DEHAUT

The Vegetable Substances contained in this Purgative have been analyzed and purified according to the new method of M. DEHAUT, in order to be tolerated and assimilated by the most delicate stomachs. Purgatives are, in most instances, but a palliative, which, instead of curing, aggravates the disease they are intended to remove. The use of all other purgatives, even the most tolerable, should be carefully avoided by those who have recourse to this, which, by its superior advantages, which 30 years practice have proved, have rendered DEHAUT'S PILLS the most popular in France. They are invaluable against Constipation and its accompanies. As a mere Purgative, they are superior to all others, because at the same time they combine aromatics without the disagreeable odor of the drinks and diet. But the greatest benefit is felt in the cure of a great many Chronic Diseases, such as Dyspepsia, Sick Headache, Hypochondria, Hysteria, Vertigo, Hemorrhoids, Gravel, which the sick man takes at the same time as will assist the action of the purgative.
