ARRANGEMENTS FOR THE STATE FAIR.

The Association which has in charge the arrangements for the State Fair to be held here on Saturday, November 18th, and following days down to November 26th, has announced to the public its readiness to receive articles for exhibition, the new buildings at the Fair Grounds having been completed and made ready for their proper display. These buildings consist of:

1. A brick building to take the place of the octogonal building of last year, 200 feet long and 95 feet wide, two stories high, erected at a cost of $40,000 by Mr. J. Turck, builder. In this construction will be placed articles which come under the head of Departments B, C and D, and which are to be under the Superintendence of the following members of the Association: E. A. Tyler, A. W. Merrick and C. A. Miltenberger. In this building has been erected a gallery nearly 30 feet wide and extending around the whole of the interior over 500 feet. Here the paintings and statuary and other works of art will be displayed.

2. A wooden building situated to the left of the brick building, and 130 feet from it, 200 feet long and 80 feet wide, erected at a cost of $15,000 by D. J. Wasson, Esq., builder. In this building will be exhibited articles which come under the head of Department E, and of which N. E. Bailey, Esq., will have the charge. In this department will be exhibited the machinery of all kinds; also a splendid engine purchased by the Association from Messrs. Lane & Bodley. A line of shafting, 140 feet long, to run all the machinery the building can accommodate, will be placed in it. There is also a boiler of 50 inches in diameter and 30 feet long, with 4 flues, to furnish the necessary steam, in course of erection. It will be ready for operation on the opening of the Fair on the 18th instant.

3. A wooden building similar to the one just described, situated to the right of the brick building, and 130 feet from it, erected by the same builder and at the same price. Here will be exhibited articles which come under the head of Departments A and F, presided over by Messrs. E. M. Rusha and Geo. W. Dunbar. The attention of the public is called to the roofing of these buildings (2 and 3) which is made of tiles, manufactured by the Tile Roofing Company of this city, R. J. West, Esq., President. The building No. 1 is covered with slate put on by Mr. Lindop, of Carondelet street.

The entire equipment of these buildings was done under the supervision of Henry Howard, Esq., Architect, and a Committee of the Board of Directors.

4. The stand race stand erected by the Louisiana Jockey Club, 350 feet long by 50 feet wide, and two stories high, at a cost of $25,000 by Mr. Downey, builder, under the superintendence of Messrs. Olmsted & Jenkins, architects, and a committee appointed by the club. This stand, it is believed, will accommodate 3000 persons.

The arena for the exhibition of stock will be in front of the stand and will be oblong in shape and one-eighth of a mile around it. The Judges' stand is in the centre of the arena and here the awarding committees will also be accommodated. Capt. G. A. Breaux will have charge of this department of the Fair.

These are the form principal buildings which attract the attention of visitors. There are open sheds and stables amply sufficient to protect the different kinds of animals to be exhibited. The grounds have been fitted up and graded, and nothing has been left undone to make the Fair creditable to our city. The chief superintendence of the grounds during the Fair has been assigned to Cuthbert H. Slocomb, Esq.

From the foregoing recital of the preparations made for the grand occasion of Saturday next, it will be seen that the trustees of the Association have not been idle during the last twelve months, and their work speaks for itself. It now remains for the people at large to second their efforts to make the Fair worthy of our State. It is suggested that the forms in which this co-operation should be given are: 1st. By entering one or more articles for exhibition. 2d. By urging the same upon others, and 3d. By purchasing a few admission tickets for distribution among those who are not likely to purchase for themselves. The Association states that by such action it will be materially aided. Thursday, the 23d of November, will be the grand gala day of the Fair, and it is expected that the stores and business establishments of the city will be closed for a few hours on that day.

OPERA HOUSE—A crowded house, a most fashionable audience, a cordial welcome to the old artist, and a most favorable impression produced by the choruses, such may be the resumé of yesterday's performance at the Opera. The "Fingueta" were well rendered, by the chorus, the artists and the choirs. Mesdis. Dalabranche and Coalon, and Miss Lavalli have proven themselves singers of a high order and worthy of their reputation. Mrs. Hinsdale Hitchcock was, as her first appearance, the recover of several handsome bouquets and baskets of flowers, an honor which she justified by the manner in which she sang the part of the *Queen of Navarre*.

Tonight the "Traviata," grand opera of Verdi will be given, with Mrs. Naddi, Mr. Blum, light tenor, and Mr. Selves, barytone, in the cast.

The best of coal can be had at W. G. Coyle & Co's, 138 Gravier street.

He invites proposals for the lease of the stores under the hotel and for the rotunda. The plans of the stores may be seen and the conditions ascertained on application at the office of the association, in the hotel building.

UNIVERSITY OF LOUISIANA—LAW DEPARTMENT—The Law school of this institution was opened yesterday by an introductory lecture from the Dean of the Faculty, Hon. Christian Roselius, whose branch of the study is the civil law. He will be followed by the Professor of Admiralty law and the laws of nations—Mr. Carleton Hunt—whose introductory lecture will be delivered this (Tuesday) evening at 5 p. m. On to-morrow (Wednesday) the Professor of common and constitutional law and equity jurisprudence—Mr. Thomas Allen Clarke—will deliver his opening lecture of the session at the same place and hour—the Law College corner Dryades and Common streets, at 5 p. m.

FROM WASHINGTON.

Washington, Nov. 13.—According to the Russian official journal the first visit of the Grand Duke Alexis to Washington will not extend over twenty-four hours. It will be merely for the purpose of paying his respects to President Grant and the members of the Cabinet, who will in turn pay their respects to him at the Executive Mansion. He will return to Washington during their sojourn, nor receive cards. He will then return to New York to accept the honors prepared for him, remaining there several days. He will thence proceed West on the Pacific. The programme of his journey was furnished several weeks ago by a distinguished gentleman to Minister Catacazy at the latter's request. The Grand Duke will return to Washington during the ensuing session of Congress to spend about 12 days, when a series of entertainments will be tendered him.

The Grand Jury has indicted Congressman Stokes, of Tennessee, for defrauding the Government.

Washington, Nov. 13.—There is a case pending in the Supreme Court here, seriously affecting the recent proceedings against the Mormons.

Three years ago liquor was destroyed by the Mormon authorities and suit brought to recover damages, which resulted in a verdict being rendered against Salt Lake City. The ground of the appeal is that jurors should have been summoned by the territorial, instead of the Federal Marshals.

The recent indictments and convictions were made by juries summoned by the Federal Marshals, and a reversal in the pending case will nullify the recent proceedings in Utah.

In the meantime it may be stated that the Executive is determined to push the present policy towards the Mormons.

Appeal from the Supreme Court of Tennessee, in the case of Avery against the United States, the Supreme Court held that where a judgment has been recovered by the government against a surety of an official bond, the judgment will not be opened and the party allowed to have it satisfied out of the proceeds of the rents of captured property belonging to him, in the case where the party had opportunity to ascertain before the fact whether the government had such proceeds in its treasury; also, that the writ of *audita querela* cannot be sued against the government.

Secretary of War, Belknap, has dismissed another cadet from West Point for hazing.

WEATHER REPORT.

PROBABILITIES.

An extensive area of low pressure will probably prevail from the Mississippi to Michigan, advancing eastward over the lower lakes by Tuesday night, followed to-night by brisk north and west winds south and west of Illinois. Threatening weather with rain extend very generally on Wednesday along the Atlantic coast with falling barometer and northeast winds veering to southeast; increasing southerly winds on the lower lakes; brisk northwesterly winds on Lake Michigan and on the Louisiana coast. Cautionary signals are ordered for this evening for New Orleans, Mobile, Milwaukie and Chicago.

Washington, Nov. 13.—The barometer has advanced slowly eastward with diminished pressure in New England and Delaware. Cloudy weather and cooler light winds extend from New York to Georgia. Two areas of low pressure have advanced northeastward into Iowa and Arkansas. Rain and threatening weather prevail from Lakes Superior and Huron to Louisiana and Georgia. Falling barometer and rain have continued in Oregon. No communication with southern Florida or Texas. The Signal office reports snow at Omaha, Cortlane and Duluth.

The Congress responded with a battery of nine inch guns. Lieutenant Commander Robson was sent aboard the Abrock to convey the compliments of Admiral Rowan and tender the usual courtesies to the man-of-war. Her Captain accepted an invitation to dine with Admiral Rowan and running the Vice Admiral's flag to the fore; fired a salute of 15 guns, which were returned by the Congress.

At an entertainment given on the Abrock to-day, her chief officer gave a toast: "We are all glad to be in New York and drink to America with joy."

The Abrock has not seen the rest of the fleet since the third day after leaving Madeira, and during a blow after it was reported the other vessels of the fleet would be here ahead of her.

It is believed they are close at hand, unless the fleet went to Bermuda to repair the boilers of the Bogatier.

New York, Nov. 13.—The following is a correct account of the cholera at quarantine night before last: The steamer Franklin arrived that night at quarantine, with a number of cholera cases on board. She sailed from Stettin October 10th, touching at Copenhagen 12th, and Christiansand 15th. At the time of leaving Christiansand she had 22 cabin, 611 steerage passengers and 26 crew. Ten days ago the first case of cholera appeared among the steerage passengers, and when the steamer arrived at Halifax to obtain coal, there had been nearly 100 cases, 40 of which proved fatal. Since leaving Halifax one death occurred, and to-day 12 patients suffering from cholera were sent to the West Bank Hospital. The well passengers have been sent to the ceiling ship Delaware. The Franklin was sent to the lower quarantine, where she will be thoroughly disinfected and detained until it is thought safe to allow her to come up to the city.

Hudson, N. Y., Nov. 13.—The trouble regarding St. Mary's Church is over. Father Millvarth preached to the largest congregation ever assembled in the church.

The investigation regarding the recent trouble is progressing.

Cincinnati, Nov. 13.—The pork packers and provision dealers organized a blank Exchange, electing Henry Kye President.

Salt Lake City, Nov. 13.—The Supreme Court and District Court were both in session to-day, but nothing of particular interest transpired.

The Grand Jury lacked a quorum owing to the absence of members as witnesses in the great mining suit at Pavo City. The United States Marshal was ordered to secure the absentees by to-morrow.

Anniversary of the New Orleans Benevolent Association.—The excellent benevolent society celebrated its thirteenth anniversary on Monday night. The hall was prettily decorated, and the procession which paraded some of the principal streets, was, if there was any change, even better than the parade of previous years. The orchestra, more numerous than any of its predecessors, showing that the society is flourishing. An interesting ceremony took place at the close of the procession, the flags of the various societies having been formed by the ladies, and the last that they will perform without success, and then finally placed the Castle at his disposal.

New York, Nov. 13.—Charles O'Conor said yesterday that Tweed was hiding in the preliminary steps men take when they seek to elude justice by flight to a foreign land. That the public would be active in arresting him, even now, O'Conor believed that Tweed would certainly fly, and that there are not many impediments in his way.

He didn't think he was the only prominent criminal who would quit the country, but he was wherever they go in Europe they will find they cannot remain in peace, impunity, but will be followed wherever the law can follow them. His seat in the Assembly will be vacated on the ground of fraud in the election, which proof is so abundant that Hamilton Seymour will surely take his seat.

AMUSEMENTS.

At the Academy of Music the Oates Comic Opera Company continues to draw full houses, their burlesque performances rendered in good music, being a source of unfailing pleasure to the habitues of the house. The piece on the stage last night, and which will be on it for several nights, is "Fortunio," and his Seven Gifted Servants," which he will present, is very funny. The costuming is very rich, the music adapted to the popular taste, the dialogue animated, and the whole thing is about as agreeable nonsense as could be put on the boards. The doors will open at half-past seven, the house, hereafter, at half-past six, and the curtain will rise at half-past seven.

It is barely necessary to say in regard to the St. Charles to secure a crowded house, that the veteran American tragedian, Edwin Forrest, who has been on the stage something like forty years, opens an engagement at that house to-night. He appears as "King Lear." Great numbers will be curious to see how the aged artist plays the aged and mad King.

The Election in New York—The Results as Viewed by the Democracy.

(Special Dispatch to the Republican.)

THE FALL OF TAMMANY.

New York, Nov. 9.—The great mass of the Democratic party feel that notwithstanding the loss of the State, it is a cause for congratulation in this city, given them a better chance before the country, and a guarantee for future success. The difference between the vote for the city reform candidates and the State Republican candidates shows that large Republicans have fallen off in the Democratic strongholds. Party lines were ignored by Democrats as well as Republicans to defeat the Tammany and all honest Republicans voted regularly for Tilden for Assembly as honest Democrats voted for Seagel. The Democrats in the numerous public meetings held, including the City Hall, in honor of the recent Fine Department, Democratic Democratic meetings are held to-night to celebrate the people's victory over the ring. The Radicals are now called upon to go and do likewise in the interest of the party.

The only drawback from the general jollification is the election of Tweed by the Republicans, and Republicans feel the defeat of Horatio Seymour for the Mayor in the Nineteenth District, by about eight hundred votes, but they feel sure he will resign before many days, as it is known his resignation is not already in the hands of the Mayor.
