases, his doubts vanished, and during 25 years, that he has prescribed the Rob for his patients, he has never found it fail amongst more than a hundred cases."

"Physicians in general only prescribe its use in cases of syphilis that have resisted all mercurial remedies, and become of the most inveterate description. Its success has been found infallible, especially surprising to the practitioner, as consoling to the patient. It is probably the most powerful remedy known in case of constitutional syphilitic affections, so various and redoubtable in their nature."

[Extracts from the Dictionary of Medical Sciences, art. ANTI-SYPHILITIC ROB, vol. XLIII, page 60.]

Consultations and treatment by letter, addressed to Doctor Giraudeau de Saint Gervais, rue Richer, 6 bis, Paris.

To be seen from 9 to 3 o'clock.

N. B.—With each bottle of the Rob, will be delivered *gratis*, a French work, entitled, *Practical Guide* for the use of the Rob, a description of syphilitic maladies, and diseases of the skin—4 vol, in 18mo, with portrait and colored engraving.

A list of the towns where the Rob of Boyveau Laffecteur may be procured is given at the end of the French prospectus. mh12

THE ROB OF DR. BOYVEAU LAFFECTEUR, the only one authorized, is far superior to the syrups of Cuisinier, or Sarsaparilla, or other similar remedies. It radically cures, without mercury, all affections of the skin, Dartres, Scrofula, the consequences of Itch, Ulcers, accidents from Accouchements, the critical period of life, and hereditary acrimony of Humors. As a depurative, it is powerfully efficacious in catarrhs of the bladder, in contractions and other weakness of the Organs arising from abuses of injections or soundings. As an Anti-syphilitic the Rob cures, in a very short time, recent or inveterate diseases ensuing from the use of Balsam of Copavia or Cubebs, or from injections which only repel the Virus without neutralizing it.— The Rob Boyveau is above all recommended to Syphilitic diseases, whether recent or of long standing, and which have resisted the powers of mercury, or the Iodure of Potassium. Depots of the Rob in France, Belgium, Holland, on the banks of the Rhine, and at Bale, at all the Apothecaries. At Assumption, P. F. Hellmin; in Boston, George Gastner, Chemist; Charleston, Painhoim; Galveston, E. B. Theron; Hudson, Ressman and Kiastry; at Mauritius Island, Delisse, Chemist; Mobile, A. Dumee; Montreal, Dr. Picault; Norfolk, Paser Schisano; New Orleans, Dufilho and Mr Ducongé; Paris, Dr. Giraudeau de St. Gervais, 12 rue Richer; Vermillionville, T. Revillon; New York, Rushton and Aspinwall.

In the United States, the Rob Laffecteur is sold by general and special depots and agents in the principal cities of America. Generally, also, by all the druggists throughout the United States. Price, $1 50 the small bottle, and $1 the large bottle, (half pint) with the direction to use it by Dr. Giraudeau de St. Gervais. Agents wanted for all the cities which are not marked above. Please write by steamer to Dr. Giraudeau de St. Gervais, 12 rue Richer, Paris.

The improvements comprise two brick dwellings, two stories each, with attics, 2 story brick kitchen, with all the conveniences for family use, well built and beautifully located; hydrant to each dwelling.

3d. That well known extensive dwelling occupied by the late J. B. Behn, Esq., situated on Rampart street, between Customhouse and Canal streets, having a front on Rampart street of 29 feet 6 inches, by a depth of 164 feet between parallel lines, with a lot fronting on Customhouse street, 30 feet front, by a depth of 120 feet, forming a portion and dependency of said property; the whole forming the letter L. The improvements comprise an elegant dwelling, having a coach entry to the basement story, on which are servants' apartments, wine cellar, pantries, kitchens, ironing and wash rooms, coal and wood shed, &c. On the first floor is a fine entry hall leading to splendidly finished drawing, dining and breakfast rooms, inclosed gallery room, library, &c. On the second floor are 6 bed-rooms, gallery in the rear, &c., with large attics above.

The inclosed gallery on the first floor looks out on a beautifully arranged garden and conservatory stocked with the choicest exotics, plants, shrubs and evergreens. The whole of which will be sold with the premises, together with all the plants, &c., in pots.

The dwelling is fitted with gas.

The oak library cases and chandeliers will be taken by purchaser at valuation, if required.

This very valuable property is considered to be one of the best arranged and finished family residences in the city of New Orleans, and its near situation to mercantile pursuits renders it desirable for a merchant's dwelling.

4th. A certain lot of ground in the First District of New Orleans, in the square bounded by Apollo, Nayades, Clio and Calliope streets, measuring 24 feet 4 lines front on Apollo street, by a depth of 104 feet 6 inches and 5 lines between parallel lines.

5th. A certain lot of ground in the same District, in the square bounded by Hercules, Terpsichore, White and Euterpe streets—measures 32 feet front on Hercules street, by a depth and front on Terpsichore street of 96 feet 11 inches and 6 lines, and forms the corner of said streets.

6th. Thirteen lots of ground in the Fourth District (late Lafayette) in the square bounded by Prytania, Nayades Josephine and St. Andrew streets.

Nos. 16 to 28 inclusive front on Prytania street, No. 17 fronts on Josephine street, and No. 20 on St. Andrew street, all more fully described by plan drawn by C. A. Hedin, Surveyor, on 28th November, 1851, which plan will be exhibited at sale.

These lots are very eligibly situated for private Residences, having the advantages of the Prytania st. Omnibuses and Lafayette Railroad, running near the property.

7th. Two certain Lots of Ground in the First District of New Orleans, in the square bounded by Terpsichore, Liberty, Howard streets, and Felicity Road, said lots measure 32 feet 9 inches 6 lines, front on Terpsichore street, by a depth of 128 feet between parallel lines—this property is a short distance from the market.

8th. Three Lots in the town of Carrollton, near the Hotel, numbering 17, 18 and 19 in square E., said Lots measure each 30 feet front on Pearl street, by a depth of 105 feet between parallel lines.

TERMS OF SALE—One-fourth cash, balance on a credit of 1, 2 and 3 years, for notes secured by special mortgage on the property, with interest of 6 per cent. per annum from date to maturity and if not then paid, 8 per cent. per annum, until final payment, the notes to be divided into coupons, as may be required. The improved property to be kept insured by the purchasers, and policies, transferred to the administrators in case of neglect on the part of the purchasers to keep the said property insured, the Administrator reserves the right to insure the said improvements at the expense of said purchasers.

Acts of sale before Thomas Layton, Notary Public, at the expense of the purchasers.

Notice.

THE undersigned offer for sale, their establishment situated on Canal Carondelet, now used as a planing, sawing and turning mill, on account of ill health of one of the owners. Said establishment consist as follows: One 25 horse power steam engine, built by Leeds & Co, with two sets of double flue boilers, two planing machines, one built by Scheeck and the other in this city on an improved principle; two circular saw benches complete; two turning lathes, one for wood or metal and the other a splendid sliding rest; two grinding stones, iron, cast steel, tool, cutters, forge complete and brass foundry, patterns, stables, &c., &c. All the tools required to carry on an extensive business. The land comprises nearly the whole square, with large sheds, which render it of vast importance as it is well known that the Canal Carondelet has been purchased by parties who will carry out all the improvements requisite to render that Canal equal if not superior to the new Canal.

N. B. The undersigned would be willing to sell the land and buildings separately if required.
