The municipal election, is near, at hand. The mayor and regorder are both candidates for re-election, as well as a greater portion of the present board of aldermen. We have seen much in Mr. Gulbertson's discharge of his public duties to reconcile us to the choice made at the last recorder's election. He has presided with becoming dignity, firmness. and impartiality over the deliberations of the council, and has by the suavity and gentleness of his manners, done much to assigne that acebity of political and sectional feeling, which to a greater or less extent prevails in such bodies; thus securing the harmony and concord so requisite for the proper discharge of the public service.

It gives us pleasure to add this testimonial in his favor which we are pers aded will be the more gratifying coming under circumstances which at once show its eincenty.

The mail of vesterday came through and brought us files of papers; the contents of which are rather unimportant, as regards local matters, than otherwise. New-York dates, by anticipation at Charleston, afford later European intelligance, which we have transferred to our columns.

The Mobile Commercial, a neutral paper, remarking upon the uninteresting complexion of the intelligence from the federal city, observes, "Mr. Webster's project for prolonging the present charter of the Bank of the United States, may be expected in two or three days, but from all we can learn there is no probability of its succeeding. Indeed, it appears to be generally thought that no relief to the country will be afforded by the present congress. The administration has taken its ground, and the president, at all events, will not recede from it, until his "experiment" of managing the fiscal concerns of the country through the agency of the State institutions is fairly tried. With the powerlof the veto, nothing short of a majority of two-thirds of both houses of congress, can control his views, and upon such a majority it is idle to calculate. It will be the part of wisdom then for our merchants to meet the existing condition of things as they best can, without awaiting for aid from a quarter, where no aid will come."

A large meeting of the citizens of Boston, opposed to the U. S. Bank was held on the evening of the 12th inst., at the Masonic Temple in that city. The Boston Morning Post says that there were at loast two thousand persons assembled within the walls of the building, and at least one thousand attempted to gain admittance. The Hon. Wm. Foster look the chair and addressed the meeting. Resolutions approving the course of the national executive in relation to the bank were read, received with enthusiastic approbation, and ordered to be printed. A call then became general for an acclamation, and the meeting was adjourned to assemble again at Faneuil Hallon the evening of the Tith.

We learn by the Boston Commercial, received by yester

day's mail, that the adjourned convocation of this meeting on the 13th was crowded to excess. Long before 7 o'clock (says that paper,) "the galleries, lower floor and stairways wele filled by the "bone and muscle" of the community, and in the street there were at least a thousand people pressing in the street there were at them the street there were at them the street there were at them the street them and street them the street of the street are and the street of the street of the street. The total sum and the street is an above the said corporation. And the street of the been mable ourselves to obtain a good place in the hail, we are ignorant of what was said by the speakers. We understand, however, that the meeting was addressed by Messrs.

Adams, Howard, Green, Buffington, O'Brien, Lovell, James, of corn were carried away from the ground floors, and ma-Thomas and other gentlemen, and that the resolutions were my thousand quarters of grain have been duraged and adopted by acclamation."

A few days ago, the Bulletin of this city, published an ar ticle with comments, headed the Kitchen Cabinet and the authorship of the paragraph in question. Fearing that the Bulletin willanot have liberality or candon enough to do justice in the premises, we have transferred the Globe's disayowal to our columns:
"The editor of the McLean Intelligencer, (Philadelphia,)

heads an article "The Kitchen Cabinet against the Mer-chants," and ascribes to the Globe a paragraph which, we believe is to be found in a New-York letter, and then makes believe is to be found in a New-York letter, and then makes his comments as if it were written editorially by us.

This is therefore merely to give public notice of the fraud, and we leave the public to decide upon the moral principle that presides over a press that is guilty of such flagrant imposture.

It is said that the signs in Washington justify the conclusion that the lengue between the two opposite factions, nulliflers and nationals, will be dissolved. Webster, it is intimated, has been too quick upon the trigger. His move in the senate for prolonging or re-chartering the bank has alarmed those of his worthy associates under the lead of the modern | misery must have ensued! Cataline. They are startled and afrain to proceed forther. Mr. Webster has opened the eyes of the generous but too confiding Virginians. Their minds must now be convinced that the hubup that has been created about the removal of the deposites was only intended as a locum tenens to the rechartening of the bank. The mist is clearing off, and the sophistry of demagogues can no longer deceive any but those blinded by the most, vindictive temper or, the grossest stupidity. The plain and unsophisticated question is, a corrupt and powerful monied aristocracy, capable of blusting the for-Znines and destroying the liberties and political and social rill privileges of the people, or no such dangerous and subscraize

LATE FROM SPAIN, VIA HAVANA.

By the polocre Tres Amigos, from Havana, we have toceived regular files of paper to the 15th march, containing advices from Cadix to the 6th and Madrid to the Let february. All we have observed of the slighte t interest is that the Queen and her minister are activity engaged in preparatory measures to convoke the Cortes. Peace, interrupted only by a few skirmtshes, reigns throughout Spain, and orders to a great extent prevails. The indications are highly favorable to the course of liberty and free principles.

Thomas Biddle's loan at the mother Bank of the U.S. is said to be one million one hundred thousand dollars!

The literary world are not yet to have the secret of the uthorship of Janids. Lord Greenville has clongated, (as Mr. Webster would say,) public curiosity until the death of the Duke of Buckingham, by express instruction to that elfect before his death .

LATEST FROM ENGLAND.

GHARLESTON March 21.
We received yesterday the Lundon Counter of the 7th rebruary, brought by the big Gottfried, arrived from Bonen, via framegate, from which latter place she sailed on the 10th February.

We find no news of impuriance in this paper. Extracts LONDON, Feb. 7.

The explosion which has taken place in the helphtorhood of Geneva, and the silly attempt of a few Poles to have a fray, and perhaps to establish after the manner of the aucient Normans, a sew kingdoin of Poland in the mountains of Surveyand chit Normans, a saw kingdoli of Poland in the mountains of Switzerland, which was yesterday mentioned, has turned out a signal failure. We learn from the French papers of this morning, that General Rejmaring and his troups, reduced to 60 men, laid down their arms on the morning of the 5th, near Carouge. The explication, according to the telegraphic despatch, dissolved itself. The days of the crusades, or of that puriod when a hand of rovers could found a kingdom, are passed away. There is now no place in the world for those who will not dove and who, will not entitle to some of rious industrious classes, and who will not settle to some of those occupations by which the combined labous of the whole sur Lim society. Those who will perset in living by traditionary rules, and will not fall into the great system of oroductive industry which now combines the whole civilized world, will be cast side and perial. Like the Indians, they are dooned, we apprehend, in puss many. We just the Poles, but there is now no employment for a condottier.

Poles, but there is now no employment for a condottler.

The French papers bring as some further news from Madrid, amongst which, the most important is the mission of Count Torno to Santarem, to require the expulsion of Carlos from beneath the protection of Miguel. The Journal des. Débats says—"That the convocation of the Cortes has been settled as a principle, but it remains to dengermine the basis of the assembly. It is known that they will be composed of two Chambers. The first will be composed of the Nobility and a pairt of the Bishops. As to the second Chamber the question is to settle the condition of its election. The sid laws only supply on this point an incomplete guide. One sixty-one towns chiqyed the right of electing a Deputy, and this nameer is now logate insufficient." Madrid continued tranquil on the 20th, though a slight disturbance had taken place at Malagn.

SALES AT THE NEW-YORK STOCK EXCHANGE, MARCH 15. 300 shares U. S. Bank, 5 do. Bank of America, 70 do N. O. City Bank,

From Benjamin Levy's New Orleans Price Current March 29. COTTON.—The increased difficulty in negotiating Bills on Europe and the North, has suspenden operations for the last few days; the reduction in the fats of Exchange has its corresponding effect on prices; and the market, at this moment, and during several days, has been dell, in conse-quence. We continue to quote at former rates, because no sale at a reduction will authorize a change; but we repeat the remarks of Brokers, who say that the rates last quoted would be very difficult to obtain; indeed, some go so far as o say that they are normal. The principal operations, prior to the stagnation, are, viz. 700 bales, at 12 1-24 90 at il 5-8; 17 at 11 1-4; 64 at 12 1-2; 64 at 14; 21 at 13 1-2, 500 at 13; 23 at 11 1-4; 261 at 12; 134 at 11; 23 at 12; 11 at 13 1-2. 2:0 at 13 a 13 1-2; 150 at 14; 21 at 13; 40 at 12 1-2; 150 at 13; 57 at 13; 65 at 14 1-2; and 35 at 11 3-9—all of Louisiana, Mississippi; of Alabama and Tennessee, the following, viz: ---; 50 nr 13; 00 nr 10 1-4; 450 at 10 3-4; 220 at 1 1-2, and 600 bales, rate unknown; Choice Cotton has bro't a fraction over our highest quotations; and, notwithstanding every thing, this description monitains its price. Arrived since the 21st instant: of Louisiana and Mississippi 9809 to doe; Tennessee and North Alahami 3309; Florida 209; Teva, 118—together, 13577 todes. Cleared, in the same time: for Liverpool, 8309; Havre, 1977; New-York, 230; Portsmouth, 711; Buston 1131—together, 12005 bales—making an addition to stock of 912 bales, and leaving on hand, inclusive of all on shipe food on cleared or the 27th costant a six of all on shipe food on cleared or the 27th costant a av. of all on ship-board not cleared on the 27th distant, stock of 103,429 baies.
