PRINTED DAILY, BY F. DUBOIS. St. Peter Street, between Bourbon & Royal. WEDNESDAY, DECEMBER 31, 1898.

We are authorized to state that Mr. J. J. MERCIER is a candidate for the House of Representatives to fill the vacancy occasioned by the resignation of Mr. Waggaman.

CONGRESS, Friday, Dec. 5. In the Senate, Mr. Tylor of Va. appeared and took his seat. Mr. Johnson of Ky. obtained leave, to introduce a bill for the preservation and repairs of the Cumberland road. The Senate, no business being before it, adjourned to Monday.

Yesterday was the first day on which petitions were called by the Speaker, and a considerable number were presented. Various resolutions were adopted. Mr. Long offered a resolution, referring it to the Committee on Manufactures, to inquire into the expediency of abolishing the duty on salt and molasses, which was rejected without debate—yeas 38, nays 102. A resolution was offered by Mr. Wright of Ohio, referring to the Committee of Public Lands the propriety of extending the benefits of the act of May last to certain purchasers of public lands, and adopted. Mr. McHatton submitted a resolution calling on the President for information as to any negotiation which had been entered into with Great Britain relative to the surrender of any fugitive slaves that may have taken refuge in Canada. This resolution by rule lies on the table. On motion of Mr. Mitchell of Tennessee, the bills before the House at the first session, for the relief of sundry officers and widows, and for the relief of sundry revolutionary and other officers and soldiers, were referred to the Committee on Military Pensions. The Rev. Mr. P. is elected chaplain of the House of Representatives for the present session.

Important Naval Arrangement.—I appears by the report of the Secretary of the Navy, (published in the National Journal of Saturday) that Governor's Island, in this harbor, has been transferred by the War Department to the use of the Navy, and immediate measures are to be taken to adapt it to its new purpose. With it, and the present Navy Yard at Brooklyn, ample means can be provided for any future wants of our growing navy.

Scarcity of Money in Boston.—The Boston Commercial Gazette of Saturday says: "The demand for money has been absolutely paralyzing for several days, there has been a perfect torpor upon change, and there seems to prospect of a speedy relief." These string and not very happy chosen expressions, seem to be used to enforce a conclusion at which the paper in question arrives, that the manufacturers have caused all the difficulty; for the question is asked—and asked too in a tone implying something very heinous in the fact it insinuates—Can it be believed, that all this scarcity has been, and still is, owing to the investment of the \$10 millions of dollars in factory shares by the gentlemen of Boston who have returned from trade?

Such reasoning would indicate that the advocates of free trade are a little tolerant as the monopolists whom they oppose.

Distressing Shipwreck.—From Mr. Macy who arrived in New York evening from Nantucket, we learn the following distressing particulars of the loss of the brig Packet:

Brig Packet, of Providence, belonging to Brown & Ives, Solomon Tyler master, from St. Petersburg, with a cargo of 3 or 400 hales of manufactures, 98 tons hemp and 80 tons of iron, struck on the South side of the Island of Nantucket, on the morning of the 3d inst. at half past 3 o'clock; the vessel immediately went to pieces, and the mate alone succeeded in gaining the shore to tell the sad tale. Led Cronstait 17th Sept. and had not seen land since passing Norway. Names of the crew; Solomon Tyler, master, Providence; Calvin Walker, mate, Scotland; George Harris, 2d do, Norway; Benj. Thompson, Providence; Wm. Matthews, Boston; Isaac Stigney, do; Joseph Groves, Wiscasset; Aldredge, Providence; Bernard, Bristol; Nelson Johnson, Norway; Wm., do. The shipwreck was so total, that probably but very little of the cargo will be recovered.

Missing Vessel.—The brig Signal sailed from Boston on the 10th of Sept. 1897, for Rio de la Plata, and has not since been heard of. The following are the names of her officers and crew: David Hartshorn, master; Cha. Kellogg,

supercargo; —, Lawce, 1st Officer; David Turner, 2d do; Ira Scrymgeour, cook; Wm. Clark, Henry Monk, Wm. F. Holmes, Wm. Chase, and a Spanish woman.—N. Y. State.

The sloop Keelish, Lemuel Burgess, master, bound from New Bedford to Wareham, loaded with iron, suddenly sunk in a rough sea near Cape Point. The captain leaped into the sea, without oars, cut her foremast, and was saved. Lemuel Burgess, (the captain's father,) and Wm. Coffin, mate, were drowned.—D.

The Quebec Gazette of the 13th inst. remarks:—The John Francis, which sails for Liverpool in a few days, takes home 150 hales of cotton wool, imported from the United States, via Halifax, and shipped to Great Britain, under the reduction of duty provided for in the late Customs amendment act.—D.

It is said that sugar can be easily made from the water-melon in South Carolina, where that fruit grows in the greatest perfection. A tavern-keeper in the interior has made all the sugar he has used from water-melons.

Pirates.—Captain Cartwright of the brig Eliza Davidson, arrived at New York Nov. 3, from St. Croix, reports that oncoats were daily received at that place, and at St. Thomas, of vessels that had plundered by pirates—there is scarcely a packet or coasting vessel among the Islands, that escapes; one of our small national vessels is much wanted in the Sail Rock and Sombro passages, to protect American commerce.—Boston Patriot.

Independence Forever.—The American residents, captains of vessels, stationed together at Monte Video, on the 4th of July last. A Brazilian officer appeared in full uniform, with an invitation, saying he had come to dine with them. The president put the question to the company whether they should invite him to dine with them. The response was from various quarters, No, No, No! and the Captain walked on with the best grace he could.

The Mary Beach, at New York, left Turks Island Nov. 15th. A letter by her states that a British frigate had just touched, with the agreeable intelligence that the Turks Islands were now placed under the government of Bermuda. They have hitherto been under that of Nassau.

Population of England.—The United Kingdom of Great Britain, and Ireland, contains 74 millions of acres, of which 10,000,000 may be considered as capable of cultivation. Half an acre, with ordinary cultivation, is sufficient to support an individual with corn, and our acre is sufficient to maintain a horse; and, accordingly, the United Kingdom contains land enough for the sustenance of 120 millions of people, and 4 millions of horses.—Edmunds on Pol. Economy

ANCIENT COIN. An ancient coin of Massachusetts, was some time since brought to a store in this city by a Negro, who offered it in payment for an article, and from whom it was obtained for a trifle. It is of the size of a shilling piece, and is of copper, finely washed with silver. It is marked with the date of 1652, with the No. of the coin, thus inscribed in the centre.

The name of Massachusetts on the edge, is as usual.

MASATUSETTS. The reverse, exhibits the remains of some device so much defaced, that it can no longer be made out. It bears some resemblance to a tree which appears to be crossed by an arrow, the head of which is at the top. We are not aware that there exist any other coins of the date, but those who are curious in these matters will be able to enlighten us on the subject.

WANTS EMPLOYMENT. A person who has had considerable experience as a teacher, and who is highly recommended, wishes to obtain a situation as tutor in a family in the city or in the country. He is acquainted with the English language and with Book-Keeping. For particulars, enquire at the counting-house of Duchamp and Kennedy, or at the office of this Gazette.
