**Boyer's Institution, No. 146 Canal Street, between Dauphine and Burgundy.**

MR. O. BOYER, founder of this establishment, the oldest in New Orleans, avails himself of this opportunity to make a new appeal to the confidence of the public. This institution is conducted in a large mansion, occupying a free central position, being well ventilated, and in other respects perfectly salubrious. The course of studies which engage the attention of the pupils, extends over all the branches of learning, which are necessary to a useful, polite and finished education, from the primary instruction, to the more abstruse subjects which are especially the province of a collegiate course. The elementary studies are attended to with more than ordinary care, considering the decisive influence which they exercise over the whole course of instruction. Discipline, which must not be separated from academic study, nor from a good education, is conducted with solicitude. It is calculated according to the age and character of the students, and intended to give them an accurate idea of duty and good behavior.

**YOUNG LADIES' ACADEMY.**

MADAME PARENT has removed her institution to Customhouse st., between Royal and Bourbon, No. 88, the house heretofore occupied by M'lles. Grasset, and is ready to receive boarders, half boarders, and day scholars. There is a very large yard, together with a garden for the young ladies to amuse themselves. The apartments are vast and well aired. There is every advantage and inducement offered to parents, as to the moral and intellectual cultivation of the minds of their daughters. The best Professors are employed. Every branch of a solid and refined education is taught, in both languages; also, accomplishments such as drawing, Painting, Embroidery, &c.

MADAME PARENT would inform the public that she has made permanent engagements with Professors for Rouquette and Auchmuty, late (principals of the Franklin High School.) It would be superfluous to add anything respecting the very distinguished talents of those gentlemen, as they are already so long known to the community at large. The former has charge of the French language and French literature; the latter, the supervision of the higher English classes and natural sciences.

The Musical department is under the direction of three of the most competent and acknowledged talents in the city.

Professor Allston has the special charge of the Mathematical branches.

Mr. Ocalbel has been engaged as a Teacher of Vocal Music.

For terms apply at the institution. Parents are permitted to visit the institution on Sundays.

Once a week, (Saturday,) between 12 and 1 o'clock, the young ladies assemble in the parlor, in order to acquire those polite and graceful manners so necessary to young persons when they enter society.

**DUCOMGE'S PECTORAL BALSAMIC SYRUP.**

[illegible]

F. P. DUCONGE, No. 204 Chartres street, N. O. mr17

**Dr. Ed. Martin's Vermifuge Syrup, Without any disagreeable Taste or Smell.**

THE MELIA AZEDARACH, (Follis Bipinnati, Linnaeus' Class X Decand.: Monogyn—Jussieu, Class XIII, order II, Meliaceae—Tournefort, Class XXI, Arbres rosaces,) one of the most beautiful ornaments of our forests, the root of which for some time past has been, by a few persons, justly reputed the best vermifuge known supplied us with the principal agent in the above named remedy.

Having sought with the greatest care in the bark of the root of this tree, the active principle which produces such excellent results in vermifuge, [illegible] we have succeeded in separating it in its purest state and by combining it with other simple plants which are equally indigenous to Louisiana, have arrived at composing the above VERMIFUGE SYRUP, the efficacy of which is now beyond the shadow of a doubt.

This Syrup, of an agreeable flavor, can be administered without the slightest apprehension to the most delicate children. Its use continued during three days, the doses being given at shorter intervals as the child may be older and stronger, will infallibly expel all the intestinal worms which are the source of so many diseases, dangerous and often fatal to children.

Some weeks since, I remarked the frightful results of the various vermifuge hitherto employed, have given it to their children, but in doses extremely small; this has, in such cases, rendered the effect incomplete, and might have proved injurious, the remedy proving, and several of our most experienced practitioners, by judiciously prescribing it and regulating the doses adapted to the different ages tested and established its excellent virtue.

To avoid debilitating the little patients by too severe a diet, we have modified the doses originally prescribed, to the following manner:

Children 2 to 5 years old, three tea spoonfuls a day, at an interval of from 1 to 2 hours. Above five years old, three table spoonfuls at the same intervals. No nourishment to be given between the first and third doses, nor within an hour after the third.

The Syrup must be administered during three consecutive days. Composed entirely of vegetable extracts, this Vermifuge does not produce any of the pernicious effects which have often followed the use of the mercurial preparations.

**DR. EDOUARD MARTIN'S**
**HYGIENIC ELIXIR,**
**Against Sea-Sickness.**

FOR a long time past the scientific world, medical men especially, appear to have been struck with the remarkable fact, that among the innumerable collection of curative agents discovered, no one has been found to counteract or even mitigate the dreadful effects of sea-sickness. Several remedies have been tried to attain this end. These remedies, whether simple or compound after many trials, have hitherto proved signal failures. An idea may be formed thereof by the perusal of the annals of Pharmacy, Chemistry and Medicine of all countries, published within the last ten years.

The inventor of this "Hygienic Elixir," has at length made this invaluable discovery. After numerous trials, changes and alterations in the proportions of the substances composing this Elixir, he is enabled to offer it to travellers in the shape of a palatable draught, not decomposed or altered either by climate or age.

The Elixir checks sea-sickness immediately, and restores the stomach to its healthy state. However delicate be the constitution of the person using it, it is equally infallible, and procures a genial feeling of ease and comfort. The nausea ceases as if by magic, calm and sleep are restored the appetite awakened and the digestion effected promptly under the influence of this tonic.

The inventor having had an opportunity during a recent sea voyage, to make personally a fund trial of his Elixir, has made up his mind to offer it to the public. He could corroborate the above statements by testimonials from several sea captains, but will appeal only to the opinion of one of the most intelligent and distinguished commanders of the French Commercial Navy. Captain Labory, having had opportunities of testing, under his own immediate supervision the efficacy of this remedy, (then in the shape of pills) during several voyages, gives thus the result:

DEAR DOCTOR,—During my last voyage to France I have had opportunities of testing, on divers persons, your remedy against sea sickness; I am happy to be enabled to report to you that I have obtained the best results, and if it were possible to alter this remedy into a palatable draught, such as a lemonade of some kind, which could be more easily taken than in its present shape, especially when the sea sickness has already commenced, nothing more would be required, and you would be entitled to the everlasting gratitude of all those who are obliged to travel by sea, without being so tormented thereto.

I am yours truly,
Signed, A. LABORY, Com't. Ship l'Oscar.

The improvement suggested by Capt. Labory, has been effected. The Tonic and Hygienic Elixir against sea sickness, is now put up in small bottles with glass stoppers. Care must be taken to keep the bottles corked, to prevent evaporation.
