Circuist—The government has received information that, in the United States of North America, meetings are called for the avowed purpose of getting up and fitting out expeditions against the Republic of Mexico, in order to send assistance, to the rebels, loster the ervil war, and inflict upon our country all the calumities by which it is followed. In the United States, our socient ally, expeditions are now organized smaller to this theaded by the traitor Jose Antonio Mejia, and some have even set out for Texas. They have been furnished with every kind of animunition, by means of which the revolted colonists are enabled to resist and light the nation from which they never there received but immense benefits. The government is also positively informed that these acts, contermed by the wisdem of the laws of the United ment is also positively informed that these acts, con-demned by the wisdom of the laws of the United States, are also reported by the general government, with which the best intelligence and the greatesthar-niony still prevail. However, as these adventurers and speculators have succeeded in secaping the penal-ties inflicted by the laws of their own country, it beand speculators have succeeded in secaning the penalties inflicted by the laws of their own country, it becomes necessary to adopt measures for their punishment. His excellency the president ad interim, anxious to repress these siggressions which constitute not
only an offence to the sovereignty of the Mexican nation, but also to an evident violation of internationa
laws as they are generally adopted, has ordered the
following decrees to be enforced.

Is. Foreignars landing on the coast of the republic

intention of sitacking our country, will be deemed
pirates and dealt with as such, being citizens of no nation presently at war with the republic, and fighting
