INSTITUTIONS.

MASONIC COLLEGE.

Established by, and under the patronage of the Grand Lodge of Kentucky.

THIS flourishing Institution, possessing full Collegiate powers, offers peculiar inducements to Southern parents and guardians. Its location is at one of the most beautiful points in Kentucky—*La Grange*, the County Seat of Oldham Co.—25 miles from Louisville, 18 from Shelbyville, 36 from Frankfort, and 8 from Westport, on the Ohio river. The community in which the students mingle, is highly moral, intelligent, and refined; the town containing about 300 inhabitants, free from vicious associations, or contaminating influence. The *Course of Study* is full, embracing Mathematics, ancient and modern Languages, Natural and Moral Science. The *Faculty* consists of the President, who is also Professor of Mental and Moral science, a Professor of mathematics, one of Languages, and a Teacher of the Preparatory Department. The high reputation so deservedly enjoyed by the President, and the zeal and ability heretofore exhibited by the other members of the Faculty, who are graduates of the best Colleges in the land, afford a sure guaranty of their future success.—The *terms of tuition* are extremely low, viz:

In the *Preparatory Department*, per year	$12,
In the *College Proper* per year	20.
Boarding, washing, &c. per week,	1 50 to 1 75.

Scholarship may be had on the following terms—$50 for 5 years tuition—$100 for 10 years—$300 for a perpetual scholarship—in each case, the amount to be paid in advance. On this plan, the whole expense for tuition, boarding, lodgings, washing, fuel, and lights will not exceed $75 per pupil per scholastic year of ten months.

For further particulars address—

ORLEANS HIGH SCHOOL.
(Lycee d'Orleans.)

THE Directors of the Institution, Messrs EVERETT, WYNDHAM and MERVOYER, having unswervingly acted up to their original plan, as laid down in the Statutes, have succeeded in giving the High School a rank among the best educational establishments in the South.

The seat of the Institution is in a part of the city ever noted for its salubrity. The buildings and premises are admirably adapted to the purposes of a large School.

The system of Education embraces the Grammar and the Literature of the Greek, Latin, French and Spanish Languages, Rhetoric, Poetry and Mythology, History, Geography, the use of the Globes, Book-keeping, Arithmetic, Algebra, Geometry, Plane and Spherical Trigonometry, Surveying, Natural Philosophy, Moral Philosophy, &c.

The various branches of knowledge are taught by the Directors, Messrs EVERETT, WYNDHAM and MERVOYER, and by Assistant Instructors, selected for their eminent skill in the business of Teaching.

The Directors also employ two gentlemen, who, enforce correctness of Deportment whenever the pupils are not in a recitation room under the eye of an Instructor.

The Institution receives Boarders, Half-Boarders, and Day Scholars. The price of Board, (washing included,) and Tuition in all or any of the branches is twenty dollars per month. The price of Half Board is $15 per month.—The price paid by Day-Scholars is six, nine, or twelve dollars, according to the knowledge previously acquired.

No interference whatsoever in the internal discipline of the School will be suffered.

The STATUTES, containing all information respecting the School, may be had in the English or in the French language at the principal Book stores in the City. m19

MANDEVILLE COLLEGE.

THE regular course of instruction in this Institution consists of the English, French, Spanish, Latin Language and Literature. The different branches of the Mathematics, Natural and Moral Philosophy, Book Keeping &c. The accomplishments taught are Music, Drawing, Fencing and Dancing.

The number of Professors is six, exclusive of the Ushers, and the Teachers of the accomplishments. These gentlemen are experienced in the business of teaching and zealous in the discharge of their duties.

The discipline of the College is strict and fair; it admits of no interference on the part of parents.

The Lake Pontchartrain, on the shores of which the College is situated, affords the students the benefit of bathing, and a supply of fish for their table. The communication with their parents is rendered easy by the steamers that touch regularly at the Mandeville wharf.

The price of Board and Tuition is $20 monthly. A few parlor boarders can be received at a monthly charge of $35.

EDUCATION IN NEW YORK.
Rev. R. Townsend Huddart's Classical and Commercial Boarding School, 14th Street, between University Place and Fifth Avenue.

THE buildings for this Establishment have been erected expressly for the purposes intended, according to plans carefully prepared with reference to the specific object in view, and whether it be the extent of the accommodation, the general convenience for order, system, and regularity, or the comfort of the pupils which had to be consulted, all have received an equal share of attention, forming, it is believed one of the best arranged places for education in the city.

The Institution occupies a front on Fourteenth street of seventy five feet, by fifty six feet deep, five stories high, supplied throughout with Croton Water, and each story furnished with a few pipes to connect with hose in case of fire, besides facilities of egress, beyond what are usually provided. The dormitories contain [illegible] two separate rooms, well ventilated, [illegible] furnished, calculated to hold two, and some of them three pupils each. Hot, cold, and shower baths are constantly ready for use; in short, every thing which could be devised or thought of, to preserve the health, to promote the comfort and advance the education of young gentlemen, with all the supervision, restrictions, and guarantees of a well regulated school have here been concentrated. In the rear of the play ground, on Thirteenth street, a spacious room has been built, seventy five feet by thirty—fitted up with apparatus of a First Class gymnasium, where pupils can play in unfavorable weather, and which is likewise used for lectures and recreative exercises.

The School Department is so constructed as to bring all the classes under the supervision of the Master, from one central point of observation, thus enabling him to cooperate essentially with his Associate Teachers in the maintenance of order and discipline. The desks and seats provided for each pupil, are such as must satisfy every parent, that the growth of the body and development of the physical frame, have not been forgotten in the arrangements of the establishment.

The situation is perhaps the most eligible which could have been selected, as regards health and facility of access. All the advantages of the best Instructors and Professors are available, whilst the benefits of a country residence are gained, by the out door athletic exercises, which can be enjoyed in the play ground, or in the Gymnasium.

Circulars containing full information may be obtained on application to Samuel J Peters, Esqr.

Mr Huddart respectfully refers to the following gentlemen—Rev. Francis L. Hawkes, Samuel J Peters Esqr, Daniel Le Roy Esqr, Jacob Willcox Esqr, J B Bick, Esqr. m19—3m 1aw

TARRANT'S EFFERVESCENT SELTZER APERIENT.—The unrivalled reputation which this agreeable preparation enjoys, sanctioned by the most distinguished of the medical faculty, is the safest guarantee of its efficacy, and is conclusive evidence of its merit [illegible], and eminently worthy the patronage of our citizens.

The preparation possesses all the active medicinal properties of the famed Seltzer Spring of Germany, with such additions, and improvements, greatly increasing its beneficial effects—retains all the sparkling effervescency of a glass of Seltzer water—serves over the system a healthy action, and is invariably proves its great efficacy and success. A large tea spoon full of this Aperient, in a tumbler of water, before breakfast, will generally be found sufficient to cleanse the stomach and bowels, and remove acidity of the stomach. Taken in this manner it not only invigorates with the aid of the day, and invariably creates an elasticity of mind and flow of spirits which every one who has used it [illegible].

The preparation is also recommended by eminent physicians for Dyspepsia or indigestion, irritability of the stomach or occasional flatulency, speedy removal of the unpleasant symptoms being requisite, the use of this preparation, in a sufficient quantity, is recommended, to induce a full evacuation of the bowels, thereby affording immediate relief; the unpleasant feeling is removed, the irritability of the stomach soothed, and the appetite again resumes its former healthy action.

The energies of that important organ, the liver, may be effectually restored when in a torpid state, or when there is not a due secretion of bile, by the use, for a short period, of a tea spoonful of this Aperient, taken in the morning on rising.

All febrile symptoms will be allayed by taking a tea spoonful occasionally during the day, and being peculiarly grateful to the stomach, forms a delightful effervescent draught.

Captains of vessels would find this preparation a very desirable medicine for family use at home or when travelling. Its agreeable flavor, its life, its medicinal virtues and portability, neatness of preparation and simplicity in using, renders it far superior to any other ever offered to the public.

TESTIMONIALS.

FROM M. PRICE MOORE, M. D.

"I have used your Effervescent Seltzer Aperient in several cases, with very happy results. As a mild Aperient, it has advantage over all other Aperients, particularly in cases of great debility where it is important to save the strength of the patient. It can be made a pleasant drink, and given in such doses as to obtain the object in view. As a family medicine, I think very highly of it; and as such, can be freely used during the summer months."

(Signed) M PRICE MOORE, M. D.
To Mr James Tarrant, No 80 Hudson st.
New York, Nov 18, 1844.

FROM JAMES TRUDEAU, M. D.

"I have often prescribed your Effervescent Seltzer Aperient in this city, and have always been pleased with its operation. It is, in my opinion, a pleasant, safe and mild laxative, calculated to please the most fastidious. To persons residing in warm climates, where a constipated state [illegible] is a frequent cause of disease, it is a most valuable medicine."

Galvanic Rings and Magnetic Fluid.

THIS remarkable discovery which has attracted so much attention in Europe and recently in the Northern States, is now introduced for the first time to the citizens of New Orleans. It comprises an entirely safe and simple application of the Mysterious Power of Galvanism as a remedial agent. The GALVANIC RINGS in connection with the MAGNETIC FLUID have been used with the most perfect success in all cases of RHEUMATISM, acute or chronic, applying to the head, face or limbs; *Gout, Tic-Doloreux, Toothache, Bronchitis, Vertigo, Nervous or Sick Headache, Indigestion, Paralysis, Palsy, Epilepsy, Fits, Cramp, Palpitation of the Heart, Apoplexy, Stiffness of Joints, Spinal Complaints, Lumbago, Neuralgia, Nervous Tremors, Dizziness of the Head, Pains in the Chest and Side, General Debility, Deficiency of Nervous and Physical Energy, and all Nervous Disorders.* In cases of *Dyspepsia* which is simply a nervous derangement of the digestive organs, they have been found equally successful. The RINGS are of different prices, being made of all sizes, and of various ornamental patterns, and may be worn by the most delicate female without the slightest inconvenience.

The Galvanic Belts, Bands, Bracelets,

Are modifications of the invention, and are recommended in more chronic cases of disease, where the Rings do not possess sufficient intensity or power. They are adapted to the waist, arms, wrists, ancles, chest, or any part of the body with perfect ease. Any Galvanic power that is required may thus be obtained, and no complaint which the mysterious agent of Galvanism can effect, will fail to permanently relieved.

Christie's Magnetic Fluid.

Is used in connection with the Rings and their modifications. This composition has been pronounced by the French Chemists to be one of the most valuable discoveries of modern science. It is believed to possess the remarkable power of *rendering the nerves sensitive to Galvanic action*, by this means causing a concentration of the influence at the seat of disease, and thus giving rapid and permanent relief.

Christie's Galvanic Strengthening Plaster.

These articles form an important addition to the Galvanic Rings, acting upon the same principle, but having the advantage of more local application. *As an effectual means for Strengthening the system when debilitated by disease or other causes; as a certain aid in constitutional weakness; as a preventive for colds, and in all affections of the chest generally,* the GALVANIC STRENGTHENING PLASTER will be found of great and permanent advantage.

☞ Numerous certificates and testimonials from many distinguished physicians and others of the North have been received by the Proprietor. These are all from persons of the highest respectability and may be seen on application to the Agent.

The public are respectfully warned against SPURIOUS IMITATIONS of these articles. Dr. CHRISTIE has but one authorized Agent in each city of the Union. GUION & Co., corner of St. Charles and Canal streets, are the sole Agents for New Orleans, of whom alone the genuine articles can be obtained. m1—1m

SUCH is the title of a new French work expressly adapted to the study of French in this country, by Professor CASIMIR LADREYT, of New York. As a class book, the merit of this publication is unanimously pronounced by competent judges to be in all respects superior to anything ever used here for the same purpose, and all the teachers agree that it should be in the hands of every student of French. It contains the biographies of the best French writers, from 1520 to 1846, together with specimens of their compositions in prose and poetry of the most varied kinds. Thus, in learning French, the student becomes familiar, at the same time, with the life of each author, the character of his works, his style and the best standard works of French literature.
