### Galvanic Rings and Magnetic Fluid.

THIS remarkable discovery which has attracted so much attention in Europe and recently in the Northern States, is now introduced for the first time to the citizens of New Orleans. It comprises an entirely safe and simple application of the Mysterious Power of Galvanism as a remedial agent. The GALVANIC RINGS in connection with the MAGNETIC FLUID have been used with the most perfect success in all cases of RHEUMATISM, acute or chronic, applying to the head, face or limbs. *Gout, Tic Dolo reux, Toothache, Bronchitis, Vertigo, Nervous or Sick Headache, Indigestion, Paralysis, Palsy, Epilepsy, Fits Cramp, Palpitation of the Heart, Apoplexy, Stiffness of Joints, Spanish Complaints, Lumbago, Neuralgia, Nervous Tremors, Dizziness of the Head, Pains in the Chests and Side, General Debility, Deficiency of Nervous and Physical Energy, and all Nervous Disorders.* In cases of *Dyspepsia* which is simply a nervous derangement of the digestive organs, they have been found equally successful. The Rings are of different prices, being made of all sizes, and of various ornamental patterns, and can be worn by the most delicate female without the slightest inconvenience.

*The Galvanic Belts, Bands, Bracelets,'*

Are modifications of the invention, and are recommended in more chronic cases of disease, where the Rings do not possess sufficient intensity or power. They are adapted to the waist, arms, waists, ancles, chest, or any part of the body with perfect ease. Any Galvanic power that is required may thus be obtained, and no complaint which the mysterious agent of Galvanism can effect, will fail to be permanently relieved.

*Christie's Magnetic Fluid.*

Is used in connection with the Rings and their modifications. This composition has been pronounced by the French Chemists to be one of the mosts valuable discoveries of modern science. It is believed to possess the remarkable power of *rendering the nerves sensitive to Galvanic action,* by this means causing a concentration of the influence at the seat of disease, and thus giving rapid and permanent relief.

*Christie's Galvanic Strengthening Plaster.*

These articles form an important addition to the Galvanic Rings, acting upon the same principle, but having the advantage of more local application. *As an effectual means for Strengthening the system when debilitated by disease or other causes; as a certain aid in constitutional weakness; as a preventive for colds, and in all affections of the Chest generally, the GALVANIC STRENGTHENING PLASTER will be found of great and permanent advantage.*

☞ Numerous certificates and testimonials from many distinguished physicians and others of the highest respectability have been received by the Proprietor. These are all from persons of the highest respectability and may be seen on application to the Agent.

The public are respectfully warned against SPURIOUS IMITATIONS of these articles. Dr. CHRISTIE has but one authorized Agent in each city of the Union, GUION & Co., corner of St. Charles and Canal streets, are the sole Agents for New Orleans, of whom alone the genuine articles can be obtained. m1—1m

MESSRS DOLBEARS
WRITING ACADEMY,
15 CAMP ST

### PENMANSHIP.

MESSRS. DOLBEAR have opened their Writing Academy, No. 15 Camp street, where a NEAT AND RAPID BUSINESS STYLE may be learned with ease and certainty.

As Messrs. D are confident that every person may learn to write a good hand, they wish all their pupils to continue their lessons without extra charge, until their writing is fit for any business purpose. They believe if their system were universally adopted, it would prevent so much loss of time and money in the unsuccessful attempt to learn by the schools plan pursued in most schools and colleges. A few moments' reflection will convince any reasonable person that it is absurd, to be four or five years in learning to make, with facility, twenty-six letters.

The following opinion of the Principal of the Natchez Institute, was given after witnessing its success on above three hundred pupils. Men of intelligence in different parts of the United States, who have examined it, uniformly express the same opinion. It then becomes a question with parents and others interested in the cause of education, whether it shou d not be substituted for a plan by which so few succeed after years of application.

The *fault is not in the teachers,* but in the system taught, or rather the *want of a system.* Most teachers are satisfied that the common method of teaching Penmanship is so unsuccessful as to be almost a useless waste of time, and that no one can be a successful teacher of everything at once.

Penmanship, like Arithmetic, should be taught according to fixed principles, and then the success must be as certain as the adherence to those principles.

Messrs. D. requests persons to call and examine their system for themselves.

*To the Messrs. Dolbear*—GENTLEMEN: I deem it my duty to express my opinion of your sytem of Penmanship, from what I observed during your recent course of instruction in this Institute. I have watched closely, both your method of imparting instruction, and the advancement of the pupils. I am gratified to say, that by your system, hundred may be taught at a time. It is the *only* system, which I have seen, successfully adapted to public school institution. It has only to be understood by Teachers, Superintendents, and Trustees in general, to be appreciated and adopted. Very respectfully.

J. PEARL, A. M., Principal of N. Institute.

*Natchez, Dec. 22, 1843.*

NASHVILLE, September 30, 1843.

Having been invited by the Messrs. Dolbear, Teachers of Penmanship in this city, we have carefully examined their system, and the specimen of improvement made by their pupils, and feel entirely prepared to say that the system is *scientific* and *much superior* to any other we have seen—that the improvement of their pupils is *very* rapid and we therefore take pleasure in recommending them to the favorable attention of the public.

*From Gen. Andrew Jackson.*—Being requested by Messrs Dolbear to state the standing in society of the gentlemen signers to the within, I do so with pleasure, being acquainted with most of them, and as far as I am acquainted with them, they are highly respectable, and gentlemen of education and of high standing in society. Given at the Hermitage, this 23rd day of October, 1843.

ANDREW JACKSON.

NASHVILLE, Sept. 29, 1843.

*Messrs. Dolbear*:—Having had a fair opportunity of examining your system of Penmanship, and having seen the wonderful and rapid improvement of your pupils in my school, I consider it but just to say, that I believe it to be not only the *best system,* but the *only one deserving the name;* for by strict attention to the rules given any person may, in a very short time, acquire a free, rapid, and elegant hand. I should be pleased to see it universally adopted. Most respectfully, your obedient servant,

ALFRED HUME.

WASHINGTON CITY, June 26, 1843.

*Sir,*—Considering a good hand writing to be not only an accomplishment, but a means of success to every man engaged in business, I greatly applaud your meritorious exertions to improve the chirography of the age. A gentleman or lady either, who writes badly, never writes willingly; and consequently often fail to write when they should, and when they do write, it is done at the last moment, with haste and impatience, and consequently with faults of all kinds, often committing and injuring both the writer and the cause which he advocates. Wishing you every success in your laudable undertakings,

I remain yours, respectfully, THOS. H. BENTON.

COLUMBIA, TENN., Nov. 20, 1843.

*From the Rt. Rev. Bishop Otey.*—Mr. J. W. DOLBEAR—Dear Sir: I have been much interested and pleased in examining your system of Penmanship, and as far as I am capable of forming an intelligent judgment upon the subject, I give it my hearty approval. Your method of teaching seems to me to be both skilful and faithful, and the improvement of your pupils is surprising and rapid beyond any thing I have ever witnessed. I shall feel happy if this testimony to your merits shall lead others to avail themselves of your instructions in one of the most beautiful and useful of arts, and am very respectfully yours, etc.

JA. H. OTEY.

NEW ORLEANS, July 2, 1839.

*From His Excellency Gov. Roman.*—I have examined with attention the system of writing taught by Mr Dolbear, and it is with pleasure that I certify to its superiority over any method with which I am acquainted. Mr Dolbear having given private lessons in my family, I consider it but justice to add, that I believe him as much worthy of public patronage on account of the correctness and mildness of his character, as on account of the rapid improvement of those who received his lessons.

A. B. ROMAN.

VICKSBURG, August 31, 1841.

*Letter from the Rev. A. B. Lawrence to Mr. Dolbear.*—Dear Sir:—You desire me to express my opinion of the merits of your system of penmanship, as taught by yourself. Having for some years been familiarly acquainted with that system, and seen its immediate and continued results, I am free to state that for speedy improvement of the pupils, for certainty in the formation of a rapid, free, clear and beautiful business hand, and for the continued and permanent benefit of the pupil, I know of no instruction in that useful art which is comparable to yours. So far as I have observed, those who have learned to write upon your system, generally retain and often improve the hand acquired under your instruction. Wishing you abundant success in your useful labors, I remain, with respect, yours, A. B. LAWRENCE,

f12—1yf Principal of Vicksburg Female Institute.

### Important Notice—French Blankets.

THE undersigned has the honor to inform the Planters and Merchants of Louisiana and neighboring states, that in consequence of the death of Mr Jean Mager, he has chosen as his sole agents and representatives at New Orleans, and for all the Southern States, Messrs Hte. de Goer and Riffard, who are and will be in future, the ONLY SUCCESSORS of Mr Mager. His depot which is definitively established in this house, will be constantly supplied with FRESH GOODS of the first quality, and he trusts that by their cheapness, durability, and the care taken in their fabrication, to justify and extend the patronage with which he has so long been honored in the United States.

Having learned that some merchants and manufacturers have imitated his mark, and are selling inferior blankets under his name; he embraces this opportunity to inform the public, that HIS ONLY DEPOT is at Hpte. de Goer & Riffard, No 21 Magazine street, and that he will pursue before the Courts of Justice all persons who counterfeit his goods or who sell such counterfeits.

The undersigned once more thanks the public for the confidence heretofore reposed in him, and will endeavor to continue meriting it.

### Chrestomathie Française, &c.

SUCH is the title of a new French work expressly adapted to the study of French in this country, by Professor CASIMIR LABREYT, of New York. As a class book, the merit of this publication is unanimously pronounced by competent judges to be in all respects superior to anything ever used here for the same purpose, and all the teachers agree that it should be in the hands of every student of French. It contains the biographies of the best French writers, from 1580 to 1846, together with specimens of their compositions in prose and poetry of the most varied kinds. Thus, in learning French, the student becomes familiar, at the same time, with the life of each author, the character of his works, his style and the best standard works of French literature. The whole chronologically arranged in one vol. 12 mo.; just received and for sale by
