STATE PAPER.
THE UNION—IT MUST BE PRESERVED.

SUNDAY MORNING, AUGUST 11, 1834.

THE GENEALOGY OF THE HOUSE OF CARLWELL.—We felicitate Mr. Caldwell upon the plotters who attended the trial of his case were last evening. Undaunted or assisted, having the greatest possible to surmount, he has persevered with an ardently noble, risking fortune and in fact every thing else, the accomplishment of his great enterprise—an enterprise which entitles him to the everlasting gratitude of his fellow citizens. We share with him his triumph, for a great and it is a triumph of light over darkness, of science and the spirit over ignorance and prejudice.

The greatest advantage must be seen by the introduction of the city oil, indefinitely as it is done. From comparative cheapness of gas and its greater brilliancy, using fewer lamps necessary, a considerable portion of money will be saved. Storkeepers and others may also purchase the privilege of keeping it, and we may also anticipate that a great part of the business now transacted in the day, will be transacted after dark, if the least arrangement is shown for such an arrangement.

THE NEW BRICKING ONSIDE.—It would at length appear that the plan of this discussion produced by the selection of a barreying ground, has finally terminated.

A Mayor, at a resolution of the City Council, placing a deposit \$30,000 for the purchase of the necessary ground at a place on the Bayou Road belonging to Mr. Moore, for \$45,000.

It is proposed to make a road to the same the whole length of Canal Street, and to have it paved, thus making the sidewalk more than one-half of what it is present.

It is to be hoped, that the Mayor will lose no time in making the arrangements necessary to prepare the place for a

LATE FROM MEXICO.

We have Tampico files of papers by the schr. Bonito, of the 10th of July inclus. Tranquillity has again been restored in Mexico. St. Louis de Potosi has had declared that the President has submitted to him under the benc-

of a capitulation. A negotiation has been sent from Puebla to Santa Anna, for the purpose of making a capitulation. On the 19th ult., it was on the eve of surrendering.

General Quintana, who was besieging Puebla, has been wounded.

Venadillo has surrendered.

General Cortez and Barragan were marching towards Tlaxco, which place it was anticipated would immediately become the scene of hostilities.

The cholera was prevailing at Oaxaca, Mexico and other parts.

The governor of Mexico has issued a decree disposing the Vice President of the Republic, Faria, from his office. The same decree likewise suspends the law of transients, and places orders to turn him to that country.

General Maza has been nominated as a prisoner of war to Mexico. Russell, another important personage in Mexican affairs has fled to Tampico.

We find nothing more in our papers of interest. The civil war though apparently closed, may be expected to break out again shortly with renewed vigor. Our distrustful neighbors seems destined never to enjoy the sweet blessings of peace and tranquillity.

The Argus, after a painful and lingering illness, and experiencing every vicissitude of fortune, was satisfied by its physicians, those who kept it in existence, to expire on Thursday last. Its author, P. J. P. Langdon, has passed into a new hemisphere called the Wind. We do not know whether the poor delict was afforded the sad consolation of confessing itself of its manifold transgressions against truth, decency and propriety, at least no dying confessor appears to justify a contrary conclusion.

The new paper, is to be, we are given to understand, equally as hostile to the administration as the old one, and as ready to conjure up phantoms to alarm the people with. We have no doubt but that the zeal it manifests will be in the ratio of the bon bons it gets from the black people, w^o is special mouth-piece, as its name would indicate, it has been constituted.

The signs of the times in Virginia are very cheering, and little doubt can now be entertained but that the Old Dominion will be found, notwithstanding the misions efforts of us, in making itself against him, and the reactions elsewhere are by no means law or moment. But what we regard as the greatest triumph, is that the venerable and beloved Madison, the friend and companion of Washington and Jefferson, die a gentle death in this interesting era, as nearly as man can, has ranged himself under the banner of the people, and has given voice of warning to those who appear ready to worship the shrine of a dangerous and corrupt monopoly.

Reported for the Bee.)

MUNICIPAL PROCEEDINGS.

Sitting of the 9th August, 1834.

Mr. Merkerin the chair. Messrs. Caldwell, Montague, Dixon, Pedersen, McCready and Schmidt.

The process verbal of the preceding sitting having been read, the secretary read the following letter from the Mayor.

Mayoralty of N^o. Orleans, 9th. Aug.

To the Recorder and Members of the City Council:

I have the honor to inform the Council, that in consequence of the Resolutions passed the 31st July, authorizing the Mayor to act with Mr. Evans Diane for the ground intended for a cemetery, that he offered to sell to the city, on condition that the price would not exceed \$50,000.

I have purchased the same from said Diane for the sum of forty-five thousand dollars of thirty years date on the corporation, and a yearly interest of 5 per cent, on the payment of which the city treasurer for the sum of 50 cents, twenty four hundred of which come from the note furnished by Mr. Caldwell, the reimbursement of a loan made him by the corporation, and \$42,500 50 cents of the sale of Lord's loan. The sum of 50 cents counted to me by Mr. Caldwell for the sum of twenty five thousand dollars, have been paid by me at the disposal of the city treasurer.

I am gentleman, respectfully your most obedient servant,

DENIS PRIFER.

Mr. Montague presented a report upon the subject of the Carrollton Rail Road Company, permitting the establishment of rail-ways, under certain restrictions and conditions.

On motion of Mr. Schmidt, made the order of the day for the next sitting.

Mr. Pidcaulx offered a resolution, permitting members to add sections to the map, and before the council.

Made the order of the day for the next sitting.

Mr. Pidcaulx proposed a resolution allowing only 50 cents due to the Charity Hospital, for every patient above the number of 250.

Made the order of the next sitting.

Mr. Schmidt moved to the appointment of a committee on hiring guns, to assist the Major in selecting proper persons for the purpose, &c.—adopted.

Mr. Schmidt, Pidcaulx and McCready were named members of the said committee.

Mr. Pritchard offered a resolution authorizing the Mayor to pay into the Comptroller, Boston \$5000 interest due that bank, on condition that he be bound to fall from New York, and the packet ship Boston, on the 24th of June.

The free, imperial city of Frankfurt had been entered and taken possession of by troops of the German confederation, under command of an Austrian General.

Senate had protested, and the English newspaper announces the act as unusual for and of the most arbitrary description.

RUSSIA AND TURKEY.

There are some accounts of difficulties having arisen between Russia and Turkey, relation to the frontiers which are to divide the two countries, and Russian troops have, it is said, advanced beyond the line stipulated in the treaty. There are also rumors of a war between Russia and Persia.

The Earthquake of Santa Martha.—A letter from Santa Martha, South America, dated June 15, says—“the third of the houses had been thrown down by an earth-quake, and of the rest, a half were made uninhabitable. The tower of San Domingo was demolished, and the tower of the Cathedral remained. Nineteenth of the inhabitants had left the city. The desolation of its appearance was extreme. The shocks still continued, up to the 15th. There had been twenty or eighty during the period of twenty-four days.

NEW-YORK, July 26.

VERY LATE FROM EUROPE.

The intelligence from Europe has crowded upon us during the week in an unusual degree. We have now to announce the arrival of the packet ship Rhone, Captain Rockett, from Havre, having sailed from Liverpool and the packet ship Boston on the 24th of June. Our London dates are 24th, 25th and Liverpool of the 24th.

The events that have transpired since our previous dates are doubtless of local importance; but can possess but little interest on this side of the Atlantic. We shall print them under their appropriate heads.

ENGLAND.

The British Parliament had been principally occupied in discussing the subject of Titles, the Poor Laws, and the various University houses upon dissenters. An important bill was introduced by Mr. Grey, to regulate the election of members of Parliament, and to provide for the removal of the existing abuses.

On motion of Mr. Schmidt, made the order of the day for the next sitting.

Mr. Pidcaulx offered a resolution, permitting members to add sections to the map, and before the council.

Made the order of the day for the next sitting.

Mr. Schmidt moved to the appointment of a committee on hiring guns, to assist the Major in selecting proper persons for the purpose, &c.—adopted.

Mr. Schmidt, Pidcaulx and McCready were named members of the said committee.

Mr. Pritchard offered a resolution authorizing the Mayor to pay into the Comptroller, Boston \$5000 interest due that bank, on condition that he be bound to fall from New York, and the packet ship Boston, on the 24th of June.

The events that have transpired since our previous dates are doubtless of local importance; but can possess but little interest on this side of the Atlantic. We shall print them under their appropriate heads.
