Dan's Published Date, by JEROME HAYON. STATE PRINTER. THE UNION ---- NUMBER PRESERVED. DAY MORNE MARCH Se, 1662.

THE LEG WILL CHIEF .

Yesterday, we menived a large, number of old papers-sy contain, beginning, nothing of importants. The dates on New York, are of the 5th, and abartance of the 12th est one day later than our previous dates from those cities Washingtomend Beltimore, we received so cleaner Enterprise such or the 19th inst, three miles a-torethe mouth of Illinois river, with a felt cargo, from St. Louis, for Gelens, boat and cargo a total loss.

To the editor of the Beet.

Not being a opticariber to your ascellent journalisand living the editions income the city. Every sand friend the periods. I your number of the Lish Floranty in Sinch I read an extract from effector, said to have been written by a weight planter in New Year, who had gone there for the purpose of onling his curp of sugar; in which he nates that the highof solling his crop of sugar; in which he states that the highest price offered at suction, was four-ceatarend that he highest his man to his oversier, to put in the hindred are pears at section in Her of care. Individual from this circumstants this he is an extensive planter and intelligent, you would there many of your subscribers and follow citizens, by publishing his sales; it would enable his follow laborers to consult with him, and accertain the reasons which have indired him to make such a great change in his crop, and come explanation, because I am of the opinion that there is some orior, or his sugar minet bless been of a gery interfer

The prices currents in New Yorks which have same un-for my observation, of this year, have not quoted sugar less for my observation, of this year, have not quiete stigst less (so fir as my memory serves use) thin six cents for inferior, and as high as seven and an half-cents for good. As erreneous opinions on this subject are calculated to be injure the sales of augar to your city, and anable speculators to make a sunny, I take the liberty to suggest that you would render your paper still more valuable, by publishing all often as possible, the price currents of sugar in New York, Philadelphia, Baltimore, and Boston, during the first member of the year, it would be advantageous to sugar plantous and increase. I have no doubt, to a considerable extors and increase. I have no doubt, to a considerable extent, your subscription list. A Sugar Plantant

Important to Importing Merchants.—Among the agts of complexs, is one, reported by the Verplanck, which passed in the night of Saturday, and which seems to us of sufficient importance to the importing merchants as well as to the revenue officers, to justify a special reference to it. By the operation of the general act of July, 1833, unintentionally, probably, on the part of congress and of those who framed it, the duties imposed on many kinds of hard-ware, were nearly distributed, and other majoriteness interposed in the way of importers. These are imported by the act instrussed in which also the inconveniences from the duties on topper, brass plates, and copper for sheathing volucies, are also remodied, by restoring the duties on all these articles to their former footing, exce at copper sheathing, which is according to be admitted free of daty.

Letters were received in New York on Saturday from

which is neverteer to be admitted free of daty.

Letters were received in New York on Saturday from Canton, of the 28th of August, and 3d of September, via Mexico and New Orleans. The letter mentions the arrival at Canton, of the ships September and Nile, of N. York, and that ne vessel would leave that port for the United States before the 18th of November, and probably not before the 1st of December. It is added, that there was a prospect of a good supply of teas; that rhatbark was superspected and socialized low, the former being \$50 a pictual, and she inster from 230 to \$2.30. [The latest accounts from Canton revisions to the shows, were by the Accident

Sperm Oil — The lovers of light must be phrescent the efforts now making in our legislature, to induce people who exact the interfice in oil, to be bonest. On Monday the members were served with copies of an "act to preventificants in oil." It provides that such oils as are sold as spermach, here comes, here is the bold hable, to the provides, that the vender shall be held liable, to the provides, that the vender shall be held liable, to the proclass, that the vender shall be held liable, to the proclass, that the vender shall be held liable, to the proclass, that the vender shall be held liable, to the proclass, that the vender shall be held liable, to the proclass, that the vender shall be held liable, to the proclass, that the vender shall be held liable, to the proclass, that the vender shall be held liable, to the proclass, that the vender shall be held liable, to the proclass, that the vender shall be held liable, to the proclass, that the vender shall be held liable, to the proclass, that the vender shall be the liable, to the proclass the provides that the provides that the location and help in the amountment, in the amountment practity sold is over five gallons; if less than five, four times me amount of its value, unless the perchaser is informed of the adulteration. Besides this, the vender is liable to the resit of \$50 for every such offence, tograhor with the costs suit if contosted by law--[Gioucester Mass. Telugraph.]

From a late Paguish paper.
EXTRAOR HNARY CIRCUMSTANCE.

EXTRAORDENARY CIT. CLASSTARCE.
The cisolers (a correspondent wines) has raged very air raningly at Marlow, so much so that from 12 to 14 but a continue in the city and pash of New Orleans; an act to incorporate the second congregational church in the city and pash of New Orleans; an act to incorporate the second congregational church in the city and pash of New Orleans; an act to incorporate the second congregational church in the city and pash of New Orleans; an act to incorporate the several sets prescribing the city of the coffe, and disastained, he belook insued to the give and due up, the corpo. On thing off the lifety the coffe, he was struck with the appearance of his wife, and thought he perceived symptoms of life, which soon became reading, as, after a while, the poor woman rose up, and to the givet prof her husband, accompanied him house, and wenderful to relate, that night became a moder of the coffe, he was structed by the city of her husband, accompanied him house, and would create the construction of Marlow as the groutest curioarties.

Doors open if 7 o'clock, the exhibition to commence at half past 7 o'clock, precisely.

The peculiar effects of this singular compound upon the animal system was first noticed by the celebrated English chemist, Sir Hamphrey Davey. He observed that when inhaled into the lungs, it produces the most astonishing effects upon the nervous system; that some individuals were disposed to laugh, sing and dance; others to recitation and declamation; and that the greater number had an irresistible propone; to muscular exertion, such as wrestling, boxing, S.c. with innumerable fantastic feats. In short, the sensations produced by it are highly pleasurable, and are not followed by debility.

Dr. C. heing a practical chemist, no fears need be entertained of inhaling an impure Gas; as he is willing to submit his preparations to the inspection of any scientific gentleman.
