Twelfth Legislature—Second Session.

JOURNAL OF THE SENATE.

TUESDAY, 9th February 1836.

The Senate met agreeably to adjournment.

Members present: Messrs Chas D'Army, president, Bouligny, Brownson, Cuny, Dupre, Hoa, Johnson, Labranche, Lacoste, Lewis, Moore and Mouton.

The president directed to the senate the petition of sundry inhabitants of the city of Lafayette praying for certain modifications in the laws relative to the City Court of said city.

On motion of Mr Johnson said petition was referred to the judiciary committee.

On motion of Mr Labranche the senate reconsidered the bill entitled "An act to increase the jurisdiction of the city court of New Orleans" amended rules dispensed with, the bill read the 3d time, and passed.

The following report of the secretary of state, superintendant of Public Education was submitted by the president, and on motion of Mr Hoa, the report was ordered to be printed:

To the Senate and House of Representative of the state of Louisiana.

Agreeably to the 1st section of the act supplementary to the several acts relative to public education, approved April 1st 1833. I have the honor to submit before the legislature the following report, which has been delayed to this day. Not only on account of indisposition on my part, but also because I expected to receive from the administrators of the parish schools the reports which, according to the 4th section of the act above mentioned, and under a pretty severe penalty, they are bound to make to me in my capacity as superintendant of public education, each and every year, on or before the 31st December, and which would have enabled me to submit a general and complete statement of the situation of those schools. But that expectation which I thought so much the more founded, that at the end of November last, I had transmitted to the parish judges of several parishes, to the persons required to execute the provisions of the several acts relating to public education throughout the state, the printed form which had been prepared by my predecessor, that expectation I say, has been in a great measure frustrated, and of the thirty-three parishes of which the state is composed, excluding however, therefrom those of East and West Feliciana Leving ton, St. Helena and Avoyelles, which by the 1st section of an act approved January 7th 1835 have been exempted from the operation of the law of April 1st 1833, the parishes of Plaquemines, Orleans, St Charles, St James, Lafourche Interior, Pointe Coupee, St. Mary, Carahouley, St. Tammany and Carroll, are the only ones from whence the reports of the administrators of the parish schools have reached me, and yet some of these are so insufficient and incomplete that scarcely any information can be gathered from them.

In the parish of Plaquemines, there are four school having together 74 indigent children educated at the expense of the state, and 25 of whom are above and 49 under 10 years of age. In two of said schools English French and arithmetic are taught, in the two others, arithmetic and French only. The pupils are so far backward in education, that they barely read and spell few of them learning the first elements of arithmetic, and in general they do manifest very good disposition The number of children between 8 and 15 years who receive no instruction may be 60 at least. The parish has received out of the State Treasury from July 1st 1834 to June 30 1835 the sum of $540.

In the parish of Orleans the central school and the two primary schools established in the city of New Orleans, contain together 280 educated at the expense of the state, 125 of whom are above and 135 under 10 years of age. According to law 100 children may be admitted gratis in each of said schools. In the central school, English, French, Spanish and Italian tongues are taught by professors, and in the two primary schools English, French, and arithmetic. A great many pupils are distinguished for good conduct and scholarship. The pecuniary situation of these two institutions which are confided to the patronage of the Legislature, is such at this moment, that immediate legislative enactment can alone save them from impending ruin, since the repeal of the law authorising the sale of leases for keeping gambling houses, and allowing a portion of the proceeds for the maintenance of these schools; the only fund received by them from that source, is a sum of $6500 which the Regents have authorised the president to draw upon the Treasury of the State to the amount of the said sum received in said revenues until the first meeting of the Legislature, or that sum of $6500 by means of which the Regents are authorised to meet the expenses of the schools which they have established, and the numerous wants and resources now necessary to the existence of the central institution of the city.

In the parish of St. Charles there are two schools having together 70 indigent pupils, educated at the expense of the state, 16 of whom are above, and 4 under 10 years of age, English, French and arithmetic are taught, and in two others French only. That parish has received out of the state Treasury from Jan. 1st to Dec. 31st 1835 the sum of $468

In the parish of St. John there are 4 schools having together 41 pupils at the expense of the state 11 of whom are above, and 30 under 10 years of age, English, French and arithmetic are taught, and in two others French only. That parish has received out of the state Treasury from Jan. 1st to Dec. 31st 1834 to December 1st 1835, the sum of $1690 50.

In the parish of St. John there are 4 schools having together 80 pupils, 62 of whom are educated at the expense of the state, English, French, and the elements of arithmetic are taught therein, that parish has received out of the public treasury from May 1st 1834, to Dec. 15th 1835 the sum of $1693 09.

In the parish of Pointe Coupee, there are 7 schools, having together 78 pupils educated at the expense of the state, 60 of whom are above and 18 under 10 years of age. English, French, Arithmetic, Geography, Mythology and history are taught therein, the number of indigent children between 8 and 15 years who receive no instruction is 200 The parish has received out of the State Treasury from 1st July 1834 to July 25th 1835, the sum of $763.

In the parish of St Mary, there are 6 school-wards in one of which, viz: the 6 h there has been no school held since August last. There are about 8 indigent children in the said. The reports of the second wards, 9 pupils educated at the expense of the state, that parish has received out of the public monies from August 28th 1834 to November 7th 1835, the sum of $1366 66.

In the parish of Claiborne there
