It is the new and natural article, but one that has stood the test of time, and has been tried before the American people, and its reputation and sales spread by many unsolicited testimonials, which are spread throughout the entire extent. The testimony is to the fact, given by the most prominent men and well known Physicians and individuals in all parts of the country, is unsolicited, and is a most portion of the Almanac, published annually by the proprietor, and to be had gratis of any of the agents, cannot but satisfy the most skeptical of the efficacy, certainly of really deserving the great celebrity it has obtained.

DR. GAYLORD QUAIL, says:

"I have for the last year used the German Bitters, prepared by you, in my practice extensively. It will shortly be the only one of the kind that can be readily and here, and I believe that in less than one year there will be none sold in this vicinity than in any other part of the country."

"Your German Bitters have, in my practice, very popular here, and I think a ready supply immediately."

A. E. ADAMS & CO. say:

"Your Bitters give universal satisfaction to all who have used them."

You should bear in mind that these Bitters are a vegetable medicine, thereby possessing advantages over most of the popular nostrums resorted to for similar diseases.

AYER'S CHERRY PECTORAL,
FOR THE RAPID CURE OF
Coughs, Colds, Hoarseness, Bronchitis, Whooping Cough, Croup, Asthma and Consumption.

THIS remedy has won for itself such notoriety for the cure of every variety of Pulmonary disease, that it is entirely unnecessary to consult the evidence of its virtues in any community where it has been employed. Its composition is such that it controls colds, and on numerous instances the cases of its cures, that have baffled every other remedy, are published in our pamphlet. Its use, wherever it has been introduced, has rendered the most dangerous of the lung diseases of little fear, and has imparted to every other complaint of the class the mildness of a common cold. Its power over the disease of the throat and lungs, is shown by the distressing and dangerous attendants of the pulmonary organs, which are induced by our climate. And not only in the later stages upon the lungs, but for the milder affections, such as Coughs, Hoarseness, &c., it is equally efficacious, as the testimony published from time to time will show.

As the best evidence of its virtues, we throughout this section we insert but a more than assure the people that it is kept up to the full standard of its excellence, and that it will do its work.

PILES! PILES!! PILES!!!

WE, the undersigned, who have resided with certain persons, have witnessed with the following sworn certificate, to the cure of the most aggravated cases of Piles, the latter of which was given by Governor Pennington, of Philadelphia.

New York, Aug. 26th, 1846.

To Dr. Jackson—Sir: I have been cured by your Pile Ointment, and I have recommended it to many of my friends, who have also been cured by it. But all to no purpose. I have tried almost every other remedy, and for the last two years I have suffered very much from the Piles. I commenced using your remedy, and in two days I was cured.
