fon Canam-II you desire ice cream good and cheap call any evening at the Commercial coffee house, opposite

Jaener, in search of a father. By the author of Peter Simple, 'Jacob Fathful,' etc: Philadelphia, Carey and

Bart; New Orleans, Botchkiss & co. This is one volume of a novel by Capt Marryait, now pub licked in monthly numbers in the Metropolitan Magazine of London; and although unfinished, such has been the raptures with which it has been received on both sides of the Adantic the Philadelphia publishers are justified in issuing the volume: ar it will be purchased by all who love a really goo

We have with pleasure read it in the N Y. Albion, regularly reprinted as published in London; and can sincerely recommend both the Ausions and the novel to our readers.

The victims of the mob laws Vicksburg and Natchez, etc; were the subjects of various rumors yesterday in this etc; were the subjects of various rumors yesterday in this court granted to D. F. Burthe, president of the mayor and the carried that notwithstanding the injunction of the particular that notwithstanding the injunction of the particular that notwithstanding the injunction of the particular transfer of the Carrollion rail road company. movel, full of amusing incidents, well narrated.

cuyer le the early part of the day, we heard that not less thanes flet host loads of them might shortly be expected; but in the evening we heard that those ejected from Natchez had retracked about 10 miles below that place waiting the ascend, ing of steemboats to take them up the river-

Should they arrive here as generally apprehended, precau tionary measures should certainly be adopted but of a conatifutional and legal nature; and happily the laws on vagrancy ju this state are sufficiently rigid to promote order in our community without resorting to that species of mob law which has both dignified and disgraced our fellow citizens of

The mayor of the city has taken precautionary measures to far as he e legally an horized in the arrangements and distribution of the poly; and fortunately the citizans of New Oricans are secolved to promate by their assistance all the lenergetic means of prevention permitted by the lenergetic means of prevention permitted by the laws.

Resolved also that the Carrollion rail road company.

Resolved also that the Carrollion rail road company.

We have been requested to call a meeting for the purvillainous outcasts or suspicious idlers. The meeting will be this evening at Banks' Arcade, at So'clock precisely.

have been singularly deficient in their exertions to promote the colonization and internal improvement in Louisians, by the colonization and internal improvement in Louisians, by the sengtance of the general government—whose duty and the sengtance of the general government—whose duty and thousand the major be an thousand the major be an analysis of the sengtance of the general government. the assistance of the general government—whose duty and thorized to place twenty city guards at the dispositive transfer interest it certainly is to promote those improvements for the city surveyor to protect the labourers employed sake of enhancing the value of the public lands unseld in this the corporation in the removal of said rail road

Yesterday we remarked on this subject; and proved-or endeavored to prove that at an expence of \$500,000, the

we may credit the experience of the most scientific persons; am very respectfully, &c. the practice has been to close the hayous and by levees enclose the river, while policy suggests that every means of eatlet of navigation should be afforded to prevent inundation. A terrent stemmed must in rapidity overflow its banks: and the torrents of the Mississippi-from the freshets in the different regions of the valley pouring its tributaries-are as much enhiect to the laws of nature, as those of any other river. Nay the floods of the Mississippi are more subject to the

sable for eccuring their immediate possessions from inunda. tion, as the raising embankments or levens of earth. These storeing the overflow reclaimed a slip of land on the banke; gone in pursuit of the Indians hey were but 'few and far between,' they might be advantageous for the immediate occupants without being detrimental to the country at 'arge. But when the levee system was one, as from the combined body of waters so clavated i height above the lands, so confined in their course and can centrated in their efforts. Hence the dreadful crevasses that have occurred, and threaten still destruction to all the plan-

leans-or rather should be demanded by them from the general government. That bayou is laid down on old maps as the river Iherville, hec use he discove ed it when eent here by the from Baron Rouge, and thence across the lakes Maurepa-

that ebetraction is illegal as well as impolitic: for by the treaty of Louisiana, as well as the constitution of the United States government was bound to continue open the navigation of all rivers. All treaties heing parts of the laws of the fact, that a man by the name of Wood had direxportedly nations, the general government is imperatively bound to open inherited the sum of twenty-seven thousand pounds attering hadronathed to him he same friend in Rusland. It appears the natigation of the river Iberville, and the pass Manchae

Bound therefore alike by treaty and the constitution, by

It is indeed true that the legislature of this state ordered an appropriation for an embankment at the junction of the Iber_ wille with the Mississippi; and shamefully true that it was at the solfish suggestion of some three or four individuals of Galveston: but it is still true that the obstruction of the navigntion was impeded for the purposes of the general government; and that the embankment may be considered but as a temporary consequence of that obstruction; and should and must be removed when congress shall be prevailed on to do justice to Louisiana. But was not Gen Thomas, representative to congress, immediately concerned in ordering the felling of trees to form the raft of obstruction! and shall not his constituents demand his aid in congress to have the obstruc-

by our last legislature is their ordering several embankments of the raised, and various bayous to be closed. Our wisescrees of the legislature seem but as pentioggers acting for their clients and have fearfully set work forward in particular they notice that on a first view clients and have fearfully set work forward in particular they actually act mensaling an actual on the position of the result of the position of their fear actually act work forward in particular they actually set work forward in particular they actually act work for ward in particular they actually act only actually act of the result of th

One of the best articles in Cochrane's Poreign Quarterly ef the waters consequently raised several feet shove that of the land, the injury to all the back regions became evident. engaged at various times in writing his memore, which it onhiless, as well from his powers of style as from the great vents in which so has been a conspicuous actor, will be of rare interest. They are not to be given to the world will after his death. Their illustrious author however moved by the action of a large organ of 'love of approbation,'—an organ ever found prominent in the author's cranium however his other organs may be outlifted to bring it are iffective. tations on the casst, immediately above and below New Orleans—at what moment none can foretel nor forefend. If the citizens of New Orleans will reflect seri unly on this subject, they will see the awful predicament in which they staid; they will perseive that if the 'awarma surrounding the city were not originally caused by this confining and closing system, that at least they have been increased and continued by the perpetual cozing of the waters along the river banks and from the closed bayour; and that pertians wall their efforts of a merely lecal nature to drain the awarms will be recited. and from the closed bayour; and that pertiaps all their efforts of a merely local nature to drain the swamp will be useless so long as proper irrigation is no: afforded to the Mississippi by multiplying and enlarging its outlets.

An entiet by the bayou Manchae is one of the remedial measures that should be adopted by the citizens of New Orlands and capt John F Hunt.

An entiet by the bayou Manchae is one of the remedial measures that should be adopted by the citizens of New Orlands and capt John F Hunt.

An entiet by the bayou Manchae is one of the remedial measures that should be adopted by the citizens of New Orlands and the manufact by the property and the first that the same that the measures that should be adopted by the citizens of New Orlands and the Manufact the measures that should be demanded by them from the control of the treat that extract the assessment than the control of the he fountains, the very atmosphere appeared assigned to a serverption of the great event which was approaching, and to French government in the early ages of the colony of Lou-isiana; and with his squadron passed through it on his return extact I be be seen a pitch of admiring extact a part of admiring

and Posteharizain to the gulf. The navigation of that river continued open till obstructed to prevent the egress of the British ships, some of which had arrived at Galveston, situated at the configuration of the interest o convent clock that struck the hour s convent clock that struck the hour seemed to say at every troks —'Tis for you but not for him.'—Balt American,

A noble act rewarded. We a short time since publishe interior the sum of twenty-reven thousand pounds starling inherited the sum of twenty-reven thousand pounds starling hequesthed to him by some friend in Rugland. It appears that the fortunate person is Mr Joseph Wood, of Trenton, in this state, and that the bequest was made under the following circumstances:—Several years ago, the only child of an English gentleman fell overboard from a stemmboat in the Defense. perform their duty to their constituents; and demand an approp istion from congress to open the navigation of the river. Thereits and the pass between the lakes Maurepas and Pontite that it is a more than the pass between the lakes Maurepas and Pontite that it is a more than the pass between the lakes Maurepas and Pontite that it is a more than the pass between the lakes Maurepas and Pontite that it is a more than the pass between the lakes Maurepas and Pontite that it is a more than the pass between the lakes Maurepas and Pontite that it is a more than the pass between the lakes Maurepas and Pontite that it is a more than the pass between the lakes Maurepas and Pontite that it is a more than the pass between the lakes Maurepas and Pontite that is a more than the possible pass between the lakes Maurepas and Pontite that is a more than the possible pass between the lakes Maurepas and Pontite that is a more than the possible pass between the lakes Maurepas and Pontite that is a more than the possible pass between the lakes Maurepas and Pontite that the possible pass between the lakes Maurepas and Pontite that the possible pass between the lakes Maurepas and Pontite that the possible pass between the lakes Maurepas and Pontite that the possible pass between the lakes Maurepas and Pontite that the possible pass between the lakes Maurepas and Pontite that the possible pass between the lakes Maurepas and Pontite that the possible pass between the lakes Maurepas and Pontite that the possible pass between the ters of reward have since been imade to Mr Wood, which have been made as constantly refused by him, on the ground that he had done more than his duty, and a conscious feeling that a worthy action carried with its own neward. The gentleman, however, who recently died, could not forget the noble disinterested conduct of his child's life; and on ones ing his will, it was found to contain the above munificant bequest, of which Mr Wood has been duly horrised. Truy

Curlous Fish pond.—At port Nessock, in Wigtonshie, a large salt water pond has been formed for cod. It is a basin of 30 feet in depth and 180 feet in Circumference, hewn out of the solid rock, and communicating with the sen by one of those fissures which are common to bold and precipitous coasts. Attached to it is a neat Gothi cottage for the accommodation of the fishermen, and the cock is surmounted all around by a substantial stone constituents demand his aid in congress to have the obstruction removed at the expense of the government? For our
own part we may say that welconfidently expect the interposition of Mr Gayarre on this subject: and the assistance of
coloriel Benien. We may also expect the aid of judge Porter,
as it is a matter of serious importance to the weifare of a large
portion of his constituents.

Creara-ses are now more likely than ever to threaten destruction to New Orleans, from the accomplated evils of the
leves system new so ishoriously and expensively proposed
by odr last legislature is their ordering several embank ments
to be raised, and various bayous to be cheed. Our wisescrees
