FRIDAY, FEBRUARY 20, 1829.
FRIDAY, FEBRUARY 20, 1829.
FRIDAY, FEBRUARY 20, 1829.

TRIBUTE OF RESPECT TO LAFAYETTE.
 We are indebted says the N. Y. Statesman, to the politeness of Capt. Robinson, of the Packet ship Charlemagne, for the following description of an elegant silver monumental Vase presented to General Lafayette by the Midshipmen of the United States frigate Brandywine, executed in Paris under the direction of Mr. Barret our Consul, and presented to the General by His Excellency Mr. Brown.

The Vase, of the Egyptian form, elevated on its pedestal, is 20 in height and 10 1/2 inches in its greatest circumference. The frieze is 1 1/2 inches wider represents in relief on an unpolished surface a cable encircling a branch of Vine bearing fruit—symbolic of youth and strength.

Upon the front are the arms of the U. States; the opposite front represents a Civic Crown surmounting the tomb of Washington.—Crowns of flowers take the place of handles. The body of the Vase stands on a four soles and is adorned with pearls and leaves of parsley. The pedestal is covered with plates of porcelaine, (exquisitely painted,) supported by four griffin's claws—1 1/2 inches in height, and 7 in diameter inclusive of its cornice. Below the inscription, the pedestal is ornamented with a double row of acanthus and water flowers. The porcelain plates are encircled by beautiful wreaths of parsley. The front contains the inscription:

"Presented the Midshipmen of the U. States Frigate Brandywine, as a testimonial of individual esteem and collective admiration, tribute to the private worth and public excellence of Gen. LAFAYETTE."
 That on the opposite side represents the visit of the General accompanied by his Son and a friend, to the tomb where repose the remains of his old companion in arms—Washington.

On the right a view of the Capitol taken from the Pennsylvania Avenue, emblematic of the visit of the General to the United States.
 On the left, a view of the roadstead of Graves de Grace taken from the pier-head—the Brandywine, lying to, occupies the back ground, and the steam-boat with the General and suit on board is leaving the Frigate for the port.
 A Glass Cylinder encloses the Vase surmounted as follows: Violet, Laurel, ears of Corn, Blue Lily, Ivy, Oak, and Armaranth.

TRENTON, (N. Jersey,) Jan. 24.
 The past week has given birth to several important items of business. Among the number are following:—An application to amend the U. States constitution, so as to make the term of future presidents, six years, and to render them thereafter ineligible; a detailed report of the committee on the subject of re-chartering the State Banks, and reports from each of those banks, shewing their situation, and that they were in good condition; a message from the Governor, on the subject, and in favor of the Delaware and Brittan Canal, communicating important information relative thereto, transmitting a resolution of the Legislature of Pennsylvania, for the appointment of commissioners to treat for the conjoint use of the waters of the Delaware, for canalizing purposes; also, a resolution from the legislature of Georgia, disputing the right of the general government to impose tariffs of duties to protect domestic industry, and deprecating colonization societies; a petition for a new county, out of parts of Middlesex, Somerset and Essex; a bill to extend the charter of the State Bank at Trenton, for the purpose of settling up its concerns; a petition for a rail road from Paterson to the Hudson river; a bill now passed for a road over the Mt. Moriah at the Water Gap; a bill passed to incorporate the city of Jersey; a bill for publishing Chancery reports; a bill passed to increase the capital and extend the privileges of the Columbian Steam Boat Company; an application to incorporate a company to manufacture fax and hemp without paying a bill for a Savings Bank; and the bill progressed in for a rail road, from Camden to Amboy; business thickens; divorce applications, still press forward, and many other important matters are still to be brought forward.

The mail from Philadelphia to Easton, was discovered, on its arrival at Doylestown, to be on fire. It was instantly unloosed, and the fire extinguished. Many of the packages were nearly consumed. It is unknown how many were communicated.

Prussian Marriages.—The marriages and ceremonies preceding them, are singular in Prussia. When two young persons mutually consent to enter into that state, their parents are informed of it; and, if they approve of it, all the parties meet at a grand dinner, after which the couple are formerly promised or betrothed to each other. This frequently happens six or twelve months before the marriage, and the event is notified by small printed cards announcing it, which are distributed by the parents to their acquaintance, or not unfrequently by inserting it in the newspapers; these notices are repeated at the marriage and at the birth of a child. From henceforth the betrothed receive the appellation of bride and bridegroom, which they retain only until marriage.

The age of Trees.—In consequence of the slow decay of the heart wood of the oak and chestnut, those trees, under favorable circumstances, attain an age which cannot be much short of 1000 years. The beech, the ash, and the sycamore most probably never live half so long. The duration of the apple tree is not probably much more than 200 years; cut the pear tree, according to Mr. Knight; lives through double that period. Most of our best apples are supposed to have been introduced into England by a fruiterer of Henry III so that are now a state of extreme dotage.

Sir Walter Scott has been elected Lord Rector of the University of Glasgow.

The Quebec Gazette says that "the late cold weather and probably the great depth of snow which has fallen in distant parts of the country to the north of this city, have brought us some unusual visitors. Along the foot of the hills, and particularly at Veicartier, a number of that beautiful bird, the American partridge, have been killed. The Indians say they saw a white bear, and the rein-deer caribou have been seen in herds of ten or twenty."

A gentleman in Washington has recently brought from the South 52 varieties of grape vines indigenous to the U. States. Among them the Souppernong a native of North Carolina, growing in a swamp. A single vine in one instance, yielded eight barrels of wine to a farmer, who has four acres of them under cultivation. The wine improves much by age.

[From the Philadelphia National Gaz., Jan. 17.]
 The New-York Gazette of Wednesday, contains a long letter from Bogota, Colombia, dated 21st of Nov., the object of which is to place the conduct and character of Bolivar in the best light, and those of Santander and his party, in the worst. The writer who is described as "a highly respectable gentleman," contends that Bolivar is disinterested; has a desire to do what is right, and aims at liberality in the form of government. He was "forced" in to the war with Peru,—forced no doubt to give so curious a constitution to Bolivar; forced to excite Paez to insurrection; forced to stifle the Convention of Ocaña, which he concurred in convoking; forced to usurp the supreme, &c. Thus Caesar, Cromwell, Napoleon, all were compelled to set the example, which he, good man and pure patriot, has been obliged to follow! We have in our own drawers letters from gentlemen as respectable and intelligent as any now in Bogota, and who have known & studied Bolivar closely in his designs and measures, for the few years past, in which the conviction is expressed that he has been actuated by an inordinate and selfish ambition; that he hates republican ideas and institutions, and covets and pursues a triple absolute way to be compassed and maintained by the sword. We do not undertake to decide between contradictory representations, but we have been for a twelve month, nearly ready to renounce the very favourable sentiments which we long entertained of his principles and purposes.

In the New England States there are at present seven or eight anti masonic presses, whose object is avowedly the overthrow of masonry. A paper just established at Charleston, Massachusetts, the Bunker-Hill Aurora, tapers the use of some of its columns to the Fraternity.

LA PEROUSE.—The town of Albi has just been authorized to raise, within its walls, a monument to the memory of the unfortunate La Prouse. This monument will be erected on a public place, in front of the house where this celebrated navigator was born.

ACHILLE MORAT has been acknowledged by the President as Vice Consul ad interim, of the Mexican States, for Florida.

The person who some time since was in Ohio, representing himself to be the Redeemer of the World, is now in this city: He was in a meeting-house in Christian street on Thursday evening last, and addressed the congregation, making known his assumed mission and character. This fact induces us still more strongly to incline to the opinion, that this is the same person who was tried about a year ago at the Mayor's Court, in this city, for representing himself as the Son of God, and worthy to receive adoration and praise. Several persons, male and female, appeared at that time, and gave evidence in court, in which they acknowledged their belief that he was worthy to be worshipped as a Divine Messenger, and we think his father also.

Curious Musical Instrument.—A novelty of this kind is handed privately about at present, and will, we think soon obtain much notoriety. It has a very small engine, (not larger than this paragraph) consists of a brass frame, with eight perpendicular bars of silver. It is pressed against the lips, and breathed through by the performer, and the consequent vibrations yield sounds resembling those of the Eolian Harp, which are wonderfully powerful, considering the minuteness of the instrument. It goes to the extent of an octave, and its modifications of piano and forte are altogether surprising.

London Lit. Co.
