Prof. A. C. Barry's Tricopherous, OR, MEDICATED COMPOUND

INFALLIBLE for renewing, invigorating and beautifying the hair, removing the scurf dandruff, and all affections of the scalp, and curing eruptions of the head and face, and all other diseases of the integuments, and relieving stings, cuts, bruises, sprains, &c. With this preparation there is no such word as "fail." The Professor has in his hands medical men of the highest eminence, prominent citizens of all professions, and ladies who have used it for years, all testifying to its superiority, and to admit with one accord, that for imparting vigor, gloss, luxuriance and curl to the hair, eradicating scurf and dandruff, healing scalds, curing contractions, sprains, stings, &c., and relieving diseases of the skin, the glands and the muscles, it has no equal, and is the multitude of compounds advertised in the public prints, or used in private practice. Its cheapness as well as efficacy, Barry's Tricopherous is unrivalled. The testimonials at the foot of the article have enabled the inventor to supply it at retail, at 25 cents per bottle, which is from 50 to 100 per cent less than the price of any other preparation for the hair now in use. The scientific treatise on the hair and the skin, (embracing valuable directions for the treatment of the hair, with a Physiological sketch of the human hair, and its peculiarities, in which each bottle is enclosed, is alone worth the money.

The affixed signature to the outside wrapper which constitute the skin, and the hair, which draws its nutriment from this triple envelope, is very close. A diseased and dry hair cannot be on one of the head. If the pores of the scalp are clogged, or if the blood and other fluids do not circulate freely through the small vessels, the hair will be dry and lifeless, and impart little life to the fibres, the result is scurf, dandruff, shedding of the hair, gid vertigo, dryness and harshness of the skin, and other maladies, as the case may be. Stimulate the skin to healthful action with the Tricopherous, and the liquid vessels, recovering their activity, will annihilate the disease. In all affections of the skin, and of the sub-strata of muscles and integuments, the process and the effect are the same. It is upon the skin, the muscular fibre, and the glands that the Tricopherous has its specific action, and in all affections and injury of the organs it is a sovereign remedy.

Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, New York; and by the principal Merchants and Druggists throughout the United States and Canada. ja14 3m

ever known; it not only purifies the whole system—it strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past five years more than 100,000 cures of severe cases of disease, at least 15,000 of these were considered incurable; it has saved the lives of more than 5000 children during the two past seasons.

TEN THOUSAND CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicine or indulgence, it imparts vigor, and restores the vigorous elegance of the passions, and brought on a general physical prostration of the nervous system, languide, weak and nervous, with premature decay and decline, hastening toward that fatal disease, Consumption can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any.

Spitting Blood.

NEW YORK, April 98, 1847.

Dr. Townsend—I feel it my duty to inform your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It has gone from bad to worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has been a wonderful change wrought in me. I am now able to walk all over the city. I have no blood and my cough has left me. You can well imagine that I am thankful for those results.

Your obedient servant,
WM. RUSSELL, 65 Catharine st.

Rheumatism.

This is only one of more than fourthousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues.

Lewis Cummings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter.

BLACKWELL'S ISLAND, May 14, 1847.

Dr. Townsend—Dear Sir: I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sleep, or rest. I had the utmost distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and I feel as free from pain as one thousand dollars worth of good. I am so much better—indeed, I am entirely relieved. You are at liberty to use this form for the benefit of others. Yours respectfully, JAMES CUMMINGS.

To Mothers and Married Ladies.

This Extract of Sarsaparilla has been especially prepared in reference to female complaints. No female who has reason to suspect she is approaching that critical period, "Change of Life," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which its sex is a subject at this time of life. This period may be delayed for several years by using this medicine. Not is it less valuable for those who are approaching maternity, as it is peculiarly its nature by quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all of the delicate diseases to which the female is subject. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body—not in a stimulating manner, but to produce a subsequent relaxation, which is the cause of most medicines taken for female weakness and disease. By using it at home, all those mortifying many severe and painful surgical operations may be prevented.

Great Blessing to Mothers and Children.

It is the safest and most effectual medicine of purifying the system, and relieving the sufferings attendant upon childbirth ever discovered. It is a most pleasant, safe, and effectual medicine in pain and disease, increases and enriches the food, those who have used it think it indispensable. It is highly useful in the first and after childhood, and prevents diseases attendant upon childbirth in convulsions, piles, cramps, swelling of the feet, despondency, headache, nervousness, pain in the back and limbs, costiveness, hemorrhoids, and in regulating the secretions and expelling the circulation it has no equal. Indeed, it is a most valuable family medicine in every state, and the most delicate and unsuccessful very few cases require any other medicine in some a little castor oil or Rhubarb is necessary. Exercise in the open air and light food with this medicine, will always insure a safe and speedy confinement.

Owing to the great success an immense sale of Dr. Townsend's Sarsaparilla, a number of men who have no medicine to sell have commenced selling Sarsaparilla Extracts, Bitters, Extracts to Yellow Dock, etc. They generally put up in the same form as Dr. Townsend's, copy the labels and copied our advertisements, they are only worthless imitations and should be avoided.

BEWARE OF IMITATIONS.

Let everybody read This Carefully.

THERE is a Sarsaparilla for sale in the different towns and cities, called Dr. Townsend's Sarsaparilla. It is advertised as the original, &c. This is a notorious falsehood. While we a concrete many years have been known for the superior merit of our compound, throughout the country, from our participation in the fraud, we feel it our duty to caution the public against the imposition. The medal of Science, which unblushingly put forth to the world such notorious falsehoods.

Dr. Townsend has expended over $200,000 the last eight years in advertising his Sarsaparilla, which has obtained a character and reputation throughout the world, and has become a great part of the world, the sale being enormous.

Thus excited the cupidity of certain unprincipled men, who, knowing that Dr. Townsend has been engaged in peddling cheap publications for a number of years. This man's name is Jacob Townsend. He applies to the Patent Office for a patent, or privilege, to use the use of his name to put up Dr. Townsend's Sarsaparilla, stating the large sales and sums we had expended in advertising, and the great demand there is in the business. Among other he applied to Charles Wattson, Esq., editor of the Farmer's Farmer, who refused such a proposition. Mr. H. G. Andrews, formerly one of the proprietors of McAllister's Ointment, Ralph Pomeroy, Esq., Chemist and druggist, and Dr. Ayer, a shoplifter bank at Bellville, New Jersey, John Skillman and Wm. Thompson, under the name of Williams, Thompson & Co., have entered into old ones, and agreed, as we understand, to pay him seven dollars per week for the use of his name.

Another Trick

We went to an expense of five hundred dollars to get up a splendid steel engraving for our Sarsaparilla, the same as that of Dr. Townsend, so as to distinguish it from all others and prevent mistakes. These men are now getting up a label so close to our engraving, that the unsuspecting—let the public decide upon such transactions, and let them remember that none is genuine and original, but that which has been and is now the Dr. Townsend. The plate is engraved on steel and contains the portrait of Dr. Townsend, three female figures and a view of the Spring. The spurious has no factory or female figures.

Dr. Townsend's Sarsaparilla.

These men have not even the impudence to use Physician. This, like all other statements, is false. Dr. Townsend attended two of the best medical colleges in the country, graduated, and read lectures of medicine, and practised for the last fifteen years; has experimented several years and expended large sums of money in bringing his medicine to perfection.

☞ Among other recommendations to the article it is warranted to keep sweet in all climates.
