He must conclude this affidavit by the following oath or affirmation, viz: "That he entered upon the land which he claims in his own right, and exclusively for his own use and benefit, and that he has not directly or indirectly, made any agreement or contract, in any way or manner, with any person or persons whatever, by virtue of which or by reason of which, he might acquire from the government of the United States any land other than the quarter of any one except himself, or to convey or transfer the said land, or the title which he may acquire to the same, to any person or persons whatever, at any subsequent time."

(Extract from the circular of the Commissioner of the General Land Office.)

The foregoing affidavit must be corroborated by proof, adduced from the testimony of one or more disinterested witnesses, of all the facts necessary to establish the pre-emption right. The witnesses are to be duly sworn or affirmed to speak the truth and the whole truth, touching the subject of inquiry, and the testimony reduced to writing, and signed by each witness, and certified by the officer administering the oath or affirmation, who shall also certify as to the respectability and credit of each witness.

The proof in all cases should consist of a simple detail of facts merely, and not of statements in broad or general terms applying conclusions of law. For instance, a witness should not be permitted to state that "affiant is the head of a family," or usually settled, &c. following the wording of the law, but should state facts which shall show the grounds such allegation.

The witness must state, if he is the witness to the "head of a family," the facts which constitute such, whether a husband having a wife and children, a widower or a widow having a family of children, or an unmarried person, having a family of relations or others depending upon him, or hired persons, or slaves.

All the facts respecting the actual settlement and personal residence, the time of commencing, the manner and extent of continuance, as well as those showing the apparent objects should be stated.

Respecting the term "Housekeeper," it must be stated that a dwelling stood upon the land, that the element lived in it and made it his home.

The individual claiming the "benefits and privileges" of the act, must have been—

First. An actual settler of the land sought to be entered.

Second. Either the "Head of a family" or over twenty one years of age.

Third. A bona fide occupant in possession by personal residence thereon on the 23d day of June 1838, and for four months next preceding, which term commences with the 23d day of February 1838.

Fourth. That they have in no instance themselves entitled to the same quarter section, each in until it is an equal interest in the same, and the receipt and certificate issued in his name jointly each holding the same, made proof and filed an affidavit, as so required of an individual settler, and paid his proportion of the purchase money. No additional land is granted, the act expressly excludes what are commonly called "Floating rights."

It is admirable that the officer administering the oath or affirmation, should fully explain to the claimants as might otherwise not understand, the nature and consequence of the affidavits to which they are bound by law.

The affidavits of a claimant and his witnesses may, if thought convenient, be embodied on the same sheets of paper, but the acknowledgments (forms of which have been furnished for the accommodation of parties and are the only to be recognized by this office) must invariably be on a separate sheet.

RUSHTON & ANSPINALL'S COMPOUND TONIC MIXTURE.

A speedy and certain cure for the ague and fever, remittent and intermittent fevers; prepared from the original recipe. Used with uncommon and unique success since 1836, by persons in the highest respectability in this city, as attested in the annexed certificates.

This medicine is highly recommended, and has been extensively used in the above diseases with such distinguished success, that the proprietor of the recipe has been induced confer it to the public in its present form in the hope that it may be the means of relieving many of those sad sufferings under the scourge of the country. It is a medicine possessing great virtue, and when used according to the directions has never fail of effecting a cure, even in the most obstinate stage of the disorder. It is not at all disagreeable, and perfectly mild on the weakest stomach, and children may take it with impunity. It strengthens the digestive organs greatly, and seldom requires more than one, or in obstinate cases, two bottles to effect a cure. There is neither mercury nor arsenic in the medicine. Great care has been taken to prepare it in such a manner that it will always keep them largely supplied with their best money.

NOTE BY THE COMMISSIONER

It is deemed proper to remark that large bodies of the above mentioned lands are situated immediately on the Mississippi, Atchafalaya, Calcasieu, and Red rivers, and their tributaries, possessing advantages as regards facility of communication with a market.

A considerable portion of those situated in the northern section of the state, is said to be first rate cotton land; and a large proportion of those south of the parallel of the 31st degree of latitude, is adapted to the growth of the sugar cane.

NOTICE TO PRE-EMPTION CLAIMANTS.

Every person claiming the right of pre-emption to any of the lands designated in the above proclamation, is requested to prove the same to the satisfaction of the register and receiver of the proper land office, and make payment therefor as soon as practicable after sending that notice. In order that the claim may be adjudicated by those officers agreeably to law, in due and regular form, and the proceeds transmitted to the proper treasury, and all claims not duly made known and paid for prior to the time aforesaid, are declared by law to be forfeited.
