

THE BEE.

PRINTED AND PUBLISHED DAILY, BY
JEROME BAYON,
STRADE PUBLISHING.

THE UNION—AT MURRAY'S PAPERWORK.

WEDNESDAY MORNING, DEC. 10, 1834.

The sale of property belonging to the New Orleans Building Company, commenced yesterday by Isaac L. McCoy, auctioneer, sold as follows:

The 13 lots of ground, at the corner of Annunciation and Edward street, sold for \$500 to 750 each.

The 7 two story brick dwelling houses at the corner of St. Thomas and Edward st., sold for \$350 to \$400 each.

The 26 lots of ground in Tchoupitoles, Louisi, Pearl and Desire st., sold for \$250 to \$350 each.

The 9 three story brick dwelling houses and stores at the corner of Tchoupitoles and Desire st., sold for \$5,000 to \$10,000 each.

The 8 three story brick dwellings at the corner of Carondelet and Desire st., for \$12,000 to \$15,000 each.

The 12 lots of ground in Triton st., sold for \$100 each.

The 10 do on Baron st., sold for \$125 to \$135 each.

The 1 do corner of Julia and Phillips, paid off for \$1700.

The 14 three story brick stores, and 10 lots of ground on the triangle will not be offered until Friday the 12th inst., at 12 o'clock, at the Exchange Coffee House.

We are requested to call a meeting of the general committee of the democratic party for Thursday evening next at half past six o'clock.

We are also requested to call a meeting of the Bell Committee for the same evening, to take place immediately after the meeting of the general committee. Punctual attendance is solicited.

A reward of \$500 is offered in our paper of to-day, by Mrs. Warton, Littlefield & Burgess, a committee of the Presbyterian congregation, for the arrest and conviction of the villain who assaulted and beat Thomas Dimmick, Esq., a merchant of our city, under the pretense that he had expressed himself opposed to the residence of the Rev. Parker among us.

Have not been made acquainted with the facts relative to this most disgraceful outrage, and therefore feel ourselves authorized to draw any conclusion. We know that the energetic measures taken by the committee will result in bringing this nefarious transaction to light.

A morning infer from the re-election of Gov. Swain, that North Carolina is opposed to the present administration. What has the gentleman to the re-election of Redfield Brown, the uncompromising personal and political friend of president Jackson, to the senate of the United States from that state? Does he think that one in a test of public opinion, and the other is not? Unfortunately he will find himself in a dilemma should he assent to this proposition. Both elections proceed from the same body, the legislature, and it is well known that Gov. Swain used his personal exertions against the re-election of Mr. Brown on the score of political principles. The only natural inference which can be drawn from the result is, that the democracy of North Carolina like the demerit throughout the union, will never promote a man solely because he may happen hasty to differ with them in politics.

Some hints are given out of the necessity of organizing the whig party in the city and state, and of getting up a sort of political convention. Our opponents are unquestionably the most inconsistent set of politicians in the world. Who can forget their numerous philippic against the proposed secession of the democratic party at Baltimore, and the frequent rants of abuse directed against what they call the Tammany Regency in N. York. But these honest gentlemen would now not only have an accorded Convention, but would also establish an Albany regency or some other worse regimen than which they represent that association to be, in this state. They would have power and patronage, and secure the favors and fables of the general as well as the state governments.

The New York elections and the triumph of our cause elsewhere, have scattered "the party" heter skier like so many scared sheep, and it is very doubtful whether, with all the exertions of the supremes, they can again be united.

Reported for the Bee.

MUNICIPAL PROCEEDINGS.
(Concluded.)

Upon the second part of the Mayor's letter, the following was published in the Bee:

"Bounced. That from and after the 1st of January, 1835, the merchants of hawkers and peddlars shall not occupy in the vegetable market any other places than those that may be designated by the mayor, and for which they shall pay twenty-five cents per day, and each peddler, for the use of the market, the sum of one cent for the merchandise of vegetables. It is well understood that dry goods, jewelry, vestments, furniture, shoes, hats, and crockery shall no longer be sold in any of the markets in this city, nor upon their side walks."

It is further resolved, That the said merchands of comestibles shall always be liable to lose their license to the merchands of vegetables, in case where all the tables in the market are occupied, under the penalty of \$10 for each infraction.

Mr. Mercer presented the petition of twelve polish refugees for a ref.

This petition was recommended by Dr. Antomarchi.

Mr. Mercer in presenting the foregoing petition observed, that it would be cruel to refuse the prayer of the petitioners.

He begged the council to recollect that they were the descendants of Polish, French, and English emigrants.

They are the hon. members, the descendants of Szeki and Polaski. They have fought in the most sacred of causes, they are unfortunate, and we should never turn them, tender them our hand, and the shade of Kosciusko will thank us.

On motion of Mr. Mercer, seconded by Mr. Bermudez, resolved, That \$500 be put into the hands of the Mayor to aid the Polish refugees.

ORDER OF THE DAY.

Mr. Bermudez demanded the order of the day upon an ordinance concerning an office for the city surveyor and his deputies.

Mr. Laubert demanded that this ordinance be printed and made the order of the day for the next sitting—Rejected.

Mr. Mercer demanded that the said ordinance be discussed by article—Rejected.

The first article of the bill, Mr. Mercer asked for its rejection. He said that if the members of the council would only give themelves the trouble to reflect for a moment, they would perceive that it would be impossible for the purpose to fulfill his duties in the character at present occupied by him. That a copy of the bill, and a few duplicates could perform his duties in a chamber twelve feet square, in a chamber elongated for the street twenty-two feet, in short in a chamber which only receives the light by a glass door two feet square. And the hon. member knew that a surveyor could not be expected to have his plan of the city laid out in his pocket in his breast pocket, and he had in a space of twelve square feet four tables of such dimensions. Has he reflected that the most necessary thing for a person who makes plans is light? Is it by a glazed door shielded by a gallery that he thinks that he can be received? If he does not consider that he would be exposed to the fire of the guard, he would find that it can not in a place where the drums beat five or six times a day, where the noise of keys and the clinking of the chains of prisons were heard, that a surveyor could not be expected to have his plan of the city laid out in his pocket in his breast pocket, and he had in a space of twelve square feet four tables of such dimensions.

Has he reflected that the most necessary thing for a person who makes plans is light? Is it by a glazed door shielded by a gallery that he thinks that he can be received?

That a copy of the bill, and a few duplicates could perform his duties in a chamber twelve feet square, in a chamber elongated for the street twenty-two feet, in short in a chamber which only receives the light by a glass door two feet square. And the hon. member knew that a surveyor could not be expected to have his plan of the city laid out in his pocket in his breast pocket, and he had in a space of twelve square feet four tables of such dimensions.
