All appearances indicate that we are on the eve of great events. There is no doubt but it is determined in the higher councils, to put an end to the state of uncertainty in which we have so long been fluctuating. On Thursday a secret and extraordinery session of the House of Representatives was held, to take into consideration a communication from the Government, which undoubtedly related to the subject which occupies all minds. There is no part of the Province where the greatest activity is not observable, in every thing connected with warlike preparation. The crep of 1830 in Louis iana is estimated at 100,000 hogsheads; and it is for our domestic consumption for fifty years to come.
