Having carried away all his cloth with him, it is probable he will change his dress. It is also presumed that he was enticed away by two white men who were seen near the entrance of the plantation; and who disappeared at the same time he did. Captains of steamboats and others are cautioned not to harbor him. A reward of $25, will be given for his apprehension, upon notice [being] given to his master.

LOUISIANA PENSIONNAT.
Under the direction of Mr. Chas. Cuvellier.

THE Boarding School is established on the plantation lately owned and occupied by Mrs. Laronde.—No situation in the vicinity of New-Orleans unites more advantages for an establishment of the kind. The buildings are extensive and distributed in a manner the most favorable to the maintenance of interior order. The situation although in the immediate neighborhood of the city, affords, with regard to healthiness, the same security as a country place; and the localities are too well known to need further description.

Those persons who will take the trouble of visiting the establishment; will convince themselves, that it would be almost impossible to find a more eligible spot for its location.

Mr. Cuvellier having for a number of years back, devoted himself to the instruction of youth, and his principles having been appreciated by many respectable heads of families, it would be superfluous to dwell long on that subject. It will suffice to inform the public that the *Louisiana Boarding School* shall be established on the same basis as the college which Mr. Cuvellier has been superintending with some success for the last six years.

The studies will then, as heretofore consist, for all the pupils, of the French, English and Latin languages.—Those above twelve years of age, may besides be taught the Spanish.

To the pupils, according to their ages and capacities will follow a course of Mathematics, comprehending Arithmetick, Algebra, Geometry, Trigonometry, Staticks and Descriptive Geometry.

The elements of Natural Philosophy and Astronomy will be taught to those young gentlemen who shall have followed with success the course of Mathematicks.

Geography and History will also form a part of the general studies, the teaching of drawing shall be included in the price charged to boarding scholars. The teaching of the ornamental arts shall be paid for separately.

A reduction of price shall be allowed to those families which shall have several children in the establishment.

The only things which the parents or guardians shall have to furnish for their children or wards on their admission as boarding scholars, shall be a mattrass, a pillow, at least [two] pair of sheets, a blanket, a mosquito bar, and a sufficient quantity of linen, and wearing apparel. june 23

MR VOLQUIN, ARCHITECT OF PARIS, and Pupil of the French Royal Academy of Architecture, has the honor of offering his services to the citizens of New Orleans. The great works which he has constructed, both as Architect of the two principal Hospitals in Paris, and the constructions which he has himself made, among which may be named those houses in Rue de Provensalle, of the value of 2,000, and of which he designed the drawing, inspires him confident that he joins to a full theoretical knowledge of his business, a laborious practice.

The stagnation of business in France, induced him to expatriate himself, and he hopes that the inhabitants of the fine city, will repose in him their confidence, either for the plans of different kinds of Buildings; Monuments, and every thing appertaining to Architecture, which he will himself do, or superintend the execution.

He will give lessons in the Linnean manner of Drawing; likewise in Geometry, Architecture, *La Carpe des Pierres*, Carpentership, Joinery; and *Locksmithing*, in all their departments. He will also give Private Lessons at his house, or in the City, having been a Professor for ten years, in Paris; he has more than five or six thousand Models to offer to those pupils who may wish to engage him. sept 18
