[illegible] ACADEMY OF MEDICINE

Meeting of January 27, 1849.

A DISCUSSION, which it is useful to make known, took place at the Royal Belgian Academy of medicine, in its meeting of January 27, 1849, on a proposition made by a member of that learned body, demanding from the government the removal of the prohibition which in Belgium is attached without distinction to all secret remedies, and in particular to those pharmaceutical preparations which have served as their basis, exceptionally in favor of the *Rob vegetal depuratif of Laffecteur.*

The motives alleged in support of the demand for the introduction of the Rob, state the efficacy of that powerful agent, and justify the publicity which the medical press has thought it its duty to accord to the cures effected by this valuable remedy, which in the midst of the struggles of conflicting interests, every day lost in the minds of practitioners, the just reputation which it had acquired by continued success during more than half a century.

The Belgian Academy of Medicine has assumed the initiative in calling the attention of the authorities to a remedy, the sale of which legally authorized, should take place on conditions which would remove all idea of fraud, and offer complete guarantees against any substitution which might be detrimental to public health.

Discussion on the proposition of M. Thirion, relative to the prohibition of the Rob of Laffecteur.

Presidency of M. VLEMINCKX.

The PRESIDENT—The Academy has understood by the reading of the letters, that one of its corresponding members, Dr. Thirion, proposes to demand from the Government, to replace by a suitable custom's duty, the prohibition which now exists against the Rob of Laffecteur. This proposition is of the highest importance; the custom's laws have been applied with severity, and the Rob has been completely prohibited. I am bound to tell you that the members, who, in this Assembly, have the most strongly opposed the use of any specific remedy whatever, use all their efforts to procure the Rob of Laffecteur for their patients. As far as I am concerned, I have been consulted by the government, and was compelled to reply that it was impossible for the army to do without that remedy. Will you refer the proposition of M. Thirion to a committee, or will you deliberate on it immediately?

M. FRANÇOIS.—I consider it might be deliberated on immediately, as every one has already formed his opinion on the value of the Rob of Laffecteur.

The PRESIDENT—If no one objects to the discussion on the subject being opened immediately, I will proceed to read the proposition of M. Thirion.

"GENTLEMEN—Although the Rob of Laffecteur is a secret remedy, it esteems that qualification by its well tried properties, and must not be assimilated to those vile compositions which are sold by quacks, to the great injury of the public health.

"In 1778, the Royal Society of Medicine, of Paris, after three series of public experiments gave its approbation to the Rob vegetal depuratif of Laffecteur, and the French Government ordered it to be used in the navy. Since that time, medical experience, both civil and military, in all countries, has sufficiently proved the prodigious power of the true Rob of Laffecteur, in curing syphilitic affections where the ordinary action of all known therapeutic agents. It is not, therefore, on this undisputed point that I shall for a moment call your attention or claim your intervention, but to the prohibition to which this medical composition is subjected in Belgium.

"This remedy is assimilated to treacle and to ordinary syrups, and this gross error deprives our country of a therapeutic agent which is frequently the only one capable of re-establishing the health, and of preserving the lives of beings precious to their family and to society.

"It has appeared to me, gentlemen, that after these considerations as to the real value of this remedy, it belongs to the Academy to demand from the government the removal of that prohibition, and that it should be replaced by a proper import duty.

"The claim, emanating from the Academy, would be imprinted with a more scientific character and a more humane aim than if it had been made by a single member of the medical profession.

"It would, besides, have the effect of putting an end to the counterfeit compositions which infect the country, enrich some individuals, but kill the greater number of those patients who take them.

"The Academy, I venture to hope, will appreciate the importance of the initiative which I propose to it to take, and deign to accept the homage of my deep respect."

The PRESIDENT—You thus see that the demand of M. Thirion is that you should express a wish to the government of seeing the prohibition against the Rob of Laffecteur replaced by a suitable duty. I must remind you that you have before decided that the Rob of Laffecteur should be prohibited like all other secret remedies.

M. FALLOT—Gentlemen, I do not exactly remember in what terms the Academy expressed its opinion on the question; neither do I know by what majority the prohibition of the Rob was obtained. But what I do know is, that I have supported with all my power, the maintenance of this medicine in the number of those the distribution of which the government permits. I well remember having presented an amendment to that effect, which was rejected.

M. FRANÇOIS—I have no recollection of the discussion which took place on the subject of the Rob of Laffecteur, but I confess that I think it strange that the introduction of a medicine, the valuable properties of which are so generally recognized, should be prohibited. I am convinced that the utility of this remedy, and its necessity in certain cases, is well proved, and that to admit it into Belgium under a more suitable duty would be to prevent it; it will escape all our lines of customs houses.

M. [illegible] replaced M. Vleminckx in the chair.

M. VLEMINCKX—Gentlemen, I regret that our Secretary, who is at the same time commissary of the service of public health, is not present; [illegible] [illegible] [illegible] [illegible] [illegible]

[illegible]

M. MEERSSMAN—Gentlemen, the interpretation of the President is so clear that it is not useful to reply to it. The Medical Commission of Western Flanders, of which I form part, was consulted on the question as to whether or not the Rob of Laffecteur should be prohibited. The Commission, after maturely weighing the [illegible] [illegible] [illegible]

[illegible]

M. LANGLET—I have had the honor to mention to the Academy that the Rob in question is called the Rob of Boyveau Laffecteur. I added that a certain Boyveau sold the property of this Rob to M. Giraudeau de Saint-Gervais, and that the last named person now sells a syrup which he calls Rob of Boyveau Laffecteur.

M. MEERSSMAN—I entreat the Academy to be prudent in the vote it is about to give. Let it remember, I conjure it, that not long since it declared itself in favor of the prohibition of the Rob of Laffecteur. Will it now declare an opposite opinion? That is a point which merits reflection.

M. SCOUTETTEN demanded that the vote on the question shall be postponed. The law on the subject will be consulted, and we can then come to a decision in conformity with it.

M. VLEMINCKX—I beg your pardon, but that is not the way in which we put the question. We propose that the Academy shall demand from the government in the interest of the art and humanity, to allow the introduction into the country of the Rob of Laffecteur.

After a further animated discussion, the Academy passed to the vote and decided on demanding from the government, for the interest of the art and humanity, the free admission of the Rob into Belgium (For more ample details, vide the medical journals of Brussels, and the *Moniteur belge* of February 1st, 1849.)

THE ROB OF DR. BOYVEAU LAFFECTEUR the only one authorized, is far superior to the syrups of Cuisinier, or Sarsaparilla, or other similar remedies. It radically cures, without mercury, all affections of the skin, Dartres, Scrofula, the consequences of Itch, Ulcers, accidents from Accouchements, the critical period of life, and is salutary acrimony of Humors. As a depurative, it is powerfully efficacious in catarrhs of the bladder, in contractions and other weakness of the Organs arising from abuses of injections or soundings. As an Antisyphilitic the Rob cures, in a very short time, recent or inveterate diseases coming from the use of Balsam of Copaiva or Cubebs, or from injections which only repel the Virus without neutralizing it. The Rob Boyveau is above all recommended in Syphilitic affections, whether recent or of long standing, and which have resisted the powers of mercury, or the iodure of Potassium. Depots of the Rob in France, Belgium, Holland, on the banks of the Rhine, and at Hale, at all the Apothecaries. At Amsterdam, F F Hellam; in Boston, Georges Gassner, Chemist; Charleston, Fishburn; Galveston, E. B. Theron; Hudson, Renneus and Kinstry; at Mauritius Island, Delisse, Chemist, Mobile, A. Dumee; Montreal, Dr. Picault; Norfolk, Peter Seldenax; New Orleans, Dufilho and Mr. Demange; Paris, Dr. Giraudeau de St. Gervais, 12 rue Richer, Vera Cruz, Bergeron; Brazil, New York, Rushton and Aspinwall.

For the United States, the Rob Laffecteur is sold by general and special depots and agents in the principal cities of America. Generally, also, by all the druggists throughout the United States. Price $1 50 the small bottle and $3 the large bottle (half pint) with the direction to use it by Dr. Giraudeau de St. Gervais. Agents wanted for all the cities which are not marked above. Please write by steamer to Dr. Giraudeau de St. Gervais, 12 rue Richer, Paris. no15

RED RIVER RAFT.

CONGRESS having recently amended the act providing for the removal of the Red River Raft, the advertisements heretofore inserted on this subject have been withdrawn, and the following substituted in their stead:

REMOVAL OF RED RIVER RAFT.

Proposals will be received at the War Department until the first day of April next, for removing the obstructions in Red River, known as the Red River Raft, and keep the navigation of said river open and free from obstruction by rafts for a series of one or more years, as follows, viz:

Each bidder will propose to remove the said raft and to keep the navigation free from obstruction thereby, for a specified period, for the sum of $100,000, specifying in his bid the time within which he proposes to complete the removal, (the said time not to be later than the first day of January, 1855,) as also the number of years (counting from said removal) during which he binds himself to keep the navigation of the river free from obstructions for the said sum; and the contract shall be awarded to the bidder (provided the Department be satisfied with his responsibility and with the security offered by him) who shall propose to remove said raft and to keep the river free from obstruction thereby for the longest period of time.

The contractor will be required to give his bond for $20,000, with two good sureties, each for the sum of $10,000, conditioned for the faithful execution of the contract. Each bidder will transmit at the same time with his proposals, the names of the persons whom he offers as sureties and a declaration, signed by them that they will join in such bond as sureties as above mentioned; and also a certificate of a district judge of the United States for the State in which he resides, that said securities are respectable citizens, and that he considers them worth $10,000 over and above all their debts and liabilities. No bid will be examined unless these conditions shall be complied with.

Terms of Payment.

Of the sum of $100,000 appropriated for the above object, $50,000 shall be paid as the work of removing the raft advances, as follows, to-wit: Whenever the contractor shall report that a portion of the raft has been removed, the same shall be inspected by an officer appointed by the War Department and if it shall appear that such is the fact, the Department will pay such a proportion of the said sum of $50,000 as the portion removed shall bear to the entire raft, provided no partial payment shall be made for less than one tenth part of the whole work. The remaining $50,000 will be paid in equal annual instalments corresponding in number with the number of years during which the contractor shall bind himself to keep the navigation open, of which fact the Department is to be the sole judge.

Each bid must be for the whole work, that is, for the removal of the raft, and for keeping the river open for a specified period. No separate proposals for portions of it will be considered.

The proposals will be addressed to the undersigned, marked on the envelope, "Proposals for removing Red River Raft.

COLLEGE.

St. Ann Street, facing the Place d'Arms, Old "Congo" Square, under the direction of

MR. JEGOU,

Master of Arts and Mathematical Sciences.

Encouraged by the kindness and patronage of several families of standing, I have determined to open a College, securing to parents for their children the same advantages as those offered by Colleges in New Orleans, where a thorough education is received. For the purpose of obtaining the object for which this College is founded, I have secured the co-operation of the most competent Professors, who will superintend the course of instruction, some in English and others in French; these two languages being indispensable. A good education should comprise the training of the heart as well as that of the mind; the Professors will, therefore, have a proper regard for both in their teachings, and each will be the constant object of their care.

Religion, the most essential part of education, will receive from them and myself, special attention.

The College, fronting the Public Square, (old "Congo" Square) possesses all the advantages of a healthy location, and parents are solicited to visit and examine it.

With a view to foster the emulation of the students, the first day of each month will be devoted to a Literary Soiree, at which recitations in the several languages will take place, and the distribution of the several prizes earned during the month, will be made to the students.

In order to class, as much as possible, children of the same age, a Primary School is attached to the College, in a separate portion of the establishment.

Price of Tuition—Four Dollars

COLLEGE—BRANCHES OF INSTRUCTION.—Writing, Book-keeping, English, French, Greek, Latin, History, Geography, Physical and Natural Sciences and Mathematics. Such accomplishments as Music, Fencing, and Dancing will be charged separately.

EVENING CLASS—This class will be open from 7 to 9 o'clock. Young men will there be taught English, French, Writing, Arithmetic and Book-keeping, by the best masters.

GOUBAULT'S ACADEMY, No. 184 Toulouse Street.

THE principal of this Establishment and his wife, not enjoying good health, and having obtained the object of a moderate ambition, intend to retire.—They avail themselves of the present opportunity to express their gratitude to the parents of their pupils, and to the public for the encouragement that they have deservedly received.

Mr. and Mrs. GOUBAULT highly recommend to families, Mr. and Mrs. BOURSIER, who will take the direction of the Establishment. They have secured the services of the accomplished Professors attached to the Institution.

From the 1st of September, Mr. and Mrs. BOURSIER will act as assistants to Mr. and Mrs. GOUBAULT, in order to make themselves known and appreciated, and on the 1st of October, the establishment will be under their immediate control.

Families are invited to visit the Establishment which will be completely repaired. a1 tf

The various branches of knowledge are taught by Mr. Everett and a corps of Assistant Professors, selected with a view to good character, sound learning and experience in teaching.

The English classes are taught by Mr. EVERETT solely, and he will give, as heretofore, all diligence in imparting to the Students of the School an accurate knowledge of the language of the land. To the higher classes is given, in connection with Rhetoric, a course of English and French Literature.

The course of study embraces the Grammar and Literature of the Greek, Latin, English, French and Spanish languages, History, Geography, Rhetoric, Versification, Logic, Political Economy, Moral Philosophy, Book keeping, Arithmetic, Algebra, Geometry, Trigonometry, Natural Philosophy, and Chemistry.

YOUNG LADIES' ACADEMY.

MADAME PARENT has removed her institution to Customhouse st., between Royal and Bourbon, No 86, the house heretofore occupied by M'me Granet, and is ready to receive boarders, half boarders, and day scholars. There is a very large yard, together with a garden for the young ladies to amuse themselves. The apartments are vast and well aired. There is every advantage and inducement offered to parents, as to the moral and intellectual cultivation of the minds of their daughters. The best Professors are employed. Every branch of a solid and refined education is taught, in both languages; also, accomplishments such as drawing, Painting, Embroidery, &c.

MADAME PARENT would inform the public that she has made permanent engagements with Professors Le Besque and Auchmuty, late (principals of the Franklin High School.) It would be superfluous to add anything respecting the very distinguished talents of these gentlemen, who are already so long known to the community at large. The former has charge of the French language and French literature; the latter, the supervision of the higher English classes and natural sciences. The Musical department is under the direction of three of the most competent and acknowledged talents in the city.

Professor Allston has the special charge of the Mathematical branches.

Mr. Guillot has been engaged as a Teacher of Vocal Music.

For terms apply at the institution. Parents are permitted to visit this institution on Sundays.

Once a week (Sundays) between 12 and 1 o'clock, the young ladies assemble in the parlor, in order to acquire those polite and graceful manners so necessary to young persons when they enter society.

DAY AND BOARDING SCHOOL FOR YOUNG LADIES.

Under the Direction of **MADAM CHARPAUX,**

At the corner of Bayou and Claiborne streets.

THIS SEMINARY, whose existence dates some six years back, has met with a success that proves beyond all cavil, the capacity of those who have charge of it.

Determined to merit the confidence of parents, Madam Charpaux will spare no pains to make her seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madam Charpaux has purchased a large and airy edifice on one of the highest pieces of ground in the city, and the better to consult the health of her pupils, she has had spacious and elevated apartments built on purpose for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of Scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the Seminary.

The English, French and Spanish languages, geography, arithmetic, and in short, all the branches of a polite education, will be taught in this Seminary.

As religion should be the foundation of all sound education, it will be carefully attended to by Madam Charpaux, who will conduct the scholars herself to the chapel, all her young ladies who may have their first communion to make.

Music having become a most desirable branch of the education of young ladies, Mr. Charpaux, from the best musical school in Paris, and ex-artist of the Orleans Theatre, will devote all his time to teaching music. All the Scholars, besides their regular lessons, will be accompanied by the eyes of the Professor. The study of the notes will precede the performances, when Mr. Charpaux will put the pupils through the execution of the most beautiful pieces, and this will be attended with no extra charge.

In order to kindle emulation among the Pupils, and improve their singing, on the morning of the last Saturday in every month, there will be a musical examination and a distribution of rewards.

Madam Charpaux, in order to complete the education of her Scholars, has opened a class where will be taught all the useful and ornamental branches of needle-work.

During the summer, the classes will open at 8 o'clock, and close at 1. Re-open at 4 and close at 6 o'clock, P. M. In winter, they will open at 8½, and close at 3. Re-open at 4, and close at 5½ o'clock, P. M.
