MOUNT HOPE COLLEGE.

This college is empowered by charter, to admit its students to any degree in the arts and sciences usually conferred by collegiate institutions. The classes are arranged, which on examination, students can be admitted.

The course of instruction is very ample, embracing the ancient and modern languages; Mathematics, pure and mixed; the Humanities; Chemistry; Mineralogy; Natural and Moral Philosophy; Metaphysics; Botany, &c. &c., in all of which the student will be guided in search after sound and substantial information.

Lectures are delivered in the various branches of Natural Philosophy and Natural History; illustrated by experiments.

The college is about one mile N. W. of the city of Baltimore. It has an elevated and romantic situation. The salubrity of its location is unrivalled.

The grounds attached to the institution are extensive, and furnish ample room for the recreation, and, should it be desired, for the manual labor of the students. Gymnastic exercises are likewise attended to, though not forced upon them.

The utmost attention is paid to the morals and manners of the students. Those whose parents reside in the city, are required to spend Sunday with their parents—those from abroad, such places of public worship as their parents may direct. All sectarianism is carefully avoided.

The government is mild but firm. Should a student manifest an utter hostility to all expostulation, and persist in a violation of the rules of propriety, he will be expelled.

The personal health and comfort of the students, will occupy the undivided attention of the family of the president. In cases of sickness, they will have the same watchful care that would be paid to his own household. Their intercourse with the city is strictly guarded.

The maximum prices for board and tuition,

per annum, is	$200 00

☞ All of which is required to be paid in advance. References can be made to James M. Reynolds, esq. of New Orleans; and Horace Carpenter, esq. of Port Gibson, Miss.

The officers are—

A PRESIDENT.

A professor of the ancient languages and Belles lettres.

A professor of the mathematics.

A professor of the French language.

A professor of the Spanish language.

A professor of drawing; and

A professor of instrumental music.

For the seven years since the institution has been in existence, there has been but one case of severe sickness, and that did not originate at the place.

THE GREAT PERSIAN MAGICIAN.

Mustapha Selim El Hassan, from Ispahan, the former capital of Persia, has the pleasure to inform the inhabitants of New Orleans, that he will have the honor to appear before them every evening.

The exhibition will be opened in the spacious hall opposite the American theatre, in Camp street, over the union house.

Mustapha Selim El Hassan begs leave to assure the ladies and gentlemen who may honor his exhibition with their presence, that they will be delighted & astonished by the numerous and mysterious experiments that will be introduced, and which have been drawn from the mysterious philosophy, chemistry, and magic of the eastern nations, many of which having been handed down from the ancient magi of Egypt and Chaldea, and which have never before been exhibited in America.

Mustapha Selim el Hassan, having travelled through the principal cities of Asia and Africa, and having performed before many powerful sultans, schahs, and rajahs from whom he received distinguished marks of approbation, hopes that his efforts to please will meet with the same success here that attended him in the different parts of the world.

Among the various experiments in the wonderful feats of the black art, by which he will try to astonish every beholder, he will exhibit the flight of the arabian plume and enchanted money; the resurrection of a bird; a Turkish feat of the rabbit and rings, Egyptian pyramids; Arabian feat of the devil in his night gown; the feat of three Bohemian witches—this feat is dedicated to the ladies; African feat of the changeable watches; the invisible glove; Arabian bottle feat, or the enchanted handkerchief; great Turkish feat of the parasol; the Chinese handkerchief feat; the devil's globe, &c, &c.

Price of admission for grown persons, 75 cents; children half price. Tickets can be obtained during the day at the bar of the union hall, and during the evenings at the entrance of the exhibition hall.
