Another Ice Freshet.—On Saturday evening last, the ice in the West Branch which had been formed since the late freshet, took its departure for the Chesapeake Bay. The river was exceedingly high, and it passed off smoothly, doing but little injury as we have yet learned. An incident, however, occurred, which is we think without a parallel in the history of ice freshets upon the Susquehanns. About dark on Seturday evening Mr. Joseph Bailey, of the for the purpose of making exceedingly afterwards reached it, with a couple of dogs and some fowls.
