ANTI-GOUTY ELIXIR

OF

HIPPOLYTE BRIEUGNE,

INVENTOR OF THE ANTI-RHEUMATISMA

Tropical Balm.

TILL now all medical science has had no power to cure the terrible disease which has ever made so many victims all over the earth, and still tears daily so many thousands from their occupations to give them up to the most painful suffering. It is useless to recall to our minds the symptoms of the disease you well know to its numerous sufferers. It suffices to name them to appreciate the value of such a remedy against their return. Such the effect of the Anti-Gouty Elixir, which is the result of the laborious searches of M. Hippolyte Brieugne, already known by the discovery of the anti-rheumatism balm, which has been but down to this day as great a success. The Anti-Gouty Elixir, particularly adapted for curing the gout, which possesses a power no less great, warranted by a long and personal experience of the inventor, and by repeated essays upon its numerous victims.

The ANTI GOUTY ELIXIR is easy to take, and its taste is as pure as it is agreeable. It can be taken pure or mixed with two or three spoonfuls of tea or coffee the effects are the same. A few days after, whatever may be the intensiveness of the fit. In twelve hours at most the sufferings disappear, and all its symptoms vanish away.

For sale at the general depot, in New Orleans, at
