And in case of contagious diseases, (and this is of the greatest importance) it any student would contract the disease, he would be immediately withdrawn from the college and sent to the country seat, and placed in separate apartments.

In the college are employed from fifteen to twenty teachers, all particularly devoted to the instruction of those under their care. The Professors, and a large majority of the students, are of the Roman Catholic Religion, yet pupils of all denominations are admitted, with the condition and understanding, however, of exterior conformity to all the exercises of public devotion.

The Mercantile Department consists of a thorough course of English, including Reading, Writing, Arithmetic, Geography, Use of the Globes, History, Political Grammar and Book-keeping.

The Classical Department, besides the branches just specified, comprehends the Greek and Latin Languages, Poetry, Rhetoric, Chemistry, Physics, Mathematics, Mental and Moral Philosophy. The French, Spanish and German Languages are at the option of the student, and are taught without additional charge.

In the class of Philosophy, the language employed is exclusively Latin, in the French, German and Spanish classes, instruction is carried on in their respective tongues, on all other occasions, the ordinary language of communication is English.

MEDICAL.

DR. EDOUARD MARTIN'S HYGIENIC ELIXIR,

FOR ... [illegible] ... An idea may be formed thereof by the perusal of the annals of Pharmacy, Chemistry and Medicine of all Countries, published within the last ten years.

The inventor of the "Hygienic Elixir," has at length made this invaluable discovery. After numerous trials, changes and alterations in the proportions of the substances composing this Elixir, he is enabled to offer it to travellers in the shape of a palatable draught, not decomposed or altered either by climate or age.

The Elixir checks sea-sickness immediately, and restores the stomach to its healthy state. However delicate be the constitution of the person using it, it is equally infallible, and procures a general feeling of ease and comfort. The nausea ceases as it by magic, calm and sleep are restored the appetite awakens and the digestion effected promptly under the influence of this tonic.

The inventor having had an opportunity during a recent sea voyage, to make personally a final trial of his Elixir, has made up his mind to offer it to the public. He could corroborate the above statements by testimonials from several sea-captains, but will appeal only to the opinion of one of the most intelligent and distinguished commanders of the French Commercial Navy. Captain Labory, having had opportunities of testing, under his own immediate supervision, the efficacy of this remedy, (then in the shape of pills) during several voyages, gives thus the result:

DEAR DOCTOR:—During my last voyage to France I have had opportunities of testing, on divers persons, your remedy against sea-sickness; I am happy to be enabled to report to you that I have obtained the best results, and if it were possible to alter this remedy into a palatable draught, such as a lemonade of some kind, which could be more easily taken than in its present shape, especially when the sea-sickness has already commenced, nothing more would be required, and you would be entitled to the everlasting gratitude of all those who are obliged to travel by sea, without being accustomed thereto.

I am yours truly,
Signed, A. LABORY, Com't. Ship l'Oscar.

The improvement suggested by Capt. Labory, has been effected. The Tonic and Hygienic Elixir against sea-sickness, is sold in four ounce bottles with glass stoppers. Care must be taken to keep the bottles corked, to prevent evaporation.

Dr. Ed. Martin's Vermifuge Syrup,
Without any disagreeable Taste or Smell.

THE MELIA AZEDARACH, (Folia Bipinnati, Linnaeus' Class X Decand.; Monogyn.—Jussieu, Class XIII, order 11, Meliaceae—Tournefort, Class XXI, Arbres rosaces,) one of the most beautiful ornaments of our forests, the root of which for some time past has been, by a few persons, justly reputed the best vermifuge known supplies us with the principal agent in the above named remedy.

Having sought with the greatest care in the bark of the root of this tree, the active principle which produces such excellent results in verminous affections of children, we have succeeded in extracting it to its purest state and by combining it with other tonic plants which are nearly all indigenous to Louisiana, have arrived at composing the above VERMIFUGE SYRUP, the efficacy of which is now beyond the shadow of a doubt.

This syrup, of an agreeable flavor, can be administered without the slightest apprehension to the most delicate children. Its use continued during three days, the dose being given at shorter intervals as the child may be older and stronger, will infallibly expulse all those intestinal worms which are the source of so many diseases, dangerous and often fatal to children.

Some mothers, rendered timorous by the frightful results of the various vermifuges hitherto employed, have given it to their children, but in doses extremely small, this has, in such cases, rendered the effect incomplete, and might have injured the standing of this remedy, had not several of our most experienced practitioners by judiciously prescribing it and regulating the doses adapted to the different ages tested and established its excellent virtues.

To avoid debilitating the little patients by too severe a diet, we have modified the doses originally prescribed in the following manner:

Children 2 to 5 years old three tea spoonfulls a day, at an interval of from 1 to 2 hours. Above five years old, three table spoonfuls at the same intervals. No nourishment to be given between the first and third dose, nor within an hour after the third.

The SYRUP must be administered during three consecutive days. Composed entirely of vegetable extracts, this Vermifuge does not produce any of the pernicious effects which have often followed the use of those hitherto in use.

DUCONGE'S
PECTORAL BALSAMIC SYRUP,
LABORATORY OF THE PROPRIETOR,
No. 39 Chartres street, N. O.

THE well known virtue of this vegetable syrup in all ailments of the breast, the Lungs and bowels, is so well established and has been tested by so many years by such extensive patronage, that it would be idle to dwell at any length on its efficacy in colds, coughs, asthma, bronchitis, inflammation of the throat, stomach or bowels, spitting of blood and whooping cough.

It has been found highly beneficial in all inflammatory disorders, such as Rheumatism, Diarrhoea or dysentery, ... and especially in the ... cholera ...

In all affections of the lungs ... Consumption, it has been found to be one of the best ... scourge, whenever timely resorted to.

Besides its acknowledged certainty of cure, this truly wonderful Mixture has over most compounds of the same nature, the decided advantage that, owing to its agreeable flavor, it can be administered without difficulty to children, and it requires no very particular diet.

In this preparation we have all the restorative properties of the root, concentrated in their utmost strength and efficacy, but while Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels, and thus three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time through the instrumentality of this one remedial agent, which gently stimulates while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Its great merit is, that it meets and neutralizes the active principle of disease itself, and when that is gone, the symptoms necessarily disappear, and we have only to point to the accumulated testimony of multitudes who have experienced its effects, to convince incredulity itself of its real value.

The Proprietors submit to the public the following certificate from a highly respectable source, of a cure made by using their preparation of Sarsaparilla.—

CHATHAM, Mass., July 28, 1850.

Messrs. A. B. & D. SANDS:

Gentlemen—So truly valuable do I consider your Sarsaparilla, that I feel it to be my duty to state to the benefit of others, the cure effected on myself. Previous to 1845, I had a disease of the throat, which destroyed the tonsils, and was then attacked with violent pain in the head. This soon resulted in severe inflammation, and immense quantities of blood and matter were discharged. For six weeks the disease continued in the head, and then pervaded the body generally, attacking all the limbs. I was confined to a sick bed, from which I never expected to arise.—Many physicians attended me, the most skillful pronounced me past cure. In short, tongue cannot express my sufferings; and in this condition I heard of your Sarsaparilla, purchased six bottles, and renounced all other remedies. I did not expect to take all I bought, so debilitated had my system become.—Contrary to all expectation, my health almost immediately began to improve, I was able to attend to my domestic duties, and soon could walk out, a thing I once thought would be impossible. My gratitude I cannot express, feeling satisfied that nothing else could have relieved me of the misery and suffering I then endured. I most cheerfully recommend Sands' Sarsaparilla to all suffering as I have done.

Respectfully yours,
REBECCA MAYO.

Knowing the above statement to be strictly correct, and being near neighbors to Mrs. Mayo, we cheerfully testify to the same.

WARREN RODGERS, Esq., PRISCILLA L. DODGE,
JOHN HALLET, REBECCA SMITH.

ANOTHER REMARKABLE CURE.

NEW YORK, Jan. 6, 1850.

Messrs. SANDS—Gentlemen—I have great pleasure in acknowledging to you the great benefit I have received from the use of your Sarsaparilla. I was subject of pulmonary disease, I made a voyage to Europe, but while there continued to be afflicted. A few weeks after my return, I was seized with a violent hemorrhage of the lungs, and from the debility and great prostration of strength that followed, with the protracted difficulty of respiration, I am entirely relieved by the use of your Sarsaparilla, which I consider's most important and truly valuable discovery in the healing art. I feel that I have not for fourteen years enjoyed as good health as at present.

Gratefully yours,
S. E. SAYMORE.

STATE OF LOUISIANA—First District Court of New Orleans.—According to law, publication is hereby made of the amendment of the charter of the Pelican Dry Dock Company, in the words and figures following, to wit:

STATE OF LOUISIANA, City of New Orleans.

Be it known that on the tenth day of March, in the year of our Lord one thousand eight hundred and fifty two, and of the independence of the United States of America the seventy sixth.

Before me, Jacob Soria, a notary public in and for the city and parish of New Orleans, State of Louisiana, duly commissioned and sworn.

Personally came and appeared the following named persons, stockholders in the Pelican Dry Dock Company, a body corporate created by law, as will more fully appear by reference to an act passed before John Claiborne ... notary public in this city, on the twenty ... day of January, eighteen hundred and fifty ... who severally declared that the ... sum of ... thousand dollars, the amount specified in the ... as originally contemplated, ... to complete the dock ... and also that there are errors ... in said charter which they desire to amend and correct in the following manner, to wit:

1st. The capital stock of said company shall be increased to seventy five thousand dollars or so much ... as may be found necessary to build the additional sections contemplated, with the privilege of the holders of a majority of the stock, if they so think, to increase it to an amount not exceeding one hundred thousand dollars.

2d. The subscriptions to said additional stock shall be due and payable as follows, to wit:

Twenty per cent in cash at the time of subscription, twenty five percent in thirty days, twenty five per cent in sixty days, and thirty per cent in ninety days—hereafter for which ... instalments promissory notes shall be given, and in case of the non payment of said notes at maturity, the said stock shall be subject to the same penalties and forfeitures as set forth in the third section of the original charter.

3d. That the stockholders of said additional stock shall not receive or participate in the dividends declared or to be declared from the earnings of said dock, until the completion of the additional sections contemplated to be built out of the money received for said additional stock.

4th. The books for the subscription of said additional stock shall be opened at the counting room of C. J. Mecker & Company in the city of New Orleans, the commercial agents of said company, and ... J. Mecker and Thomas A. Adams and George ... are hereby appointed commissioners to ... said books and superintend the subscription of said stock, and in case more is subscribed than is necessary, it shall be reduced in the same proportion as in the original charter.

5th. The present stockholders shall have the privilege of taking said stock during five days from the opening of the subscription books, and it is not taken by them in five days, then any person or persons may subscribe for the same.

6th. The board of managers shall be composed of four stockholders ... elected on the first Monday of January of each year, and C. J. Mecker, their successor, ... the powers and rights of the other ... and three of said board shall form a quorum for the transaction of business, and in the absence of the chairman, the board shall appoint one of their number in his place.

7th. That the extraordinary ... in the ... shall be so amended that ... stock of said company ... be transferred ... books of the company, and ... by the chairman and secretary of the company.

8th. The works of said dock shall ... proper ... stockholders who shall be removed at the pleasure of the stockholders, who shall appoint a suitable shipwright ... to ... and assist him in working the dock, and whose appointment shall be subject to the approval by the board of managers, and removal at their discretion.

9th. That said company shall sue and be sued, ... corporate name, and ... served either on the ... agent of the company or the chairman of the board of managers, ... and the chairman shall have power to execute all bonds and make all affidavits, that may be necessary in the litigation of company, and in his absence or his being sick, any one of the board of managers, or the commercial agents shall have power to do so.

9th. That article first, of the original charter, be amended by inserting twenty years for the duration of the company, instead of ten years.

10th. That the subscription books for said additional stock shall be opened as soon as this amended charter is approved of by the Court, and shall remain open thereafter for the space of sixty days, unless the amount required is sooner subscribed.

Thus done and passed, in my office in the city of New Orleans aforesaid, in the presence of Daniel I. Ricardo, and Arnold J. Soria, witnesses of lawful age and domiciliated in this city, who, together with the ... parties, and me the said notary, on the day and date ... forth in the copy hereof.

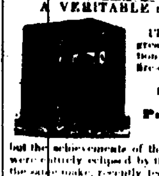
A VERITABLE SALAMANDER.



IT was supposed that the great Camp street conflagration had fully developed the fire-defying qualities of

RICH'S IMPROVED
Patent Salamander Safes;

but the achievements of the article on that occasion were entirely eclipsed by those of another SAFE of the same make, recently tested in Pearl street, New York, which, owing to the protracted intensity of heat, could not be reached by those in search of it, until forty hours after they commenced their efforts, and when it had been nineteen hours contending with the fiery element. Incredible as it may seem, the subscriber has the testimony of the owner, Mr. JOSEPH C. GILBERT to prove that its contents, worth to him over one hundred thousand dollars were uninjured, notwithstanding the unexampled ordeal through which their protector had passed, it being the only one among twelve Safes or Chests tested at the time, which was not demolished. Certificates of many other tests will be forwarded (post-paid) to any who may desire full information with a view of purchasing, and will send their address to the subscriber.

No Safe of Rich's make, when tested with Books, or other valuable contents, has cost its owner more than one per cent, while some of them have cost less than one eighth of one per cent, on the amount saved. This fact serves to show that true economy would be promoted by possessing such an invaluable depository for articles of small bulk but great value, rather than by saving the cost of one, at the risk of suffering serious loss.

A large stock and good assortment of SAFES are constantly for sale by the subscriber, Sole Agent in the city of STEARNS & MARVIN, successors to C. RICH & CO.
