Aver's Cherry Pectoral,

For the final cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

It is the best of all for asthmatics, and as numerous are the cases of persons, publicly known, who have been cured of Consumption, by timely use of this medicine, it is one of the most decisive cures of dangerous diseases ever made known to the public. When once tried, its superiority over all other medicines of the kind is so apparent to every observation, and where its virtues are known, the public cannot feel that confidence in any other preparation, so well adapted to the purpose, and dangerous affections of the pulmonary organs that are incident to our climate. While many in this community have been cured, they have felt and have discussed, this has gained friends by every trial, and from the benefits to the afflicted they can never forget, and do not cease to commend, and feel thankfulness to

JACOBS'S ART GALLERY

93 Camp Street, New Orleans.

JACOBS AT HIS OLD POST AGAIN!

THE subscriber respectfully informs the numerous patrons of his celebrated Daguerreotype Gallery, that he has secured for a term of years the services of Mr. E. Jacobs, the original proprietor who has just returned from Europe with all the late improvements in the art. Patrons may therefore rely on being furnished with portraits of the highest excellence.

Mr. Jacobs will make no cut rates, on every or other inferior article, but will ever keep in view the maxim of a liberal and enterprising artist, that the best is the cheapest. Daguerreotypes taken of public or private buildings, or of the shipping, will be taken of any size required, either plain or colored.

The Daguerreotypes taken at this establishment are all warranted to be of a quality and price that cannot be surpassed by any other establishment in the United States and cannot be equalled in this city. Persons desirous of having their portraits taken can depend on a perfect likeness, and a durable picture, which will last for years, if not properly exposed to the air.

Mr. Jacobs's Daguerreotypes are those which have received the highest premiums at the principal Fairs in the United States, and he has received the highest premium at the Fair of the Mechanics Institute, in this city, for the best specimens of Daguerreotypes ever exhibited at that Institute.

Mr. Jacobs's Daguerreotypes are those which have been awarded the highest premium at the Fairs
