FIRE PROOF SAFES—RICH'S Improved Salamander Safes.—The superiority of these Safes over all others, now in use, consists in their being not only fire proof but also protected from the serious objection to other Salamander Safes, in the fact that papers, books, &c. are preserved perfectly dry, while abundance of proof exists that others do mould the books, and impart a dampness to the papers. The gentlemen whose names are annexed, were a committee on the trial of the Safe in an iron furnace at the foot of Wall street, and the following is their opinion of it:
"Judging from the result of the experiment, we think Robertson & Rich's Safe equal to any yet invented for the preservation of books and papers from fire, and entitled to the confidence of the community.
JOHN W. LEAVITT,
E. D. HURLBUT,
J. S. BARNUM,
JOHN O. WINTER."
The above Safes are finished in a superior style, and can be made to order of any size and pattern. For sale by
A. S. MARVIN, Agent for the Manufacturers,

The undersigned, agent for the sale of the above Safes in this city, is prepared to furnish the most satisfactory evidence of their superiority.

FIRE PROOF IRON SAFES—There can be no greater evidence of the high estimation by the public of Wilder's Patent Salamander Safe than the fact that since the invention of these safes and their subsequent trials and tests, almost every thing made for the purpose of holding books and papers are called by the makers and vendors by the name of Salamander Safes.
The following gentlemen composed a Committee of Merchants at the trial of safes as a test to be made near the foot of Wall street and decided in favor of Wilder's Patent Safe, which was the only one that stood the test, viz:
Messrs. WADSWORTH & SMITH,
BALDWIN & CO,
