BILLIARD CUSHIONS—NEW PATTERN.

M. ANTIGNINI, Cabinet Maker and Manufacturer of Billiard Tables—No. 366 Bourbon street.

OFFERS the public a new style of making billiard cushions—this method, which he has recently adopted, possesses the advantage of preventing the balls from bouncing and it of a solidity that cannot be overcome. It is fitted by a method invented by Mr. Antignini, and which, at least, after its superiority has been proved. It has already been adopted in several of the principal establishments of the city, and has given the utmost satisfaction.

Persons from the country, desirous of having the cushions of their billiards refitted, have only to send the cushions to the above address. They will be arranged immediately and returned as soon as possible.

Mr. Antignini likewise offers for sale several excellent Billiard Tables, French and American; also billiard cloths, cues, balls, gutters of thirty one, &c. &c. j 3

WILLIAM W. THOMPSON'S PATENT IMPROVED LEADEN PIPES.

THE manufacturer, resident in St. Louis, Missouri, intends the attention to the excellence of the leaden pipes made by a new and patent process, (to which he has the exclusive right to the entire district of country west and south-west of the Alleghany Mountains,) of a better quality than can be produced by any other known method.

The patent pipes is remarkable for the uniformity of thickness, the solidity of the bore, the perfect polish of the interior surface, the absence of scales and flaws, the very long length without joint, for its internal strength. These advantages will be evident to any body upon examination.

Besides left usual size from one-eighth to five inch in bore, he manufactures also, for the use of farmers and others, very light leaden pipes, from one-fourth to one-half inch, spring at long distances under slight pressure or head of water, and for other purposes.
