HUMAN HAIR.—"It is certainly true, although not generally understood, that the roots of the hair always remain in the most abundant profusion, and that there not only exist more roots in the skin of every individual than hairs grown from them, but in the worst cases of baldness, that they *neither perish nor are destroyed*; and unless by accident or disease there should be complete derangement, or destruction of the parts which nourish and sustain them, we maintain that they (the roots) continue vigorous, and are not destroyed, or even injured, when the hair has fallen, from fevers, or from constitutional causes, either in the old or young."—[Extract from S. I. Beals & co's treatise accompanying Beals' hair restorative.

MESSRS. S. I. BEALS & Co. from those who are bald (in any degree) or who are losing their hair, to come to their office, 164 Broadway, *up stairs*, and have their *Hair Restorative applied without charge until the hair is restored.*

They further offer to enter into a contract with any party who may be afraid of balding, to prevent their hair under the penalty of a forfeit of from two to five hundred dollars, said party being bound in a like sum, to be paid when the hair shall have been restored.

The *original* certificates of gentlemen of the highest standing in the city, may be seen at the office 164 Broadway, showing incontestibly that Beals' Hair Restorative has restored and will restore the human hair; and if these are not sufficient to satisfy the incredulous (of whom there are a great many, on account of the numerous humbugs that have been impudently palmed upon the community) occular demonstration will be given to those who may call there.

The ladies are respectfully recommended to the use of Beals' Hair Restorative, as it is certainly infallible in producing an abundance of new hair where it has become thin, and in preserving and beautifying that which remains.

Beals' Hair Restorative will keep it in excellent condition, and preserve a full body of hair in health and beauty, during a period of life. Price paled per jar. A liber
