MR. SOULE.

The friends of Mr. PIERRE SOULE gave that gentleman a serenade on Tuesday night, in honor of his return to Louisiana; whereupon Mr. PIERRE SOULE acknowledged the compliment in what the *Delta* styles "a very eloquent and vigorous speech of fifteen minutes"— Again [illegible] serenade and the speech *per se* no [illegible] to utter a single word. Senator [illegible] like all men of pleasing manners and [illegible] parts, has some devoted admirers.— They were perfectly justified in manifesting their attachment to him in the way they deemed most agreeable; and he did what was natural and proper in responding to their demonstrations.

On the burthen of Mr. SOULE's remarks, however, we have something to say. He is a public man, and his speeches are public property.— [illegible] harangue on Tuesday night, so far as the [illegible] in the *Delta* enables us to understand it, was apparently a second edition, with a preface and an appendix, of the famous letter [illegible] published by the *Courier* a few days [illegible] torn into rags by half a dozen broadsides from the editor. We see the same stuff [illegible] about California speculators; the same [illegible] about the incorporation of the Wilmot Proviso in the Constitution of California; the same arithmetical calculations of the amount [illegible] by the South to the maintenance of the war with Mexico, and the same grossly fallacious assertions in respect to the Texas Boundary bill. The staple of the speech was a [illegible] of the letter, and may be dismissed as destitute of a single argument which has not been already examined and disproved [illegible] one journal in this city. Although Mr. SOULE may entertain a very poor idea of the [illegible] of his constituents, when he [illegible] to offer them nothing better than [illegible] rehash of his Congressional speeches, [illegible] of the special pleading of his [illegible] we assure him, in all sincerity, that [illegible] are familiar with every [illegible] the reasons assigned by him to justify his [illegible] and fully cognizant of their insufficiency.

[illegible] preface to the speech was a simple expression of thanks to the friends who serenaded [illegible]. It calls for no comment. The appendix, [illegible] the scorpion, has its venom and [illegible]. Mr. SOULE complained of the calumny [illegible] misrepresent and the press of Louisiana, [illegible] some honorable exceptions. Unless [illegible] more rhetorical flourish, we must pronounce [illegible] sorry exhibition of petulance [illegible] Mr. SOULE would [illegible] solitary instance of "calumny" [illegible] of the press towards him [illegible] the journals of Louisiana declared [illegible] Mr. SOULE to represent the sentiments [illegible] State, and censured him for his violent [illegible] the Compromise. Was this calumny? [illegible] We maintain it was truth, and [illegible] contradiction. There is not a parish [illegible] where a majority cannot be arrayed [illegible] of the peace measures that have passed Congress. Until the passage of those measures there was not a paper in the State [illegible] opposed them, except the *True Delta*, [illegible] was mild and moderate in its [illegible].

Every public meeting, save one, that was [illegible] for any purpose whatever, took occasion [illegible] Compromise—at an assemblage [illegible] Mr. SOULE [illegible] friends in New [illegible] to [illegible] the Compromise [illegible] Mr. SOULE was voted [illegible] of people, private and public [illegible] were [illegible] marshalled in support of [illegible]. These are facts, and if Mr. [illegible] conceded from them that he has been [illegible] and misrepresented, his deductions [illegible] and untenable. Louisiana was [illegible] opposed to the course he chose to pursue, [illegible] press of Louisiana reflected public opinion [illegible] echoed the censure of the multitude.

Mr. SOULE doubts if there were a dozen men [illegible] who knew what the Compromise [illegible] high compliment to the capacity [illegible] intelligence of our people. We trust [illegible] at its full value. Doubtless, [illegible] the veteran politicians; the [illegible] have grown grey in debating and [illegible] subjects of national legislation; the [illegible] who have been doing nothing else all [illegible] set of impenetrable dolts. Their [illegible] and rayless. Not a beam [illegible] that refulgent light that coruscated around [illegible] of the Senator from Louisiana ever [illegible] the Cimmerian gloom and darkness [illegible]. The lovely scintillations from [illegible] dispel it; the concentrated [illegible] from WEBSTER served only [illegible] that darkness visible. The mild splendor [illegible] CLAY, the rich glow that exhaled [illegible] CASS had no power to light up the thick [illegible]. Unfortunate BERRIENS of New Orleans [illegible] one dozen among ye could [illegible] understood the Compromise; and [illegible] that naughty and ill-mannered [illegible] of which the Honorable Senator so feelingly complains, helped to increase your ignorance and to treble and quadruple the veils that [illegible]. For our part, we think Senator SOULE [illegible] did not go far enough. [illegible] there were not a dozen persons in [illegible] understood the compromise, but [illegible] not one, except the Senator. Nay, we cannot pause here. As nobody in Louisiana knew any thing about the Compromise, although the speeches of all the giants of the Senate were circulated throughout the length [illegible] of the State, we are to suppose that [illegible] giants themselves were hopelessly ignorant [illegible] subject. CLAY, WEBSTER, MANGUM, DOWNS, CASS, DICKINSON, hide your diminished heads! Mr. SOULE and those who sided with him alone understand the Compromise!

Mr. SOULE says he had to protect his constituents against themselves. This was benignant and disinterested. His unfortunate constituents [illegible] understand the Compromise. Poor ignoramuses that they were, we hardly know what would have become of them, if the Honorable Senator had not stood forward as their champion and defended them against themselves; and even now, we fear hugely that his constituents fail to comprehend the immense benefit conferred upon them. Such is the [illegible] blindness of ignorance, that they yet think Mr. [illegible] did them real service, and represented them most ably and faithfully, while [illegible] condemn Mr. SOULE for his [illegible] devotion.

The concluding portion of Mr. SOULE's speech [illegible] given by the *Delta*.

He then referred to a calumny, in which it was attempted to show that he proposed cowardly to evade the responsibility which would attach to him in case of a conflict between the North and South. When that time should come, he would like to see who would be before him in obeying the call of the State which had made him all he was, and for which he felt an ardent affection. He believed that the people had been grossly deceived in relation to the question which had agitated the country for the last five months, and he looked forward with confidence to the time when the true sentiment of Louisiana, no longer stifled by Yankee influence, would proclaim itself in a manner worthy of the high character of the State.

There is much room for comment in these remarks, but we shall be extremely brief, as our [illegible] has already exceeded the usual limits. The calumny Mr. SOULE refers to, was the mere republication of a paragraph in one of his Congressional speeches, which was considered at the time so exceptionable, that the *Delta* itself rebuked its author. Here is the sentiment in the words of Mr. SOULE:

Yet, sir, bad as I think this measure, disastrous as will be the consequence, and strenuously as I may struggle against it while it is open to debate, my opposition to it will end here. I may think no less of the wrong it occasions, the injury it inflicts, the oppression it menaces, and the dismemberment that awaits it; but whenever that controversy passes beyond this chamber, and reaches *the point of collision and rupture, a deep sense of all I owe my adopted country will bid me abstain from it, and leave its fate to its native sons, and to that all wise Providence that holds in its hands the destinies of nations.*

How Mr. SOULE explained the passage in italics, the report does not say. He evidently thinks differently now, and we give him ample credit for the change of opinion. It must have meant something when uttered—but let that pass.

The fling at Yankee influence comes with a very ill grace from Mr. SOULE. We will not retort as we might, for we are desirous of avoiding all personal reflections. But we will remind the Senator that Louisiana owes her prosperity to Yankees; that Yankees are native born American citizens; that their ancestors fought to obtain, establish and consolidate the liberty of the country; that they are as brave as high-minded, and as honorable as the people of the South; that they love the Union, comprehend its inestimable value, its influence on Governments elsewhere, its manifold blessings on ourselves. To abuse the Yankees is fashionable among the sectional politicians of the South, but to our mind "'tis a custom more honored in the breach than the observance"—one that is dictated by an ungenerous sentiment, and that is eminently unfriendly to the spirit of our national institutions. But for the Yankee WEBSTER, and the Yankee DICKINSON, and the Yankee CASS, this Union would not now be worth a year's purchase.

The *Picayune* intimates that the article in the N. Y. *Evening Post*, which proclaimed the formal nomination by the New York Democratic State Convention of MARTIN VAN BUREN for President in 1852, was a piece of grave irony. We published the article yesterday, and our readers can decide whether it had the appearance of "irony." The Washington *Union* not ced the article, and did not seem to consider it a joke; nor has any one of the New York papers treated it as a piece of fun. If it were meant for waggery, we shall be happy to learn the fact, and to recall that portion of our comments which stigmatized the Democracy of New York for their fawning humility.

SHOT.—The Baton Rouge *Gazette* says: Mr. John Mills, a resident of this parish, was shot while in his house, some four miles from Baton Rouge, yesterday at about 12 o'clock. He died almost immediately. The perpetrator of this deed is not known. While we write preparations for holding an inquest are being made.

IMPORTANT PATENT DECISION.—By the report of the case of H. H. Day vs. Charles Goodyear, it appears that an important decision has been made by judge Grier of the Circuit Court of the United States for the District of New Jersey, respecting the re-issue or renewal of Patents.

In this case, Charles Goodyear surrendered his Patent of 15th June, 1844, for what is commonly known as metallic or vulcanized Rubber, and procured the re-issue of the Patent on an amended or corrected specification on the 24th of December, 1849.

It was contended that the Patent was void upon its face.

The Court decided that the surrendered Patent was re-issued according to law, and was not void upon its face, and that the re-issue by the Commissioner of Patents is not re-examinable elsewhere, unless a clear case of fraud is made out, which in this case was not attempted. That New Letters Patent are only for a better description than the old ones, and are not for a new invention.

THE UNION WHIGS OF ALBANY.—The New York *Express* has the following interesting despatch from Albany. It will seem that the head quarters and hot-bed of Sewardism rebel against the Syracuse Convention:

ALBANY, Oct. 7th, 1850.

The Union Whig Convention at the Capitol, held in pursuance of a call of a large number of the leading Whigs of this city, was very numerously attended. Andrew Kirk, Esq., presided. Messrs. John C. Spencer, Samuel Stevens, and others, reported resolutions supporting the action of the General Government, the course of Governor Fish, and the seceding delegates, approving the call of the Utica Convention, and concluding with the following resolution:

"*Resolved*, That we have the strongest confidence that the deliberations of such convention will result not only in uniting all true Whigs, but in giving strength to the party, and removing misapprehension as to the course of action, at the ensuing election, it may recommend."

Mr. Duer is now speaking. He will probably be followed by Messrs. Stevens and Graham.

THE COTTON CROP.—The St. Francisville *Chronicle* says:

The picking season in this parish has thus far been marked by a succession of fine weather which has aided much in forwarding the work. Every planter has made the most of it, and the result is at least an average yield therefor. But this yield is not by any means a fair index of the quantity of cotton made. A cloudless sky and a scorching sun perform wonders in maturing the cotton boll, and the consequence will be an unprecedented short picking season. In most of the fields the first of November will tell the tale, and in none will there remain much cotton to pick after that period. Our planters knowing this, are not deceived as to the probable yield. An average crop is not anticipated by any, and he considers himself a lucky man who calculates for two-thirds of the quantity for which he pitched.

We take the following from the same paper:

HARD TO BEAT!—Michael Dickson, Esq., sent us in, on yesterday, a stock of the most prolific cotton we have ever seen. It contains the enormous number of one hundred and eighty four bolls and forms, and is, taken altogether, the finest specimen of the growth of the great staple that we have ever laid our eyes on. Several planters have examined it, and pronounce it a remarkable specimen. On one of the stems we counted six full grown bolls appended within the length of an inch and a half! It was taken from the field of Mr. Dickson, in this parish, about seven miles north of Clinton.

BALTIMORE, Oct. 10—7 P. M.

PENNSYLVANIA ELECTION.—The Whigs thus far have lost two Congressmen and gained one. In the Legislature the Democrats have carried the House, and the Senate is doubtful. The Democrats have elected the Canal Commissioner, Auditor General, Surveyor General, and other important State officers.

OHIO ELECTION.—It is believed the Democrats have elected the Governor. The Whigs have gained in the Legislature, and it is believed they will have a majority on joint ballot.

EDMUND MITCHELL, a well known Whig, and President of the Vigilant Fire Company, was maliciously shot last night, and died to-day.— The murderers have not been arrested.

WASHINGTON, Monday, Oct. 7.

CALIFORNIA APPOINTMENTS.—Hon. John A. Collier has been appointed District Judge at San Francisco, and Hon. Thos. Butler King Collector at the same place. Both gentlemen have accepted.

TREASURYSHIP—MR. CORWIN.—Mr. Sloan, of Ohio, has accepted the appointment as Treasurer, in place of Mr. Selden.

THE CLARKE COUNTY SLAVES.—The Charlestown (Va.) *Spirit of Jefferson* thus notices the return of Mr. Taylor from Harrisburg, Pa., with his two recovered fugitives:

"These slaves passed through our town on Tuesday last, on their way homeward, in charge of the Marshal and other officers from Pennsylvania. Dr. Cyrus McCormick and Thomas McCormick, of Clarke, co-operated with Mr. Taylor in his demand upon the Pennsylvania authorities for that justice which had not only been refused, but resulted in riot, if not bloodshed. These gentlemen, however, all unite in expressing their commendation for the promptitude with which their demand, under the fugitive slave bill, was met by the authorities of Pennsylvania, and the ready assistance tendered them by the citizens of Harrisburg and elsewhere, in securing their property. It was somewhat a novel, though gratifying spectacle, to see two fugitive slaves, homeward bound, under the charge of officers from a free State."

A NEGRO WOMAN WITHOUT EARS.—The Rev. B. H. Benton, in a letter to London (Va.) Chronicle, says—

Strange, but not less true, I yesterday saw a colored woman without ears; not only was she without the auricle or the external part of the ear, but there is no trace of a foramen or passage for sonorous vibration—the meatus is entirely closed, yet she can converse with others, and distinctly hear their words, for which purpose she opens her mouth. Now is the sound transmitted to the brain by means of the tympanum, or does it act on the auditory nerves without the intervention of the drum and appendant organs? This is an interesting question for physiologists. The woman belongs to Mr. Jas. Broaddus, near Caroline Court House.

Arrival of the Steamer America.

FOREIGN MARKETS.

BALTIMORE, Tuesday, Oct. 15, 6.20 P. M.— The steamer America arrived at Halifax at 2 o'clock this afternoon.

She brings news that the Hibernia reached Liverpool on Sunday (the 6th). The Washington arrived at Southampton on the 4th. The Asia was spoken off Holyhead.

The favorable news which reached Liverpool from India on Friday, the 4th, caused cotton to become more animated. That day's sales amounted to 10,000 bales, the market closing firm at the prices current at the sailing of the Europa. The sales of the week amounted to 44,600 bales, of which 30,000 were American. Speculators took 20,000.

Flour had declined 6d in consequence of large arrivals. Wheat declined 6d per bush. Corn was in good demand, yellow being at 28s. Meal was at 14s 6d. Beef was drooping. Of bacon there was a moderate supply; shoulders were in good demand at full prices; hams were unchanged. Lard in good request at full prices. Tallow had advanced 6d. Sugars were very active, some kinds having advanced 6d. Large sales of molasses were made at very full prices. Coffee was in less demand, but was firm at previous rates. Tobacco was active at improving prices. Iron was unchanged. Freights lower; there was a large demand and abundant supply. Consols brought 96 3-4. United States Sixes of 1868 were at 109 1-2.

SECOND DESPATCH.

Further News by the America.

BALTIMORE, Tuesday, Oct. 15.—The political news by the America is unimportant. The subject of ocean steam navigation is producing great excitement. A line of Cunard propellers is to be established between Glasgow and New York. The steamship City of Glasgow, in connection with another, is to be run between Liverpool and Philadelphia.

DENMARK AND THE DUCHIES.—The war in the Duchies has been renewed with vigor, the Holsteiners gaining the advantage, though effecting nothing decisive.

France, England and other countries are quiet.—*Picayune*.

ANOTHER "ODIOUS COMPARISON."—From the extracts we give below, says the New York *Express*, the impartial reader will be able to form a pretty correct idea of the exact difference between the "Whigs," who sat in Convention, lately, at Syracuse, to glorify Mr. Seward only, and the Whig party of the rest of the Union. We have already contrasted the sectional and selfish resolves of that celebrated conclave with the manly and Catholic resolutions enunciated by the Whigs of Massachusetts and New Jersey, in recent State and Congressional Conventions. Compare now, these resolutions which have just been passed by a Whig State Convention, in Michigan, with those promulged by the Higher Law party, and say which is Whig and National, and which is Abolitionist and Sectional.

SYRACUSE.	MICHIGAN.
5. *Resolved*, That our thanks are especially due to the Hon. William H. Seward, for the signal ability and fidelity with which he has sustained in the United States Senate those beloved principles of public policy so long cherished by the Whigs of the Empire State, as expressed in State and County Conventions, as well as in the votes and instructions of our State Legislature. Those principles are eminently National and Republican, because they are just and equitable.	*Resolved*, That in the administration of Millard Fillmore, we already recognise the same determination to avoid all sectionism, all isolated ideas and disturbing principles as well as the earnest of that thorough identification with a comprehensive system of legislation, contemplating the well being of the entire family of States which so eminently characterized our late distinguished President; and that we therefore tender him the cordial and united approbation of the Whig party of Michigan.
6. *Resolved*, That the Whigs of N. York have confidence in the honest purpose and patriotic motives which actuated the Whig Senator and Representatives from this State in the federal Legislature, upon the embarrassing questions which have been agitated during the present Congress.	*Resolved*, That we hail with sincere joy the late action of Congress in the passage of the Utah bill, the California bill, the New Mexico Territorial bill, the bill for the suppression of the slave traffic in the District of Columbia and (under the peculiar circumstances of the case,) the Texas boundary bill, and heartily approve the course of the Administration in the conception, the conduct, and final sanction of measures so well calculated to restore harmony to the republic, secure a renewed confidence in the stability of our free institutions, and extend our commercial and political greatness both at home and abroad.
7. *Resolved*, That the admission of California into the Union as a State, with a free Constitution, meets with our hearty approbation, and as a territorial government is established for New Mexico and Utah, without any prohibitory clause, on the assumption that slavery is excluded by other causes, it is the solemn duty of Congress to extend the Jeffersonian Ordinance over those territories on the first indication that slavery or involuntary servitude is likely to be introduced into them.	

ELOPEMENT.—An elopement as unaccountable as it is reprehensible, is just now disturbing a neighborhood. About three months ago, a young man rather comely and reputed of finished education, reached this city from Baltimore. Having no means of support, and being unable after several day's trial to obtain employment, his uncle, a man somewhat advanced in years, whom he had seen on his arrival for the first time only, gave him some writing to do, and for remuneration allowed him his board, lodgings, &c., in his own family. The young man remained steadily at work, eschewing all irregular, intemperate, or other discreditable habits, and he became finally esteemed by his protector and relatives, as to be frequently quoted for his exemplary conduct. He was particularly attentive to his aunt, a lady much his elder, and not a Sunday passed that when the couple attended divine service, the nephew was not seen at their side with a book modestly carried under one arm, and the other arm dutifully extended to his relative.

Thus matters progressed, the uncle rejoicing in an amiable accession to his family circle, the aunt ceaseless in her approval of dear nephew's character, and general education, and the nephew himself, bearing all encomiums like a stoic, until on an evil day—last Friday we learn—just after the husband's departure, from the breakfast table, a large trunk reached the house which was ordered to the aunt's bed room. A general over-hauling of clothing succeeded, and the trunk rendered heavier with its contents, was returned to the vehicle that had brought it. Two children were then called in to the hall—a little boy and girl—and having been admonished in a feeling manner to be have well until their father returned, the nephew with his admiring aunt crossed the threshold, since which time they have not been seen, nor directly heard from. No cause of dissatisfaction was alleged by the wife, no suspicion had before been entertained, and not the least word of explanation was left behind. A lady and gentleman crossed the river, early that day, in a buggy; they were suspected as the pair, and pursuit was made but to no purpose.—*St. Louis Intelligencer, Sept. 28.*

☞ The following is a list of the killed, wounded and saved by the late disastrous explosion on board the steamer *Kate Fleming*:

Capt. Dunham, Capt. Quarrier and Mr. Lourie, with several others, were standing on the hurricane roof at the time of the explosion, and were blown up several feet in the air. Captains Dunham and Quarrier fell on the bow of the wreck. Mr. Lourie and others jumped in the river, and saved themselves by swimming.

The safe, containing a large amount of money belonging to the boat and deposited by passengers, was blown into the river, and it is thought will be recovered. But little of the baggage and clothing of the passengers was saved. Few had the presence of mind to throw their trunks overboard.

REPORTS OF COMMITTEES.

The Council having met again, Mr. Laughlin, Chairman of the Finance Committee, submitted the following report and resolutions which, on motion, were adopted, the rules being dispensed with:

COUNCIL CHAMBER, MUNICIPALITY No. ONE, 14th October, 1850.

The Finance Committee respectfully beg leave to report on the following claims and communications, referred:

To the claims of Messrs. Walsh & Moss, for repairs done to the Parish Prison, the Committee report adverse, because this Municipality has already paid its full proportion, and the amount claimed is fully due by Municipality No. Two, to which the claimants are referred, and the Committee feel satisfied that the Second Municipality will not hesitate to make prompt payment.

The Committee having carefully examined the account of the Board of Health, find a balance due said Board by this Municipality of $550 50. The quota, according to the assessment roll being $1380 50, and the amount paid to Health Wardens, including a reduction of $410, on account of having dispensed with the services of the Wardens sooner than anticipated, the Committee report in favor of the claims.

The Committee have examined the account of J. L. Lewis, Sheriff, rendered to the 1st instant, amounting to $632, and find the same correct, less $136, claimed for jail fees, which your Committee are informed have not hitherto been allowed, and hence recommend the payment of $496, in full satisfaction of said amount, with the adoption of the accompanying resolution:

Resolved, That the Treasurer do pay on the warrant of the Mayor, the following parties:

To the Board of Health,	$550 50
J. L. Lewis, Sheriff,	496 00
B. & A. Soule, for taxes paid by them on property which they did not own,	20 00
Coroner Spedden, for inquests during the month of September,	180 00
Dr. Landreaux, for inquests,	20 00
L. P. Cha on, for same,	2 00
H. R. Swasey, bookbinding,	50 00

All of which, with the vouchers is submitted by
(Signed) WM. LAUGHLIN, Chairman,
R. M. McALPIN.

With leave, Mr. Bonneval offered the following resolution, which on motion, was referred to Fire Committee:

Whereas, each time an election takes place it is held in the Neptune Fire Company No. 4 engine house, and whereas, said house has been damaged by this cause. Be it

Resolved, That the Surveyor be and he is hereby authorized to have the house of Neptune Fire Company No. 4 repaired, provided that the cost does not exceed $950.

Mr. Fabre, as Chairman of the Police Committee, submitted the following resolution, which on motion was adopted, the rules being dispensed with:

Resolved, That the Treasurer of this Municipality be authorized to pay to Wm. Armstrong forty-eight dollars, amount of his bill for 2 dozen police handcuffs.

With leave Mr. Silk offered the following resolution, which, on motion, was referred to the Police Committee:

Resolved, That the situation now held by P. Leonard, as day policeman on Marais street post be and the same is hereby declared vacant.

Mr. Fabre, as Chairman of a special committee, submitted the following report and resolutions:

The Special Committee on the Improvements to be made on the Place d'Armes, beg leave to offer the following report:

That they have taken into consideration the subject of the proposed improvements to the Public Square or Place d'Armes, with a view of rendering it a place of agreeable resort to the families of the citizens, and of embellishing it, that it may be in keeping with the beautiful buildings that now surround it. For this purpose it will be necessary, in the first place, to provide for a suitable public square for the reviews of the Legion, the firing of the salutes and of the evening guns.

The Committee, therefore, propose that the Public Square known as Circus or Congo Square, be appropriated to the use of the Legion for its reviews, and that public salutes and the evening gun be also fired on the same Square, which is much nearer the centre of the Municipality, and better suited for this service. It will be necessary to have this Square enclosed, and the iron rail now on the Place d'Armes could be used for that object, and a new one provided for the Place d'Armes.

Your Committee have been somewhat at a loss in determining the nature and extent of the improvements to be made on the Square itself. It is at present rather an eyesore than an ornament to the neighborhood; its surface is covered with a rude grass, known as "smut grass," a dirty and unsightly plant. The trees, unfortunately, are almost entirely sycamores, which are amongst the earliest to lose their leaves in the fall. These trees afford some shade for a short season of the year, but the place, in its present situation, is rather a resort for loafers and vagabonds, who are seen lying drunk under the trees, than a place of agreeable resort for families and for the amusement and exercise of the children.

The Committee have therefore determined to recommend the improvement exhibited on the accompanying plan, which would greatly beautify the Square, and change its present desolate aspect into that of a garden smiling with verdure during the entire year.

This plan contemplates the replacing of the deciduous trees by evergreens of rapid growth, forming clumps and boquets which give almost immediate shade and preserve their verdure the entire year, instead of a few Spring months and which, being chosen from among the numerous flowers bearing evergreens of Louisiana, would combine the beauties of a garden and shrubbery, with the advantage of affording a constant protection from the sun. The ground so disposed on the plan, instead of presenting the straight white paths which form a cross on the Place d'Armes, is arranged so as to afford easy passage by all the gates in any direction, and yet avoid the uniformity of straight lines so little agreeable to the eyes of taste.

In conclusion, your Committee is persuaded that a simple inspection of the plan of the proposed improvement, will satisfy those who are the most against it.

As regards the legal right of the Municipality to have the improvements made, your Committee will refer the Council to the able opinion of our first Attorney, herewith annexed as part of this report.

Your Committee will therefore offer the following resolutions:

Be it Resolved, That hereafter the Public Square known as Circus or Congo Square, be appropriated to the use of the Legion for its reviews, and that the public salutes and the evening gun will also be fired on said Square.

Be it Resolved, That the Surveyor be authorised to have Congo or Circus Square surrounded with the iron railing now on the Place d'Armes.

Be it Resolved, That the Mayor be and he is here by authorized to sell, at auction, the contract to place an iron railing on the Place d'Armes, according to plans and specifications in the Surveyor's office.

Be it Resolved, That the Surveyor be authorized to have the Place d'Armes improved according to the plan mentioned in this report.

(Signed) J. L. FABRE, Chairman.
JH. LANATA.
A. DERBES.
J. A. BONNEVAL.
GEORGE CLARK.

Letter of the Attorney annexed to the report.

To the honorable J. L. Fabre, chairman of the Special Committee, to whom was referred the letter of Madame de Pontalba, relating to the improvement of the Place d'Armes.

SIR—In compliance with your request, I now give you my opinion on the subject referred to the committee of which you are the chairman.

Under the French Government in Louisiana, the square of ground situated between Levee, Chartres, St. Peter and St. Ann streets, and to which the church is facing, was first known by the title and style of "Public Square," without any other denomination. It is so marked on the plan drawn by Mr. De Lassuz in 1796; and at that period of the history of Louisiana, it would be difficult to find any public act of the Metropolitan Government, by virtue of which an exclusive use of said public square was given to the military force.

I am inclined to believe that the name of Place d'Armes was given to that square under the Spanish dominion, the government at that time having allowed the use of it for military exercises.

It was no doubt at that time within the province of that government so to do, because New Orleans was then a place of war, and agreeably to the Spanish laws, the management of its esplanades, public squares, and even streets, were subjected to the rules which govern the same in all places of war.

In 1804, Louisiana was ceded to the United States by the French Government. A territorial government was established for the government of its people. The Legislature of the Territory granted afterwards a charter to the city of New Orleans, and transferred to them, with the authorization of the Federal Government, all the titles, property, &c., of the *Cabolde*; and subsequently, after, Louisiana had been admitted into the Union in 1817 or 1818, a compromise took place between the United States and the Corporation of New Orleans, by virtue of which the ground on which the ramparts and forts of the city were situated, were abandoned by the Federal Government to the City. New Orleans then ceased to be a place of war: and such being the case now, it seems to me that in default of a positive title, the military force cannot claim the right especially to enjoy and use "the Place d'Armes" the cause for which a temporary use of said square was granted to said force, has ceased to exist; when New Orleans ceased to be a place of war.

In examining the question propounded, I have for argument sake, taken as granted, that the military laws of Spain were yet in force in Louisiana, and by so doing forgotten as it were, that now Louisiana is one of the Stars of the American Confederation, that it is a sovereign State that its people live under the protection of the Federal compact, and of the State Constitution, and that the pretention of a military power to have in time of peace an exclusive use of any Public Square in a city like New Orleans, and to prevent any improvement thereon amount to a denial of the Federal compact, and of our State Constitution. I think it therefore unnecessary to enquire minutely into such a pretension, and I am of opinion that the Municipal authority have full power to make on said Public Square, and on any other of the Municipality No. One, any improvement they think proper for the interests of its inhabitants.

I remain, sir, respectfully,
Your obedient servant,
(Signed) ROBERT PREAUX,
Attorney Municipality No. One.

On motion, said report and resolutions were made the order of the day for the next regular sitting.

Mr. Laughlin, chairman of the special committee to whom were referred the assessment rolls of the Fourth Representative District, reported verbally, that the Recorder was the proper person to examine said rolls, and to have the errors corrected, and prayed to be discharged from any further consideration of the matter.

On motion, said report was accepted.

With leave, Mr. Clark offered the following preambles and resolutions, which on motion, were adopted, the rules being dispensed with:

WHEREAS the Mayor, in a message to the General Council, dated the 10th inst., has alluded in strong and eloquent terms to the urgent necessity of some action by the General and Municipal Councils in regard to certain Railroads or communications to connect with New Orleans and other points, where by the commerce and prosperity of the city would be greatly benefitted; and

WHEREAS, the period has arrived when it becomes incumbent on the people of the city of New Orleans, through their representatives to do all in their power to secure to themselves the Trade and Commerce that is now nearly taken from them by means of the Iron Roads and Canals from the Atlantic ports to the South and West; and

WHEREAS on a subject of such a vital importance to the prosperity and welfare of the citizens of New Orleans and the State at large, it is needful and proper that the several Municipal Councils should act in concert, be it therefore

Resolved, That the Council of Municipality No. One heartily concur in the suggestions of the Mayor.

Resolved, That a Committee of five be appointed to confer with similar Committees from the Second and Third Municipal Councils, in regard to the expediency of the city subscribing stock in any contemplated improvements beneficial to the interests of the city, and also to confer and report on the propriety of memorializing the Governor of the State, to convene the General Assembly, in order that an act may be passed, authorizing the several Councils to subscribe for stock in such corporations, and in such amounts as may be deemed proper by a vote of the people.

Resolved, That the Mayor transmit a copy of the foregoing Preamble and resolutions to the Second and Third Municipal Councils, with a request for early action on the subject.

The Chair appointed on the Committee Messrs. Clark, Fabre, Derbes, McAlpin and Laughlin.

With leave, Mr. Laughlin offered the following resolution, which, on motion, was adopted, the rules being dispensed with:

Resolved, That all lumber, sand, lime, curb gutter and paving stones, and other materials now deposited on the public streets of this Municipality, shall be removed by their owners, within ten days from the passage of this resolution, otherwise they shall be removed at the expense of the owner to the vacant lots of this Municipality.

With leave, Mr. Clark offered the following resolution, which, on motion, was referred to the Improvement Committee:

Resolved, That the Mayor be and he is hereby directed to advertise during ten days, that the contract for the work of the various offices of the Municipality, and the improvement of the square, be given out at auction to the lowest bidder, the contract for supplying with fuel, the various offices of the Municipality, and for the consequence with the commencing from the 1st of [illegible] next, the contractor to furnish security to the satisfaction of the Finance Committee, in the sum of one thousand dollars, for the faithful performance of the contract. Terms of payment cash, monthly, on the certificate of the Surveyor.

On motion, the Council adjourned till Monday, 2d November, 1850.

JOSEPH REYNES, Secretary.

The accused was committed for trial before the First District Court, on a charge of assault and battery only.

After the examination, Wareham was arraigned on the charge of carrying a concealed weapon, for which offence, the Recorder fined him $10.

A young German lady, employed as a music teacher in Carrollton, was accidently shot on Monday last, at Mr. Diamond's house by a lad of the family.
