Holloway's Pills, an invaluable Remedy for Dropsy.— ... Huntley, of ..., aged ..., had suffered from that severe disease, upon a bed of sickness, her feet and legs began to swell, strongly indicating dropsy at this period of life. The building occupied by Mr. and Mrs. Arpin is located in one of the most elegant and respectable portions of the city of New York. Its immediate neighborhood to Union Park places it in direct communication with the principal lines of railroads and omnibuses passing through the city. The excellent division of apartments for the various lectures, which are given simultaneously, enables moreover Mrs. Arpin to receive a limited number of young ladies desirous of coming to New York for the purpose of completing their education, or extending it by attending in that city, under maternal care and with all the advantages of a life at home.

Young ladies thus received by Mrs. Arpin will enjoy the privilege of following the lectures they choose and the right to send, for lessons, for the professors they prefer, even when those professors are not connected with the Institute.

They would not therefore be considered as mere boarders, but as members of the family, and would enjoy all the liberty and comforts they would partake of at home.

For particulars, apply to Mr. or Mrs. BOYER, Conti street, between Royal and Burgundy.

DAY AND BOARDING SCHOOL.

UNDER THE DIRECTION OF MADAME PARENT,

Corner of Esplanade and Dr. Moriette streets.

THIS institution occupies one of the best locations in the city with respect to health and many other important advantages. The building is magnificent, the apartments are vast and well ventilated, and are particularly well adapted for the purpose.

There are four fine dormitories with dressing cabinets; also galleries all through the house; a splendid terrace commanding a most beautiful view of the city as far as the Lake.

The best advantages are offered to parents, as to the moral and intellectual cultivation of the minds of their daughters.

Madame Parent is always present with her pupils; she teaches during the hours of class, and superintends the literary direction. She has an ample number of the best professors employed, besides ladies residing in the institution.

Every branch of a solid and refined education is taught by these professors; all accomplishments, such as Drawing, Painting, Music, and Embroidery, &c.

The Musical department (including vocal and instrumental) is conducted by four of the most competent and eminent professors of the State.

It would be superfluous to say anything respecting the special attention that is paid to the English, it being Madame Parent's native language. The best guarantee that she can give to the public is that the French young ladies who have been educated by her speak it as fluently as their mother tongue.

For terms, apply at the Institution, where prospectuses can be obtained.

YOUNG LADIES residing at a distance in the different Districts, will be conveyed gratis to and from the Institution.

St. Louis Institute.

223 Dauphin street, between Ursulines and Hospital.

MRS. DERON most respectfully informs her friends and the public that she has resumed the ... dence reposed by parents in her institute, which ... by its course ... and hereby renews the assurance of her devotion to the welfare of their children. Mrs. Deron has been enabled, by her residence in Paris, to study the new systems in the education of young ladies; she has visited the most renowned Academies, and intends to adopt for her establishment a plan based upon what she has seen.

Mrs. DERON wishes that modest and elegant manners be imparted to her pupils whilst receiving a solid instruction based upon morality and religion; in a word, a complete education, which will enable them one day to guide their own children. She hopes that her motives will be appreciated by intelligent mothers, who prefer profound studies to a brilliant success in a public exhibition. The award of premiums in the St. Louis Institute, following a serious examination, will then always be a family fete, but none but parents feeling an interest in the progress of the pupils will be admitted.

Music, as well as general instruction, (which will not interfere with the latter,) will be carefully and constantly attended to. Mrs. Deron has engaged in France, for her establishment, the services of an Italian lady, who is an excellent professor and most talented singer. The course of solfeggio and singing cannot fail to be admirably conducted by Mrs. TACCANNI TASCA, whose splendid voice will always be assisted by her excellent method. Pupils in the city can be taught by Mrs. Tasca at the Institute.

NOTICE.

Mrs DERON having often been applied to for private lessons by young ladies who could not follow the regular classes, a French class, on the plan of Messrs. Remy and Levi, in Paris, will be opened on the 1st of January next, three times a week, in the establishment, and be divided into a primary and superior course. The pupils of the establishment will, of course, be the first admitted to the same, and will doubtless contribute to the progress of the newcomers by exciting a general emulation.

Mothers may attend the course, should they choose to do so.

Schardt's Institution.

The plan of studies comprises the Latin, English, French, Greek, Spanish and German languages, and all the branches of a thorough American education, viz: Mathematics, Rhetoric, History, Geography, Book-keeping, Penmanship, etc.

Mr SCHARDT himself takes charge of the drawing classes without any extra charge to the pupils. In the same way, singing lessons are given twice a week without extra charge.

G. BOYER'S INSTITUTION,

No. 126 Conti street, between Dauphin and Burgundy streets.

MR. G. BOYER, founder of this establishment, the oldest in New Orleans, avails himself of this opportunity to make a new appeal to the confidence of families. This institution is conducted in a large mansion, occupying a fine central position, being well ventilated, and in other respects perfectly salubrious. The range of studies which engage the attention of the pupils, extends over all the branches of learning which are necessary to a useful, polite and finished education; from primary instruction to the more abstruse subjects, which are especially the province of a collegiate course. The elementary studies are attended to with more than ordinary care, considering the decisive influence which they exercise over the other branches of instruction. Discipline, which must not be separated from education study, and from a moral point of view, is conducted with solicitude. It is administered according to the age and character of the students, and intended to give them an accurate idea of duty and good behavior.

THE undersigned informs the billiard property holders and the public that he has added to his Manufactory of Billiard Tables a new planing, dove-tailing, mortising and sabring Machine, by which he is enabled to undertake work of all kinds, such as laying of floors, carpenter's work, posts, turning of all descriptions, columns, posts, building frame houses for the city or country, and all works in a carpenter's and framer's line.

Having constantly on hand a large assortment of Walnut, Mahogany, &c., he will sell to those in need of the same the qualities suitable to the works ordered.

The undersigned avails himself of this opportunity to assure those persons who may feel some apprehension as to his steam machine, that he has taken proper measures to prevent explosion. A new patent French regulator is attached, by means of which any one can see at once the quantity of water in the boiler; and should he forget to look, a whistle connected with the machine warns him that water is wanting in the boiler.

The above addition having been made to his establishment for the purpose of facilitating the manufacture of Billiard Tables, the undersigned reminds his customers that he keeps, as heretofore, new and second-hand Billiard Tables, and every article in his line.
