LOUISIANA LEGISLATURE.

MONDAY, March 4, 1850.

The Senate met pursuant to adjournment.

Hon. J. G. Bryce, President pro tem. presiding.

Mr. Bryce introduced an act for the relief of Charles F. Lockie, sheriff of the parish of Rapides. Passed.

On motion of Mr. Boutmontque, the Senate reconsidered the act for the relief of E. Lovette and J. N. Lemat. It was amended by extending similar relief to J. L. Phillips, and passed.

Mr. Drew called up the act to incorporate the town of Minden. Amended and passed.

Mr. Phillips moved that the Senate take up an act to take the sense of the people on the expediency of calling a Convention to amend the Constitution of the State.

Mr. Moore objected to taking up the bill at this time, there being a thin attendance of members.

The bill was taken up.

Mr. Phillips moved its indefinite postponement.

Mr. Cole hoped that the bill would not be indefinitely postponed, and that the question would not be taken without a full Senate. The subject matter into vest was one of great importance to the people and the State, and he trusted that full and fair discussion would be had. He did not like to have a question of such grave importance disposed of in so summary a manner.

Mr. Hardison called for the previous question—"Shall the bill be indefinitely postponed?"

Mr. Gardere seconded the demand for the bill, but he hoped that free discussion upon it would not be stifled.

Mr. Gaudet said he was opposed to the previous question which cut off debate; he should vote against it, but he hoped its friends would have the opportunity of a full and free discussion.

Mr. Sligo said he should vote against the motion to take the previous question. The subject was one that involved the interests of the people, and ought to be elaborately discussed. The question was of whether a Convention should be called or not but whether the question should be put to the people, should have an opportunity of being consulted as to their wishes. The Legislature does not propose the calling of a Convention, but it is the submission to the people the question as to the expediency of calling one, and it will be for the people to decide in their wisdom. It seemed as if the opponents of the measure were afraid of the decision of the people, and asked even no discussion, or they would not have made the attempt to stifle debate and get rid of the bill in this summary manner.

Mr. Hilzer said he was not disposed to cut off debate although opposed to the measure itself. He should vote against the call for the previous question.

The question was then taken, and the ayes and noes were called. Ayes 13, noes 13.

The President, Mr. Bryce, stated that he was disinclined on any matter to cut off free discussion—he should therefore give his casting vote against taking the previous question.

The question recurred on the indefinite postponement of the bill.

Which bill was largely debated in which Messrs. Wright, Cole and others took part, and the passage of the bill, and Messrs. Phillips, Drew, Waddill and Cole opposed it.

The discussion will be published hereafter.

Mr. Phillips moved that the further consideration of the bill be postponed until to-morrow.

Mr. Hicks moved as a substitute, that will bill be made the special order for Wednesday next, 6th inst.

Mr. Hausing called for the ayes and noes on Mr. Cole's motion.

Mr. Bryce pro ding. 12 yeas, 13 noes. Lost.

The ques ion recurred on Mr. Phillips' motion, which was lost.

Whereupon the Senate adjourned.

SUNDRIES.

Marriage and Divorce Subjects in Foreign Countries—Registration Thereof, and of Births and Deaths.

AN ACT for facilitating the marriage of British subjects in foreign countries, and having been passed in the last session of the Imperial Parliament, 19 and 13 Vict., it becomes the duty of the Governor to give public notice thereof, for the benefit of all those whom it may concern.

It is the only condition, "That all marriages (both of persons of the same and of different nations, or of one of the same) which shall be solemnized in the manner in this act provided, in any foreign country or place, out of which shall be a *British Consul*, authorized to act in such foreign country or place, under this act, shall be deemed and held to be as valid in the law, as if the same had been solemnized within her Majesty's dominions, with a due observance of all forms of law."

The act provides for the solemnization of marriages at the Consulate, with license at short notice, and without license at long notice, by the Consul, or in the presence of the Consul by some proper person to be allowed by him, according to such form and ceremony as the parties thereto may see fit to adopt.

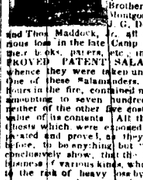
It also provides for the registration of such marriages, and that a true copy be transmitted to England, to be preserved as a record at the office of the Registrar General.

British Consuls are likewise instructed to keep a register of Births and Deaths of British subjects, when there required, so as to facilitate the proof of those important events.

This valuable provision of a general system of Registration of Marriages, Births and Deaths, is evidently intended to preserve all the rights of British subjects and their descendants in the same manner as if they remained in their own country.

WM. MURE, H. B. M. Consul.

Protection from Fire.



Any person who heretofore doubted the importance of possessing a secure depository for their books, papers, money, and other articles of bulk, but great value, will doubtless be convinced on inquiry of Messrs. B. Elder, Brothers & Co., Pittsburgh & Montgomery, Alexander Hill, G. Dunlap, Thos K. Price, and all of whom escaped uninjured in the late Camp street fire, by having their books, papers, etc., in RICH & CO'S. IMPROVED PATENT SALAMANDER SAFES, whence they were taken unharmed after the fire. One of these Salamanders, which remained 32 hours in the fire, contained notes and acceptances amounting to seven hundred times its cost, and neither of the other five cost one per cent. on the value of its contents. All the Asbestos and Knob Chests which were exposed on that occasion appeared and proved, as they had frequently done before, to be anything but "safes." These facts conclusively show, that thousands engaged in business at various kinds, who are nightly subjected to the risk of heavy loss by fire, would practice true economy by purchasing the above named article. The subscriber, Sole Agent in this city of the Manufacturers, has now remaining a fair assortment of these Safes, including some with Yale's Patent Powder Proof Locks, and will soon receive further supplies. Orders for these, of any size or pattern, will be promptly and faithfully executed on application to
