REPORT OF THE GERMAN SOCIETY.

We are indebted to the officers of this excellent and beneficent Association, for a copy of the annual report of their proceedings. The object of the German Society is to assist immigrants from "Father land" in reaching their destination, and to provide them with the means of subsistence, if destitute, and procure them employment, if desirous of remaining in Louisiana. We learn from the report, that during the year ending on the 1st June last, 12,707 Germans arrived at New Orleans, from various ports in Europe, exhibiting a diminution of 6,459 as compared with the previous year. The emigration in 1848-49 was naturally larger, in consequence of the unsettled condition and intestine troubles of Germany. Of the immigrants of the past year, 4,986 were bound to St. Louis, 2,921 to Cincinnati and other points on the Ohio, 86 to Texas, 6 to Mexico, 29 to other places. Of the remaining 4,659, a large number selected New Orleans as their residence, and the destination of the balance is unknown.

Application was made to the Intelligence Office during the period referred to, by 5,966 persons seeking employment, of whom situations were procured for 1,909. No less than 1,851 persons sought employment as servants in every capacity. The report remarks that female servants are still in great demand, but that every year it becomes more difficult to find scrupulous & working men.

The financial aspect of the Society exhibits an improvement on the report of the preceding year. The receipts of the year have been $2,407 35, while together with the cash on hand—$1,068 49, on the 1st June, 1849—forms a total of available funds of 3,465 84. The expenses of the year have amounted to $3,661 06—leaving a cash balance of $101 78. The capital stock of the Company amounts to $4,030 70 against $3,823 59 last year.

There is a General Relief Committee attached to the Society, who report that they have extended assistance to 117 persons during the past year—some of whom were among the victims of the disastrous explosion on board the *Louisiana*. The expense incurred by the Committee was $380 45 cents.

The report altogether is lined in its statements and written with marked ability. Its recommendations to Germans who immigrate to the United States, its reflections upon the policy and conduct they should pursue, and its excellent advice to them in respect to the precautions they should take are all evidences of forecast, correct principle and sound sense. We regret that our limits do not enable us to transcribe several striking passages from this masterly report.

The officers for the present year are as follows: Wm. Voorn, President; J. H. Eimer and F. W. Fischer, Vice-Presidents; Gustav Dekeyser, Treasurer; A. Schnes, Corresponding Secretary.

TRIAL OF THE MONTICHONS.—The St. Louis *Republican*, of the 29th, says: The jury in this case, after an absence of forty hours, were yesterday discharged, being unable to agree upon a verdict. The case stood, at the last accounts, four for convicting both brothers and three for acquitting them. We learn that the jury stood with upon the indictment for killing Allen Jones, upon which a second case has been granted, and they will be tried separately. The record has occupied the court four weeks.
