New Orleans, Jackson and Great Northern Railroad.

DURING the continuance of the Sonest Tarre Crevasse, passengers will be transported between New Orleans and Port Jackson (Thirty seven miles from New Orleans) by the trains of the Carrollton Railroad to the Lake, thence by safe and commodious steamboats to Madisonville, where connection is made to Jackson. Passengers will leave New Orleans from the Carrollton Railroad Depot (Tivoli Circle) at 6 o'clock in the morning, and at 30 minutes past six in the afternoon, and returning will leave Jackson at 7 o'clock in the morn, at Tivoli Circle, at 8 o'clock in the morning and one more hour in the evening.

The trains for Kenner will leave the depot at the foot of Gallipoe street at 8 a. m. and 4 p. m. Returning, will leave Kenner at 8:45 a. m. and 4:45 p. m. Freight for the station will be received at the freight depot from 8 a. m. until 5:30 p. m. Pass. 40c. each way.

Freight for Manchac and stations above will be received at the warehouse on the south bank of the New Canal, between Liberty and Howard streets, until 5 o'clock, P. M.

No freight will be received unless consigned to parties residing at the established stations on the line of road or its connections.

It will be seen by the foregoing that passengers and freight will be transported without interruption, and that connections with other roads will be made regularly at Shortcutes.

Fare from New Orleans to	1st Class	2d Class	Fare from New Orleans to	1st Class	2d Class

MEDICAL.

AYRES'
AGUE CURE,
FOR THE SPEEDY CURE OF
Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fever, for the speedy cure of diseases originating in the malarious miasmatic emanations from the marshy and miasmatic complaints.

It was reasonably to be looked called for by the numerous of our American people from a more and safer cure for Fever and Ague. Many we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with unanimity, founded on proof that it will prevent the return of the disease, and that it will prevent the return of our country. Many of our citizens have spent a fortune in the attempt to find a remedy for the disease, which is prevalent. Protection is better than cure, and the protection afforded by this is better than cure, in almost cases of the baleful disease. The "Chills" expels the miasmatic poison of Fever, the Ague from the system, and prevents the destructive effects of the disease, if taken on the first approach of its precursory symptoms. It is not only the best remedy ever discovered for the cure of Ague and Fever, but it is the safest and most certain. The large quantity we supply for a dollar brings it within the reach of every family, and in billious districts, where Fever and Ague prevails, every family should have it at hand to be ready both for cure and protection. It is equal to the poor will find it, and the rich will find it as well as the rich. A great superiority of this remedy over any other ever discovered for the cure of Ague and Fever, and of Intermittents in, that it contains no quinine or mineral, consequently it produces no quinine or other injurious effects whatever on the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the malarious miasma. A great variety of diseases arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Deafness, Dysentery, Diarrhea, Colic, Palpitation of the Spleen, Hysterical Pain in the Bowels, Cold, Paralysis and Derangement of the Stomach, Liver and Bowels, Costiveness, Piles, Pain in the intermittent type, or become periodical. The "Chills" expels the poison from the blood, and consequently cures them all either. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the influence, they will be secured from the system, and consequently remain well and free from sickness. Such remarkable is the power of the protection that it is even more valuable for protection than cure, and few will ever suffer from intermittent fever and ague, if they have the protection that remedy affords.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so compound that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate the entire system of the human organism, correcting its diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid is herself or himself again, and perfect debility is astonished to find his health or energy restored by a remedy almost so simple and easy.

Not only do they cure the every-day complaints of every body, but also many formidable and constitutional diseases which have long baffled skill to furnish grain my American almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Dyspepsia, Headache arising from Derangement of the Digestive Functions, Indigestion, Pain in and Morbid Inaction of the Bowels, Gentleman's Swedish Gloves, and other kindred complaints arising from a torpid state of the bowels or derangement of the Digestive Organs. They are an excellent alternative for the purification of the blood and the restoration of tone and strength to the system debilitated by disease.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been cured of dangerous lung diseases, even desperate diseases of the lungs by its use. When cases have so superiorly over every other medicine of its kind is not sufficient to secure confidence, and where its virtues are known, the public no longer need be in doubt as to what to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While it may be superior remedies shrink from the contest, many have failed and been discarded, this has proved friends by every trial, conferred benefits on the afflicted they can never forget, and procured cures too numerous and too remarkable to be forgotten.
