Dr. Mott's CHALYBEATE RESTORATIVE PILLS OF IRON.

An apparent and formidable preparation of IRON purified and Chemically Combined, to constitute a Medicine Unrivalled by the highest medical authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of IRON can be compared with it. Impurities of the blood, depletion of vital energy, pale and otherwise sickly complexions indicate its inefficiency in almost every conceivable case, sometimes in all stages in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous affections, Dissociation, Dyspepsia, Constipation, Diarrhea, Scrofulous Tuberculous, Salt Rheum, Hemorrhagic, Whites, Chlorosis, Leucorrhea, Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Fingers on the Pulse, &c.

In cases of Nervous Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints one trial of this remedy has been generally conceded to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just returned from a protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, associated relations of apparent consumption, contagious exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician are so canny.

In NERVOUS AFFECTIONS of all kinds, and for nervous inability to medical men, the operation of this preparation of iron must necessarily be salutary, for as it is the old cables, it is obviously tonic, without being much in the ordinary sense, and gently, regularly aperient, even in the most obstinate cases of constipation, without ever being a gentle purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably efficient and permanent a remedy for piles, upon which it also appears to exert a distinct and specific action, by diminishing the local tendency which arises from them.

In DYSPEPSIA, numerous as are its causes, a single box of these Chalybeate Pills has often proved, for the most habitual cases, including the attendant *Constipation.*

In unchecked DIARRHŒA, even when advanced to DYSENTERY, conditional, incurable, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and sensitive lungs, which generally indicate INCIPIENT CONSUMPTION, this remedy has been found to allay the alarm of friends and physicians in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS (at meditated two lines back) far more than the good effect of the most cautiously balanced preparations of Iodine without any of its baneful and well known disadvantages.

The attention of females cannot be too confidently invited to this remedy and *restoratives* in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory in the latter, instances of cures of which it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must certainly be a great remedy and energetic restorative, and its power in the new strongholds of the West will probably be one of high renown and great utility.

No remedy has ever been discovered in the whole history of medicine which has been so prompt, happy and fully restorative effects. (Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow the use.

Put up in neat flat metal boxes containing fifty pills (price 50c.), may be had, for sale by druggists and dealers. Will be sent free to any address on receipt of the price. Attention, orders, etc., should be addressed to

H. B. FOWLER & CO., General Agents,
339 BROADWAY, N. Y.

ant16-Saw3-3mo

Scrofula, or King's Evil,

IS a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in this condition, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous habit is variously caused by mercurial disease, low living, confined or unhealthy food, impure air, filth and filthy habits, the contagion of vice, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" and, therefore, it seems to be the God Him self says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or obnoxious matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, it causes tumors, and on the surface, eruptions or sores. This foul corruption, which proceeds from the blood, becomes the energies of life, so that scrofulous constitutions not only suffer from sickness more frequently, they have far less power to withstand the attack of other diseases; consequently, vast numbers are yearly by disease, although not scrofulous in their nature, are still found by this taint to be the victims of death. It is upon this which decimates the human family has directly in this scrofulous contamination; a disease destructive disease of the liver, kidneys, brain, and indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are loaded by this hereditary infection, and their health is undermined by it. Tuberculous from the age, men we must look for this blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we accept in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can derive for this everywhere prevailing and fatal malady. It is established from the great medicinals that have been discovered for the expurgation of this foul poison of the blood, and the renovation of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which are its kindred, such as *Erysipelas and Skin Diseases, St. Anthony's Fire, Scald Head, Ringworm, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Scrofulous Inflammations, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all complaints arising from a vitiated or impure blood.* The popular belief in "*Impurity of the Blood*" is founded in truth. Impurity of the blood is corruption of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions

AYER'S
AGUE CURE,
FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, Indeed, the whole class of diseases originating in bilious derangement, caused by the Malaria or Miasm of Malarious Countries.

We are enabled here to offer to the community a remedy which, while it cures the above complaints with certainty, is as safe as exercise. Not a single case of ague is known to fail to yield to the influence of this medicine, if taken on the first approach of the paroxysm, or even later. It is not only the best remedy ever yet discovered for this class of complaints, but it is the cheapest. For a quantity we supply for a dollar brings it within the reach of every family; and in bilious districts, where the AGUE prevails, every body should have it and use it freely, as it is the only sure defence against the attacks of this ever-to-be-dreaded enemy. Not one of the many other remedies ever discovered for the cure of Intermittents is that it contains no Quinine or other injurious ingredient, but the quinine or other ingredient effects whatever upon the constitution. Those who have used it know that it has never had the slightest effect upon the hearing, nor have they ever had any fever and ague in the family since it has been used.

Fever and Ague is the most obvious of the consequences of miasmatic poison. A great variety of disorders arise from its lingering effects, among which are *Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Deafness, Dumb Ague, Palsy, Spasms and Convulsions, Spleen, Hysterics, Pain in the Breast, Color, Pain, Sickness and Vomiting, Pain in the Stomach,* all of which, when originating in this cause, are to the understanding expt, or becomes periodical. This "Cure" expels the poison from the system, and consequently cures them all alike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the malarious districts. It takes invariably or daily while exposed to the influence of the Miasm, and, if taken from the system, and cannot assume also in sufficient quantities; from time to time, it will keep the system more valuably protective than cure, and few will now suffer from Intermittents if they will avail themselves of the protection afforded by this medicine.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.
All of our medicines are for sale by

J. WRIGHT & CO., 21 and 151 Chartres st.

L. MILLER'S
HAIR INVIGORATOR,

AN EFFECTIVE, SAFE AND ECONOMICAL COMPOUND FOR RESTORING GRAY HAIR to its original color, without dyeing, and preventing the Hair from turning gray.

FOR PREVENTING BALDNESS, FOR REMOVING SCURF AND DANDRUFF, and all cutaneous affections of the Scalp.

FOR BEAUTIFYING THE HAIR, imparting to it an unequaled gloss and brilliancy, making it soft and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this unrivaled preparation induce the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities, and to induce a preference or present in use. It cleanses the head and scalp from dandruff and other cutaneous affections, causes the hair to grow luxuriantly, and gives it a rich, glossy appearance. It is the only article in use which does not stain the hair or injure the health, and restores the growth to those parts which have become bald, and to the hair its original color and gloss.

Thousands of ladies and gentlemen in New York who have had their hair restored to the use of this invigorator, have all expressed themselves well pleased. It has in the possession letters from such as have tried it, testifying to its efficacy and utility. It will effectually prevent the hair from falling, and restore the growth to those parts which have become bald. It is perfectly free from any of harm.

Prepared only by the proprietor, L. MILLER, 308 Chartres street, between Bienville and Conti's st.

To the Public.

AYA PANA BITTERS.

MANUFACTURED BY J. CHAUVET.

OUR prolonged experience, and the continual labor of the solution of a problem of the first element importance to the public at large.

In which we have shown that obscure ailments are urgent and destitute of nutritive salts, indispensable to their proper assimilation.

No one can be ignorant of the important part played by the stomach, when the general health is good. It is in fact, the infallible thermometer of the condition of the system, which indicates so. Thanks to its admirable functions. Every one is aware, when food remains too long in this organ, certain diseases, unfortunately too well known, result—such as Dyspepsia, Gastritis, Cramps in the stomach, Vomiting, Constipation, &c.

All disorders occasioned by imperfect digestion are combated and relieved by the AYAPANA. It disembarrasses the stomach, imparts a keen, creates appetite, and predisposes the digestive organs to the performance of its functions.

Although it is but one year since the introduction of this remedy, thousands of persons are already indebted to it for the recovery of their health, and the testimonies, and those who are for ever deprived by premature death, have left behind them the AYAPANA by experience, and they will be certain to use it continually, as the approach of summer, when fatal cholera makes its appearance, and the Bitters Bitters Indispensable in order to neutralize miasm.

Depots, Restaurants, and Coffee-houses, desirous of meeting public patronage, should be constantly supplied with this tonic, composition, which may be taken at all times, and prove a most beneficial by both sexes.

As a sale is becoming general, and with a view of gratifying all, we have established the following agencies:

New Orleans General Depot—J. Canaut, Importer, No. 70 Old Levee; Bernard, 8 Dauphanine and Bienville; Baton Rouge—H. Gravy.
