GOOD MEDICINES.
STARKEY'S
ANODYNE CHERRY EXPECTORANT
FOR COUGHS, COLDS, BRONCHITIS, CONSUMPTION.

STARKEY'S
MARRONE COMPOUND

THE valuable medicines above advertised are not empirical, but are prepared in accordance with the principles of one of the most learned and professional practitioners of the age, and secret, because it is necessary to protect the proprietors and those who can have the most beneficial influence on the community, from the imposts that have been made known, consequently, which have been in no instance, to pay.

500 PHYSICIANS!!!

In Maryland, Virginia, District of Columbia, Ohio, and Pennsylvania, there is not a county in which some of the most eminent physicians have recommended the Cherry Expectorant, and the Marrone Compound, and have given the certificates for which they are the best remedies that they have ever discovered. Great confidence in the excellence of these medicines, and their desire to avoid the imposition of the medical profession against secret and secret preparations, induced us to publish the certificates. We expected a few of the medicines we have received, but not such a number.

From Dr. William H. Furman, of Snow Hill, Md.

Gentlemen—I have frequently in my practice prescribed Dr. Starkey's Anodyne Cherry Expectorant, and Dr. Starkey's Marrone Compound, in preference to any other medicines, and have found satisfaction in my practice to cure. I consider them highly meritorious, they relieve at once, and are the most powerful and safe therapeutical agents, and tend to do infinite good to the afflicted and suffering. In furnishing the medical profession with these valuable and delicious preparations, Dr. Starkey has conferred a great benefit on the medical profession, and of a standard quality, you have a right to be considerable serious, and I hope the time speedily approaches, when the prejudices of Philadelphia, Baltimore, and Washington, against the use of secret medicines, will be in the dim distance of the Dark Ages.

Dr. W. H. Lewis writes: "I have had the best opportunity for the improvement to his wife, who laboured the Bronchial, Throat, and Lungs, and that she is free from coughing from her long-suffering malady. It has a decided effect on her cough and has done all the remedies she has heretofore used made improvement, dical emotion.

From Dr. J. Ridgway Anders, of Kingston, Talbot Co., Md.

"Having examined the component parts of Starkey's Anodyne Cherry Expectorant, and Dr. Starkey's Marrone Compound, I do not hesitate to say, I believe they are the best remedies in practice, I feel my business in recommending them."

From J. K. Marsh, M. D., Kent Co., Md.

"I have made free use of your Anodyne Cordial in my family. It gives much satisfaction and is invaluable to others, in favor of its efficacy."

From Samuel Martinant, M. D., Chesapeake City, Md.

"Have much pleasure in adding my testimony to favor of your valuable Cherry Expectorant. I have, after an extensive use, found it to answer all my expectations."

From Dr. Daniel W. Jones, Somerset Co., Md.

"I have given your Cordial a fair trial, and am delighted with its effects; never having had them to fail in a single instance. I shall take pleasure in recommending it."

We have been favored with a written certificate, cheerfully given by numerous Medical gentlemen in Maryland, Virginia and Ohio, which alone should convince the most doubting, that there are some "Good Medicines." Pamphlets containing these certificates, and other certificates, may be obtained of the agents.

Prepared only by the Proprietor, JOHN W. STARKEY, No. 146 Baltimore st., Baltimore, Md.
