SUPPLEMENT TO
# THE BEE.
FRIDAY, FEBRUARY 6, 1835.

*FIRST SESSION—TWELFTH LEGISLATURE OF THE STATE OF LOUISIANA.*

## JOURNAL OF THE SENATE.

### TUESDAY, January 20th, 1835.

The Senate met agreeably to adjournment.

Members present: Messrs. Charles Derbigny, president, Bossier, Brownson, Dupre, Hoa, Labauve, Labranche, Lacoste, Maddox, Moore, Reed, Saunders, Tenney, Tete and Thomas.

Agreeably to previous notice, Mr. Labranche introduced a bill entitled 'An act to incorporate the congregation of the Roman Catholic Church in the parish of St. Charles, county of German Coast, Road,' the first time.

Mr. Hoa presented a memorial from several physicians of the city of New-Orleans praying to be incorporated for the purpose of establishing a Medical College in the city of New-Orleans with the right of conferring Medical Degrees, and representing the advantages of such an institution.

Mr. Hoa at the same time, introduced a bill entitled 'An act to create a body corporate under the name of the faculty of the Medical College of Louisiana.' Read for the first time.

On motion of Mr. Tenny leave of absence for a few days was granted to Mr. Nicholas.

Mr. Labranche, chairman of the committee of enrollment reported as duly enrolled the preamble and resolution relative to the proceeding of a grant of public land from the general government for the purposes of public education, the secretary was directed to take the resolution to the House.

A message in writing, from the governor, was brought by Mr. E. Wiltz, his private secretary.

Mr. Labauve on part of the committee to whom was referred the bill amending the code of practice reported a bill entitled 'An act to amend the code of practice and the act entitled 'An act further amending the code of practice, approved 25th March 1831.' Read for the first time and on motion of Mr. Hoa, ordered to be printed.

Mr. Hoa, on part of the committee to whom was referred the petition of the citizens of New-Orleans, praying to be incorporated as the Fireman's Charitable Association, reported and introduced a bill entitled 'An act to incorporate the Fireman's Charitable Association of New-Orleans.' Read for the first time.

Mr. Saunders, on part of the committee to whom was referred the petition of H. A. Bullard in favour of F. and T. Harris, deaf and dumb orphans, made the following report, and introduced a bill for the relief of said orphans, which was read for the first time.

The committee to whom has been referred the memorial on behalf of J. and F. Harris, deaf and dumb boys, belonging to the parish of St. Landry, and now under a course of instruction in the Pennsylvania Institution, for the deaf and dumb at Philadelphia,

REPORT: That they have enquired into the facts set forth in the memorial and are satisfied that the two youths in question are worthy objects of legislative interposition. They are deaf and dumb from nativity, aged at this time, the older about thirteen and the youngest about eleven years, and destitute not only of the means of instruction, but even of existence. During the last year they were maintained in the institution by the contribution of a few charitable persons and have made great proficiency. The fund provided for them is now exhausted and the mother is without means to support them.

The Legislature has acted wisely in appropriating annually large sums for the education of the indigent with a view to develope the moral and intellectual capacities of the rising generation in spite of the disadvantages of fortune; surely the unfortunate subjects of this memorial, who are wholly destitute, curtailed by nature of her most precious gift and thrown upon the world by a heartless father, cannot appeal in vain to the representatives of a generous people. They are incapable of profiting by the ordinary school fund on account of physical defects, but by the system of instruction for which the world is indebted to the Abbe Sicard, amongst the most brilliant triumphs of genius and philanthropy in modern times, they may hope to become not only men of cultivated minds, but useful citizens. The most accomplished lithographic engraver of the Union at this time is a young man deaf and dumb and destitute, who was adopted by the State of Pennsylvania and educated in the same institution in which the boys in question have been placed.

Many of the States, guided by an enlightened philanthropy have made provision for that unfortunate class of their population, either by the endowment of institutions for their education or furnishing the means of support and instruction in those established in some neighbouring state. Your committee would be disposed to make a general provision, but as they are not informed of any other persons who would be disposed to avail themselves of such provision at this time, and as the case which is now presented appears urgent; they recommend an appropriation for their immediate relief, and report a bill accordingly.

A message from the House, by Mr. A. Pitot, their clerk, informed the Senate that Messrs Winn, Augustin and Milligan had been appointed on the part of the House on joint standing committee, to superintend the public library; that the House had concurred in the resolution appointing a joint committee to visit the penitentiary at Baton Rouge, and that Messrs. Lawson, Bickham, Bienvenu, Brazeale and Lavergne had been appointed on the part of the House; and that the House had concurred in the resolution from the Senate, appointing committees to examine the different banks;—and that the committees had been appointed on part of the House, as follows:

The Grande Terre Island offers immense advantages for every kind of cultivation. The sugar cane grows there to perfection, and acquires a degree of maturity which is no where else met with, and they are not so much exposed, as in other parts of Louisiana, to the effects of cold weather. The grinding is now progressing, and there is a prospect of upwards of three hundred hogsheads, with the very small force above mentioned. It therefore must be expected that, with a larger number of hands, an immense crop of sugar or cotton may be made. The site is salubrious, and suitable for fishing on a large scale.

Terms—The plantation, slaves, cattle, &c. will be sold together, payable at 1, 2, 3, 4 & 5 years, the first payment to be made on the first of February, 1838, in endorsed paper, approved by the Consolidated Association of the Planters of Louisiana, secured by mortgage.

4. A sugar plantation on the right bank of the river, in the parish of Plaquemines, at a distance of about 7 leagues below the city. It contains 30 arpents in front, with a depth of 40, and is bounded above by Nicolas Reggio's plantation, and below by that of Mr. Gretna. On the premises there are a sugar house, dwelling house, and other improvements.

Also,—horses, oxen, sugar utensils, and other articles belonging to the plantation. There are about 300 arpents of land fit for the cultivation of cane, and about 30 arpents are now planted with stubble.

Terms—1, 2, 3 & 4 years, the first payment becoming due on the first of April 1836, and so on from year to year, until April, 1839. The whole in endorsed paper, approved by the Consolidated Association, secured by mortgage.

The purchasers of the above described property will not be put in possession until they have complied with the conditions of the sale, but the whole will not be put in possession until they have complied with the conditions of the sale, but the whole will be at their risk from the time of the adjudication. jan 23
