ANOTHER STABBING.

On Tuesday evening last, between 7 & 8 o'clock, a Spaniard was brought to the apothicary store of Mr. P. Chevalier, corner of Rempart and Bayou streets; having received two wounds, one in the abdomen and another slightly, on the shoulder. On being questioned who stabbed him, his reply was, "a friend."—What a friendship!

Papers Relative to American Tariffs.—We have received from our London correspondent, a volume of 247 pages cap folio, presented to the House of Commons in pursuance of their address to His Majesty of the 18th July, 1828. Ordered by the House of Commons to be printed, 25th July, 1828. The principal documents which it contains, are the Tariff Act of 1824— proceedings of the Harrisburgh Convention in 1827—Extract from the Report of the Secretary of the Treasury at the commencement of the session of Congress in the same year—Mr. Mallory's Report from the Committee on Manufactures to the House of Representatives, with the accompanying bill, presented in January 31, 1828—minutes of evidence taken before the Committee on Manufactures—Mr. McDuffie's Report from the Committee of Ways and means, March 12, 1828—the Tariff of 1828, as enacted by Congress—and correspondence of the British Minister at Washington with the American government and his own.

The nett amount of postage letters, &c. during the year 1828, was one million fifty eight thousand two hundred and four dollars, and thirty four cents. Of this sum, $252,865 90 was paid by New-York state—By the city, $124,630 17.

Sinking Fund.—It appears from the report of the Commissioners of the Sinking Fund to Congress, that during the year 1828, there was paid, on account of the public debt, the sum of $10,001,585 99, of which the item of interest and charges is $3,518,851 86. In the year 1828, there was paid, on account of the debt the aggregate sum of $12,163,305 09, of which the items of interest is estimated at $3,102,070 71. The amount of the public funded debt on the first of January last, was $58,352,135 76.

Baltimore American.

Fifth Census.—A bill to provide for taking the fifth census, was acted on in Committe of the Whole on the state of the Union, on Saturday, and ordered to be engrossed and read a third time on Monday. In the general appropriation bill, the sum of 350,000 dollars is appropriated for the expenses of taking this census. The enumeration under this census to commence the 1st day of July next, to be completed in five calendar months, and the returns are to be made to the Secretary of State, on or before the 1st day of Feb. 1830. It is proposed by the last section of the bill that the whole of the representative number shall be devided by 230 which it is conjectured will leave about 220 members for the House.—*Nat. Jour.*

FRENCH SPOLIATIONS.—We mentioned a day or two since, that a Committee of the United States Senate had reported a bill for the satisfaction of claims due to American citizens for French spoliations, prior to 1800. The amount it appropriates, is *two millions of dollars*.—*N. Y. Jr. Com.*

Extracts from the Committee's Report.

The Committee have adopted the opinion that the American government, having relinquished all claims upon the French government for the large amount of indemnities justly due to American citizens, for injuries committed on their commerce, in violation of national law and existing treaties between the two nations; and having made that relinquishment conducive to the attainment of advantages highly important, both in their political and pecuniary results, ought to make just compensation to those whose claims were thus relinquished.

The exact extent of loss is not ascertained, though known to be large; the value of the probable chances of recovery from the French Government, at the time of the relinquishment, and the value of the advantages derived to the American Government by that relinquishment, cannot be resolved into any specific sum; and in fixing the amount to which the committee have agreed, they have acted upon the principle of a fair and just compromise.

BUNKER HILL MONUMENT.

The committee of Bunker Hill Monument Association have issued an address "to all Americans, and especially to every son of New-England," soliciting their co-operation in carrying forward to its completion the magnificent work which has been commenced on the heights of Bunker's Hill.

The monument (they remark) will be the *highest of the kind in the world*, and only below the height of the Egyptian Pyramids. It will form, when completed an obelisk thirty feet square at the base, and fifteen at the top. It will consist of eighty courses of our Quincy Granite, each course two feet eight inches in thickness. The whole height, when laid, will be two hundred and twenty feet. No traveller will *then* enquire for the Battle ground. The monument will endure until the foundation of the earth itself are shaken. Our descendants in the most remote ages will have this perpetual memorial before them, of the virtues and valor of their ancestors, and this ever-enduring memento to the price and the value of liberty.

The whole quantity of stone necessary to complete this work, is six thousand, seven hundred tons. Of this quantity twenty-eight hundred tons are already laid in the fourteen first courses, and five hundred tons more are already dressed, on the Hill, being the quantity required for five courses and with that already laid making more than half the quantity necessary for the whole structure.—Twelve hundred tons are already split out in blocks to dimensions for the various parts of the Monument, at Quincy, and have been placed in situations where they can be last hammered. The remainder, twenty-two hundred tons, can be split from the quarry in ninety days, for three thousand dollars; considerable progress has been made in preparing the ledge for that purpose. The Committee continued the work as long as they considered themselves justified and only ceased, at the Hill, on the first September, and on the seventeenth of January at the quarry.

To accomplish this great work, it must be evident, has required a sum of money far beyond the subscription, and to complete it a still larger sum is required. The machinery at the quarry, at the Wharf, and on the Hill, has cost ten thousand dollars;—but half the sum, as the Committee have learnt, paid for the staging used in erecting the Washington Monument at Baltimore. To extinguish all the titles to the battle ground has cost twenty-four thousand dollars. In proceeding as far as they have done, the Society have expended all their funds, and twenty thousand dollars in addition. Thirty thousand dollars more is required to complete the work. With fifty thousand dollars the work can be completed within the year, and the whole battle field reserved.

Escape from Piracy.—We learn from the Wilmington, N. C. Gazette of the 16th inst. that the schr. Superior, Parker, 16 days from Point Petre, via Basseterre, Guadaloupe, left, at the latter port, the schr. Chance, of Newbern, N. C. Captain Rodney French.—Capt. F. put in on the 21st Jan. under the following circumstances.—The Chance left St. Pierre, Martinique, on the 19th bound for Salt Key. The evening of her departure she was boarded by a small schr. hailing from Bermuda, from which she took on board three passengers for Salt Key. Capt. F.'s suspicions were soon awakened with regard to the character of his passengers, by their enquiries made among the crew, as to his outward cargo, and how much money was on board. He also observed that each of them carried a pocket-handkerchief in each of their pantaloon pockets and in seating themselves at table, he fortunately discovered that these handkerchiefs covered pistols. He made some excuse to go on deck, and immediately called the crew aft, and guarded the companion way; after which he forewarned the passengers against coming on deck, at the peril of their lives. One of them however, forced himself on deck, when Cap. F. gave him a blow on the head with the pump break, of which he died in a few hours. The rest remained below, the companion was secured and the vessel being to leeward of Guadaloupe commenced beating up for Basseterre. On her arrival off the roadstead, on the night of the 21st. Capt. F. communicated his situation to the authorities on shore, who immediately sent off assistance & worked the vessel in. The passengers were committed for trial, and Capt F. and his vessel were detained to give evidence, when the Superior left.—*Jour.*

Horrible.—The statement which has been in all our papers, of the destruction of a woman and her four children by fire near Montreal, is an error. They were murdered by the *father of the family*.

One child, a boy of four years old, alone was spared. After the death of his mother, and the interment of the bodies, he was taken to the house of a neighbor, who took charge of him. Suspicion was excited by his prattle about the manner in which his father killed his mother, and brothers, and sisters; how he struck them with a spade, and other circumstances of the catastophe, which he would tell to others and talk over to himself, when he thought no one was listening. Easby, (the name was mis-spelled Hisby) was arrested, and the bodies disinterred, showing many bruises and fractures of the limbs and skulls; other circumstancial proof was brought to light, which rendered the testimony complete, and the horrible villain afterwards confessed the truth. He beat his wife and children to death, and set fire to some straw, for the purpose of blackening the bodies and concealing the crime. He assigned no motive for the act, except that he was spurred by *the Devil!*—*Bos. Bul.*

THE Ladies and Gentlemen of this City are respectfully informed that the large CARAVAN which has for the last two months been exhibited opposite the French Theatre, has removed to the corner of Tchoupitoulas and Poydras street, where it will remain until the middle of April, and then leave the city. Among this valuable collection, is the ZEBRA, the most beautiful animal in the world, and the first one ever in this country. The LION and LIONESS, PANTHER and PANTHERESS, African LEOPARD, the EMU, of Africa, one of the largest of the feathered tribe: Also a pair of Arabian Camels, and the Lama of Peru with her young. The pleasing phenomenon of the monkey Dandy Jack, who will give an imitation of a first rate equestrian performer, both in riding the Shetland Pony, tumbling and dancing.

There is another curiosity never before seen in this country—a female monkey with her young, who nourishes it with all the tenderness of a mother.

These with a great number of other animals compose the exhibition which is now offered to the public, particularly those who wish to become acquainted with the curiosities of nature.

No danger need be apprehended, as the animals are well secured, and the place is well fitted up and covered with a pavilion.

Hours of exhibition, from 9 A. M. to 9 P. M.
