DENTISTRY.

E. RABASSE, French Surgeon Dentist from Paris, respectfully informs the planters and people of the coast, that he intends visiting the plantations from the Balize to Bayou Sara, on both sides of the river, and offer them his services.

N. B. He directs the dentition of children, corrects any deviation, and fills up the teeth with a cement; places in a simple and efficient manner, and undertakes curing all vices and defects of the mouth. ap27

MESSRS. P. BLANCHARD & ARTHUR LEROY, Surgeon Dentists of the Faculty of Paris and New Orleans, have the honor to inform their clients, that since the 1st of June, they have united their offices at No. 44 Royal street, between Bienville and Customhouse (residence of Dr. Leroy.)

The engagements they are under towards various institutions and the Council of the city, to which they are attached, compel them to be absent from time to time during the course of the month. They have, therefore, deemed it expedient to form a Copartnership, as well as their interests and convenience, their numerous Clients, in order that one of the two Dentists will always in town, to attend to the persons who may honor them with their confidence. The superiority of their work, and the care and punctuality established by them, have secured for them a continuance of the patronage of the public. 8

Dr. PEARSON, Dentist,
office and residence Baronne street, opposite the Exchange.

DR. PEARSON invites his friends and all interested to call and examine the improvements in the manufacture of **Artificial Teeth**, particularly the **Block Teeth**, for which he received the first premium at the State Fair.

Persons who have had Artificial Teeth inserted, can have it done at my establishment with less delay and upon more reasonable terms than any other in the south.

It has ever been my object to place it in the power of the poorer as well as the rich to obtain ease, relief and receive the benefits of dental operations. The great increase of my practice for the last year has compelled me to employ another operator, among whom is an experienced French Dentist, whose services I have secured for a term of years at considerable expense. The facilities may thus be afforded by him always ready to wait upon them—his operations will always be submitted to my examination and approval.

Blocks manufactured for Dentists to suit every variety of case, by furnishing correct models. A supply of every article used by Dentists kept constantly on hand. 13 tf

Sulphur and Vapor Baths.

THE undersigned respectfully informs the public that he continues to prepare and administer these Baths at his Perfumery Establishment, No. 265, St. Louis street, between Chartres and Royal.

The excellence of these Baths is universally known in a great number of chronic diseases of the skin, such as itch, prurigo, tetter, scaldhead, &c. They have been employed with remarkable success in other maladies, which frequently resist the resources of the medical art, such as rheumatism, atonic gout, palsy, scrofula, engorgements of the glands, of the breasts, the lymphatic ganglions and nodes. Eminent medical men have bestowed the highest praises on the remedy, and are in the habit of prescribing it for inveterate diseases that require powerful medicines. The success attained by this mode of treatment is confirmed by the numerous testimonials in his hands, from persons cured.

The undersigned hopes that his efforts to give satisfaction to those who have honored his establishment with their patronage, will merit the confidence of patients whose cases require the employment of medicated sulphur or Vapor Baths.
