NEW-ORLEANS, TUESDAY EVENING, NOVEMBER 24, 1840.

REMARKS.—The inclemency of the weather has interfered materially with business operations during the last few days; the receipts of Cotton continue very heavy, and Western Produce is likewise coming down in great abundance, which has caused a decline in most descriptions, as will be perceived on referring to our remarks below.

COTTON.—Arrived since the 20th inst. of Louisiana and Mississippi, 9,729 bales—Tennessee and North Alabama, 9,526—Arkansas, 883; together, 12,219 bales; making the total receipts since 1st October, 161,817 bales, against 152,996 the season previous. Cleared, in the same time, for Liverpool, 4,362 bales—Havre, 4,743—Havana, 116—Baltimore, 918; together, 9,633 bale; making an addition to stock of 2,325 bales; and leaving on hand, inclusive of all on shipboard not cleared this day, a stock of 108,067 bales; against 100,227 at the same time last year.

The our review of Friday evening last, we noticed that the transactions in the Cotton-market had been on a very extensive scale during the three days preceding the same, and that prices had closed very firm with an upward tendency. Our remarks of that day have been since borne out by the operations that have taken place, which although they have not been to the same extent, yet, mainly owing to the quantity offering being much less than was the case last week. The demand has been very active during the last three days, and has extended to all descriptions of cotton, both for European and Northern account. On Saturday 1,600 bales were disposed of at very full prices; yesterday the inquiry became more general, and 4,300 bales changed hands at a decided improvement of ¼ cent on previous rates; but few buyers entered the market to-day, in consequence of the inclemency of the weather, and the sales only reached 1,900 bales, at yesterday's prices, which were fully maintained, and the article closes very firm at our advanced quotations.

The sales since Friday embrace 7,000 bales, amongst which we notice more particularly of Louisiana and Mississippi, 26 bales at 8@—24 do. do. at 9—19 do. do. at 10¼—394 do. do. at 7¼—261 do. do. at 9¼—37 do. do. at 10—56 do. do. at 8¼—108 do. do. at 8¼—427 do. do. at 9¼—660 do. do. at —; 107 do. do. at 1 ¼—40 do. do. at 8¼—39 do. do. at 9—16 do. do. at 9¼—371 do. do. at 9¼—323 do. do. at 9¼—170 do. do. at 9¼—135 do. do. at 8¼—143 do. do. at 8¼—200 do. at 9¼—and 37 do. do. at 9¼ cts.

TOBACCO.—It will be observed, that the arrivals have been unusually large for this season of the year, amounting to nearly 600 hhds; most of the receipts, however, consist of Strips, which are intended for shipment to the English market. The article continues in very good demand, and the occasional small lots on sale are disposed of as soon as inspected. Of the new crop about 20 hhds have come to hand, which are represented to be of good quality. We notice one sale of 5 hhds Fine Leaf, at 7½ cents, and 1 hhd X. at 8c. We repeat our former quotations, although we may observe, that several small lots have been disposed of at prices somewhat above the range of sales figures. Inferior lots, 2½@3 for Common to Good Strips, common lots, 3½@5 and 7.—Fair lots, 5½@6 and 7.—Fine lots 7½, 8½@9 and 9½@9½ cents.

Arrived since the 20th instant, 300 hhds;—cleared in the same time, none.

SUGAR.—The receipts since our last have been considerable, and the stock on hand is 2,000 hhds at present to about 1,000 hhds. The bad state of the weather has interfered with operations, and only 400 hhds have been disposed of since our last, at prices ranging from 5 @ 6½c. There is some inquiry for lots on plantations, but we have not heard of any transactions.

MOLASSES.—There is a fair stock on sale, but the demand is limited, and the sales have been to a very moderate extent since Friday last. We quote 24c @ gallon. We have not heard of any sales on plantation lately.

FLOUR.—The tone of the Flour market in this city continues to be dull, and the prices have a tendency to decline, which although they have not been to the same extent, yet, mainly owing to the quantity offering being much less than was the case last week. The demand has been very active during the last three days, and has extended to all descriptions of cotton, both for European and Northern account.
