OFFICE OF THE LEHIGH COAL AND NAVIGATION COMPANY, Philadelphia, January 13, 1834.

I AM directed by the Managers of this Company to communicate to their friends and customers abroad, the terms and conditions upon which they propose, during the shipping season of the year, to receive coal, and other articles, for the account of vessels, at the Company's wharves on the Delaware, either in Philadelphia or at Bristol above the city, as may be most convenient for the Company, when vessels shall apply for loading.

Price for any quantity not less than 50 tons, and 1,000 bushels of hard coal, \$1.40 per ton; soft coal, per ton, \$1.20; 2,240 lbs.; 1000 bushels upwards, \$1.75 for hard, and \$1.25 for soft.

The above named prices the coal will be carefully weighed before shipment, but if taken unranked on the coast salt from the mines, the price will be 25cts.

For any quantity not exceeding 100 tons, payment to be made on the 1st November, 1834; above that quantity, one half on the first November, 1834, the other half on the 1st January, 1835.

The character of the Lehigh coal is well known, the

it is not deemed necessary to submit any recommendation.

It is sufficient to state, that for power

grabs, steam and military uses, no coal is more generally

used in this place, while as fuel for steam engines, for melting, heating, brewing and dyers' purposes, nail-works, foundries and rolling and setting mills, it has the preference of any of its greater durability and cleanliness, to the extent of more than two thirds of the aggregate consumption of authentic coal for those purposes in Philadelphia and its vicinity.

The coal, soft coal ignites more easily and burns more freely than the hard—and on that account is preferred by many consumers.

In case vessels are to take in a port, they will be towed in from two to three hours, by the Company's steamboats, without expense to the Captains or owners, and when loaded will be towed down the same way, also free of charge.

Every exertion will be made to give vessels the utmost possible protection.

It is to be understood that they must take their regular time to load—and no claim for demurrage should they wait for their turn, or claim for any other cause beyond the Company's control can be allowed. The Managers, however, believe that the facilities possessed by the Company this year, will enable them to conduct their business with increased regularity and despatch.

No advantage of time gained by delay, it is represented, should be taken; orders should be sent early in the season, when freight and insurances are generally obtained on the best terms.

With every disposition to accommodate their correspondents, the Managers will use their best efforts, as before, to procure vessels, when so requested, on the lowest terms, but they would recommend that their customers should engage vessels for themselves whenever practicable.

The Managers have further directed me to say that, should we make any reduction this year from the prices for the export trade, named in this circular, persons giving previous orders shall receive the benefit of such reduction.

At the same time, the Managers do not urge themselves from advancing the price with the advance of the season, should they deem it expedient; but orders accepted will not be subject to any advance.

Yours, with respect,
J. R. PUTNAM, DENTIST.
